

FIRE SAFETY CHECKLIST

OHEAP
FIRE & SECURITY

A fire risk assessment isn't just a tick box, it's your first line of defence in any emergency situation. Act now!

- Have your extinguishers been serviced in the last 12 months?
- Are fire blankets and extinguishers present where needed?
- Have fire doors been inspected in the last 6 months?
- Are your emergency exits clear of obstructions?
- Are measures in place against smoking?
- Are fire safety signs and notices visible?
- Have fire safety systems been tested?
- Is your fire alarm tested every week?
- Are all staff trained and aware?
- Do you carry out fire drills?

STAY PROTECTED

OHEAP
FIRE & SECURITY

If you've ticked NO to even one item, you could be at risk legally, financially, or more importantly, in terms of lives.

A thorough fire risk assessment helps you identify potential hazards, implement essential prevention measures, and ensure the safety of everyone on your premises.

Don't leave fire safety to chance; take proactive steps today to protect your property and comply with regulations.

TAKE ACTION!
