# About us

**Universeal UK is a manufacturer and distributor of a full range of anti-tamper / tamper-evident security seals and tamper-evident packaging.**

Universeal UK Ltd. is part of the worldwide Universeal Group of Companies. We combine to offer a comprehensive, competitive and innovative range of security seals and tamper-evident packaging for all sectors of industry and commerce.

## Our Company

With over 30 years' experience and thousands of satisfied customers, we pride ourselves in our friendly, knowledgeable approach. Whatever the security requirement, big or small we offer a fast, reliable service and second-to-none value for money products.

Universeal UK Ltd. is part of the worldwide Universeal Group of Companies; our partner networks extends across France, Ireland, South Africa, Australia, Canada, Japan, and USA. We combine to offer a comprehensive, competitive and innovative range of security seals and services for all sectors of industry and commerce.

Our Security Packaging range is trusted to protect cash, documents, clinical samples, pharmaceuticals, evidence, spare parts, confidential records, returns and other sensitive items in transit. From tamper-evident envelopes and cash bags to UN3373-compliant packaging, desiccants and secure carry cases, we have the experience to recommend the right solution for your movement and storage needs. Backed by over 30 years in the industry, we offer a responsive, knowledgeable service and great value products to help keep contents secure from dispatch to delivery.

### Service

**We are a small, friendly team who will go above and beyond to help our customers.**

Our comprehensive product knowledge can help find the solution that fits your enquiry, be it large or small and we pride ourselves in our fast, efficient service.

**We are here to support you, online, on the phone or in person!**

### Certification & Global Reach

The majority of our products are manufactured in ISO 9001 and ISO 14001 certified production facilities. Copies of certification are available upon request.

We have production facilities within the UK, Europe, North America and the Far East and sales teams within the UK, Europe and North America ready to support your requirements.

# Security Bags, Envelopes & Pouches

Security bags, envelopes and pouches are tamper-evident solutions designed to protect items in transit or storage. Tamper proof bags and envelopes reduce the risk of transporting many types of sensitive items, providing an additional layer of security and a deterrent to potential theft or fraud. Choose from polythene single-use envelopes for secure mailing, healthcare samples and cash deposits, or durable reusable secure pouches ideal for internal mail and cash-in-transit operations. Each bag is designed to provide clear tamper evidence, with features such as VOID closures, sequential numbering and barcode tracking, ensuring traceability and compliance. Standard sizes include A5, A4 and A3, with flat or gusseted options, while custom printing is available (for example, see our customised security bags).

Security bags are commonly used as secure mail bags (e.g. for sealing confidential documents like exam papers); as cash deposit bags (AKA "cash-in-transit" /"CIT" bags); and as security bags for clinical items and police evidence. Our secure tamperproof bags and envelopes reduce the risk of transporting many types of valuable or sensitive items, providing an additional layer of security and a deterrent to potential theft or fraud. Our solutions deliver trusted security for organisations across logistics, healthcare, retail, banking, government and law enforcement.

## C5 / A5 Mail Security Bags (180x260mm)

**SKU:** UV007-A5

A5 Single-Use Tamper-evident Security Bags for Secure Mail, Evidence & Valuables.

- C5 Size (180mm x 260mm) to snugly fit bundles of A5 documents
- High-quality and durable, with secure tamper-evident closure to notify of opening or tampering. Tear-resistant, freeze-resistant and heat-resistant.

**Applications:** Secure packaging and mailing of valuable assets, personal effects and sensitive mail.

**Product Size Guide:** A5 size (180x260mm + 30mm dual tear-off receipts)

**Material:** PCR Polythene (55mic thickness)

### Heavy-duty Woven PP Security Sacks

**SKU:** UVTEB-WPP7763W

Strong heavy-duty sacks in durable woven PP material, with eyelets for security sealing. 50KG+ weight limit.

- Eyelets can be used in conjunction with security seals.

**Applications:** Bulk transport of sealed produce, finished goods, industrial equipment, consumer items, etc.

**Customisation Options:** Full customisation with company logos, text, etc.

**Product Size Guide:** Bespoke sizes available. Standard: 70cm tall x 63cm wide. 15cm side and base gussets.

**Material:** Woven Polypropylene (PP)

**Pack Size:** Bundles of 25

# Moisture Absorbing Desiccants

Moisture absorbing desiccant packs protect goods against damage caused by moisture. Damp, humid conditions can damage goods, cause mould growth, promote metal corrosion, and deface / degrade packaging. This is of particular concern when transporting goods in shipping containers – variations in atmospheric pressures globally can cause containers to trap high levels of humidity, posing a risk to cargo during their long journeys globally. Our desiccants are particularly effective in absorbing this moisture within ambient air inside shipping containers, ensuring that cargo remains dry and free from damage caused by humidity.

