- **GROWTH** Harrowden Cottage Garden Meadowmat® is a blend of 2 slow-growing grasses and 30 wildflowers many of which could be found in an old fashioned English garden. Most of the species are perennial which means they will flower every year if the conditions are suitable. The specially selected grasses ensure coverage all year round. Harrowden Cottage Garden Meadowmat® will contain mature plants, root fibre and enough soil to maintain the plants during establishment.

- **TYPICAL SEED MIXTURE\*** 5% Grasses  
95% Wildflowers
- **SOIL CLASSIFICATION** Grown on a loam and compost based substrate.

**A GLORIOUS BLEND OF NATIVE AND NON-NATIVE PLANTS AND GRASSES TO ATTRACT AND SUPPORT POLLINATING INSECTS WHILST BRINGING A BEAUTIFUL SPLASH OF COLOUR TO YOUR GARDEN.**

## FLOWERING TIMES

**BIODIVERSITY  
NET GAIN**

\*\*The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at [rhs.org.uk/plantsforpollinators](https://rhs.org.uk/plantsforpollinators)

# FEATURES: COTTAGE GARDEN MEADOWMAT®

## ■ FEATURES

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time-consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains perennial, annual and bi-annual species to ensure a varied display each year.

Environmentally friendly requiring no fertilisers or pesticides.

A mixture of grasses and wildflowers for year-round interest.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil.

## IDEAL FOR:

**BIODIVERSE LANDSCAPING SCHEMES**

**LOW MAINTENANCE AREAS**

**COMMERCIAL LANDSCAPING**

**URBAN AREAS AND PARKS**

**DOMESTIC GARDENS**

95% Flowers**

**Native Grasses**

**Native Wildflowers**

**PLASTIC FREE**

Grass/Flowers

Free draining sandy loam  
and compost

Coir fibre

*\*As sown. The actual percentage of each species contained may vary due to environmental factors. Harrowden makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual, bi-annual and perennial species. If installed after March many species may not flower during the first year.*
