

MEADOWMAT® TRADITIONAL SEED MIX

■ **PRODUCT ORDER CODE** SEED-MEAD-TRAD

■ **STANDARD SIZE** Available in various quantities.
Sowing Rate 5g/m².

■ GROWTH

Harrowden Traditional Meadowmat® Seed Mix is a blend of 5 slow growing grasses and 29 native and traditional wildflowers typically found in an old fashioned hay meadow. Many of the species are perennial which means they will flower every year if the conditions are suitable. The specially selected grasses ensure coverage all year round.

■ TYPICAL SEED MIXTURE*

10% *Slow Growing Grasses*: Slender Creeping Red Fescue, Chewing's Fescue, Common Bent, Small-leaved Timothy, Quaking grass

90% *Native wildflowers*: Autumn Hawkbit, Betony, Birdsfoot Trefoil, Bladder Campion, Common Daisy, Common Knapweed, Common Poppy, Common Sorrel, Common Vetch, Corn Marigold, Cornflower, Great Burnet, Lady's Bedstraw, Meadow Buttercup, Meadow Cranesbill, Meadowsweet, Oxeye Daisy, Ragged Robin, Red Campion, Red Clover, Rough Hawkbit, Salad Burnet, Selfheal, Small Scabious, Tufted Vetch, Wild Carrot, Wild Marjoram, Yarrow, Yellow Rattle

■ USES

Biodiverse landscaping schemes.

Low maintenance areas.

Commercial landscaping.

Urban areas and parks.

Domestic gardens.

■ FLOWERING TIME

Flowers from March to November (dependent on local weather conditions) peak flowering is from June to September.

OUR TRADITIONAL MEADOWMAT® SEED GIVES YOU A COLOURFUL MIX OF GRASSES AND FLOWERS TO RECREATE THE WILDFLOWER MEADOWS OF YESTERYEAR.

FEATURES

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

A mixture of grasses and wildflowers for year round interest.

Environmentally friendly requiring no fertilisers or pesticides.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil.

*When grown the actual percentage of each species contained may vary due to environmental factors. Harrowden makes every effort to ensure wildflower products are free from weeds, however due to the natural way in which these seeds are collected we cannot guarantee they are 100% weed free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a wildflower area that will adapt to individual settings which may mean some species are more successful than others. Contains annual, bi-annual and perennial species.

**The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators
