LFX Lithium-Ion 6 litre Fire Extinguishers

6Litre: 27A

The LFX 6ltr fire extinguisher is **NTA 8133** tested up to **600Wh**. NTA 8133 is the first standardised publication of testing for portable fire extinguishers on lithium-ion battery fires.

The LFX extinguisher uses an endothermic process to absorb heat and break-down the chain reaction known as 'thermal runaway'. This aids in preventing the surrounding cells from overheating and catching fire.

The LFX fire extinguishers are water-based and 100% fluorine-free. Therefore, in addition to tackling lithium-ion battery fires, it is capable of extinguishing Class A solid combustible fires including cloth, wood and paper.

Suitable for; cordless power tools, vacuum cleaners and handheld self-serve scanners

Agent	LFX
Capacity	6
Fire Performance	27A
Working pressure (bar) at 20°C	15
Max. Service Pressure (bar)	20
Temperature range	+5 - +60
Discharge time (secs) at 20°C	47 - 53
Cylinder	Lined Steel
Certification	NTA 8133, BS EN3, MED, MSR, PED, UKCA, CE
Dimensions (H x W x D) in mm	568 x 206 x 510
Weight (Kg)	10

The LFX Range

We have a full range of products to ensure you can effectively manage the Lithium-Ion Battery fire risk within your specific environment

Stands & ID Signs

Ensure that your FireShield LFX Fire Extinguisher are clearly identifiable with the correct Lithium-Ion Battery ID signs and Stands.

Bundles

Purchase your LFX Fire Extinguishers and our robust, all-weather containers together for added value - available in single or double, and for 6ltr & 9ltr units.

Blankets

Protect against large lithium-ion battery fires with a combination of LFX Fire Extinguishers and a large Lithium-Ion fire blanket.

6m x 8m single-use or multi-use Fire Blanket

FireShield Heavy Duty Fire Blanket

3m x 3m Premium single-use or multi-use Fire Blanket
