

SPECIFICATIONS: BIRDS & BEES FLL MEADOWMAT®

- **PRODUCT ORDER CODE** MEAD-BBFL
- **STANDARD SIZE** 1m²
500mm wide (19.6")
2000mm long (39.3")
- **WEIGHT PER M²** 20kg – saturated weight may be up to 25kg
- **GRASS HEIGHT ON DESPATCH**

Approx. 100mm (4"). The product is mown before despatch to minimise damage to plants. It will not be in flower when it is delivered.

All measurements are approximate and taken when harvested.

- **GROWTH** Harrowden Birds & Bees FLL Meadowmat® is a blend of 34 British native wild flowers and 6 naturalised flowers specially selected to be pollinator friendly and beautiful. Many of the species are perennial and will flower every year if the conditions are suitable. Grown on a biodegradable coir blanket, grass species are not necessary in this more colourful Meadowmat® which is also suitable for green roof installations. Birds & Bees FLL Meadowmat® will contain mature plants, root fibre and enough substrate to maintain the plant during establishment.

- **TYPICAL SEED MIXTURE*** 100% Native and Naturalised Wildflowers
- **SOIL CLASSIFICATION** Grown on bespoke extensive substrate.

WITH NO GRASSES, THIS 100% WILDFLOWER MIX IS IDEAL FOR USE ON GREEN ROOFS OR AREAS WHERE A FLORALLY FOCUSED DISPLAY OF COLOUR IS REQUIRED.

**The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators

FEATURES: BIRDS & BEES FLL MEADOWMAT®

■ FEATURES

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time-consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains perennial, annual and biannual species to ensure a varied display each year.

Grown on a low nutrient green roof substrate to ensure the best mix of species and controlled growth.

Environmentally friendly requiring no pesticides and only minimal feeding when installed on a roof.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or substrate mix.

IDEAL FOR:

**BIODIVERSE
LANDSCAPING SCHEMES**

**LOW MAINTENANCE

- White Campion
- White Clover
- Wild Basil
- Wild Carrot
- Wild Clary
- Wild Marjoram
- Wild Pansy
- Wild Thyme
- Yarrow

**100% Native &
Naturalised Flowers**

**As sown. The actual percentage of each species contained may vary due to environmental factors. Harrowden makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual, bi-annual and perennial species. If installed after March many species may not flower during the first year.*