Industry 

## Container Desiccant - 1000g Hook

**SKU:** VV1000

1000gram Hook – Hanging Moisture Absorbing Desiccant Packs for Shipping Containers.

- 1000g Hook packs hang from lashing points in recesses of shipping container walls, retaining valuable space for cargo.

**Applications:** Moisture absorbent for shipping containers and storage enclosures.

**Product Size Guide:** 125g – 1500g absorbent packs

**Material:** Calcium chloride / modified starch absorbent. Anti-leakage paper / back side PE film with adhesive.

**Pack Size:** Cartons (SKU specific)

Industry 

## Container Desiccant - 500g Strip

**SKU:** VV500

500gram Strip – Moisture Absorbing Desiccant Packs for Shipping Containers & Pallets. Protect from Cargo Damage.

- Versatile 500gram Strip configuration – can be hung in shipping containers or stuck on the top of pallets and crates.

**Applications:** Moisture absorbent for shipping containers and storage enclosures.

**Product Size Guide:** 125g – 1500g absorbent packs

**Material:** Calcium chloride / modified starch absorbent. Anti-leakage paper / back side PE film with adhesive.

**Pack Size:** Cartons (SKU specific)

Industry 

## Carton/ Pallet Desiccant - 125g

**SKU:** VV125

125gram Single – Moisture Absorbing Desiccants for Cartons & Pallets. Protect Goods from Water Damage.

- 125gram packs for moisture control inside cartons, pallets & crates.

**Applications:** Moisture absorbent for shipping containers and storage enclosures.

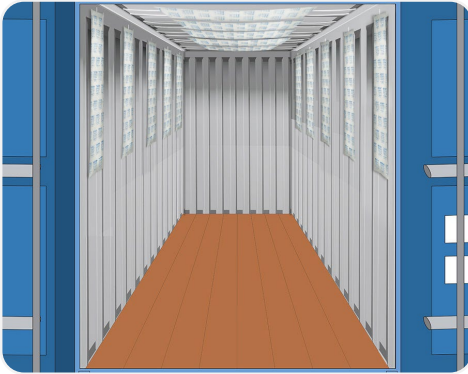

**Product Size Guide:** 125g – 1500g absorbent packs

**Material:** Calcium chloride / modified starch absorbent. Anti-leakage paper / back side PE film with adhesive.

**Pack Size:** Cartons (SKU specific)

# Secure Transport & Logistics

Our secure transport packaging products help to provide safe and secure transit of your goods, ensuring that valuable cargo arrives at its destination in pristine condition free from damage which can be caused in international freight movements. Our wide range of solutions can provide cargo protection across many types of consignments, including secure transit and shipment of individual items such as clothing garments, parcels, crates, pallets, tote boxes and shipping containers. This includes protection from exposure to moisture with our container desiccant bags; protection from mishandling with our shock and tilt indicator labels; well as the supply of dunnage bags which help to keep cargo securely stowed in shipping containers and HGV trailers.

Industry  

## Shipping Container Desiccant Bags

**SKU Range:** VV125 – VV1000

Moisture Absorbing Desiccant Packs for Shipping Containers. Protect valuable goods from damage.

- Desiccant bags absorb water from the ambient air, reducing the humidity levels with shipping containers to protect cargo from damage.

**Applications:** Moisture absorbent for shipping containers and storage enclosures.

**Product Size Guide:** 125g – 1500g absorbent packs

**Material:** Calcium chloride / modified starch absorbent. Anti-leakage paper / back side PE film with adhesive.

**Pack Size:** SKU-specific

Industry  

## Tilt Indicator Cargo Labels

**SKU:** UVINDT

Tilt indicator labels monitor for unacceptable tilting of cargo which must remain upright.

- Tilt indication labels for wide ranging application to sensitive cargo in transit.
- Reduces losses caused by mishandling during transportation or storage.

**Applications:** Safe handling of pallets, export cases etc in many sectors, including automotive, precision components, furniture, scientific, medical and electrical industries.

**Product Size Guide:** 120x120mm

**Material:** Acrylic Adhesive

**Pack Size:** Carton of 50pcs

**Colour:** Yellow 

Industry  

## Shock Indicator Cargo Labels

**SKU:** UVINDS

Shock indicator labels. Monitor sensitive cargo to protect against mishandling during transit.

- Shock labels watch for excessive force beyond 15g, 25g, 37g, 50g, 75g and 100g force level.

**Applications:** Safe handling of pallets, export cases etc in many sectors, including automotive, precision components, furniture, scientific, medical and electrical industries.

**Product Size Guide:** 96 x 96mm

**Material:** Acrylic Adhesive

**Pack Size:** Carton of 100

**Colour:** Blue  Yellow  Purple  Red  Orange  Green

### U-Temp Temperature Data Logger

**SKU:** UVTEMP

USB temperature data logger for cold chain monitoring. Accurate temperature tracking for pharmaceutical & food sectors.

- Pre-configured, compact single-use USB temperature data logger
- Wide temperature measuring range: -30°C to +60°C
- 2-year shelf life / 60 day operation – simply press button to start monitoring
- Built-in PDF/CSV report generation – no software needed
- EN12830 compliant for food and pharma supply chains

**Applications:** Temperature logging for pharmaceutical, food & beverage transportation.

**Customisation Options:** Customised Branding available (subject to MOQ)

Industry 

### Repair-a-Patches for Curtain Sided Trailers

**SKU:** UVRP

Curtain Sided Trailer Repair Kits, with self-adhesive patch to repair damage to tarpaulins.

- Quick and durable repair solution for your curtain-sided trailers.
- Available in 19 colours to match your tarpaulin.

**Applications:** Tarpaulin curtain sides.

**Product Size Guide:** Options available – 45x32cm patch; 220x22cm roll; 220x14cm roll.

**Pack Size:** Individual

**Colour:** Stock Colours: Red H7446, Blue H941, Silver H7300, Yellow H7462, Green H7333 and Transparent H000 / Full List of 19 Colours Available – Please See Colour Chart.

Industry  

### Trailer TIR Cords

**SKU:** UVTIR-2200

TIR cords for curtain-side vehicles

- Suitable for use with plastic and metal security seals

**Applications:** Securing curtain side vehicle buckles – can be used in conjunction with a security seal on back of vehicle.

**Customisation Options:** Customisation: custom length.

**Material:** Galvanised steel and plastic coating.

**Product Size Guide:** 6mm diameter x 16.5mt, 22mt, 34mt and 36.5mt lengths (custom lengths also available)

# UN3373 Category B / P650 Packaging

Secondary packaging containers for transport of infectious substances under UN3373 Category B and P650 packaging regulations. Secondary siftproof and leakproof packaging, including our SecureLab range of leakproof pouches, can be used as secondary containers within the UN3373 triple packaging system, for the transportation of primary containers containing specimen samples – including blood, swab and stool samples in medical, diagnostic and laboratory settings.

Our 95Kpa bags are specifically designed to meet the criteria for transporting Category B infectious substances under UN3373 regulations. These bags ensure the integrity and safety of biological samples by providing a robust, leakproof, and pressure-resistant secondary packaging solution. Ideal for medical, diagnostic, and laboratory settings, they are essential for compliance with Class 6.2 dangerous goods transport requirements.

# Healthcare Clinical Waste Bags

Using the appropriate UN3291-certified clinical waste sacks within medical and hospital facilities is a crucial health and safety requirement mandated by UK and international regulations for safe transport and disposal of hazardous waste. Clinical waste is separated into different streams depending on its contents and should be disposed in the relevant alternative treatment, incineration or landfill facilities depending on the likely risks to human health. The clinical waste bag categories shown below (yellow, orange, tiger stripe and domestic waste sacks) are the most popular ranges, accounting for 95% of the clinical waste produced in the medical sector.

Industry  

## Orange Clinical Waste Sacks

**SKU:** UVCWO

Orange clinical waste sacks for infectious human waste.

- Co-extruded and star sealed using advanced co-extrusion technology.
- 5kg, 8kg, 10kg and 12kg UN 3291 approved weight sacks.

**Applications:** Sealing of clinical waste bags and sacks in medical, veterinary, dental and pharmaceutical sectors.

**Material:** Co-extruded, star-sealed material according to UN requirements.

Industry  

## Yellow Clinical Waste Sacks

**SKU:** UVCWY

Yellow clinical waste sacks for contaminated and infectious human waste.

- Co-extruded and star sealed using advanced co-extrusion technology.
- 5kg, 8kg, 10kg and 12kg UN 3291 approved weight sacks.

**Applications:** Sealing of clinical waste bags and sacks in medical, veterinary, dental and pharmaceutical sectors.

**Material:** Co-extruded, star-sealed material according to UN requirements.

Industry  

## Tiger Stripe Clinical Waste Sacks

**SKU:** UVCWT

Tiger stripe offensive waste sacks for non-infectious waste

- Advanced co-extruded materials for strength and leak protection
- Available in 70L and 90L capacities

**Applications:** Sealing of clinical waste bags and sacks in medical, veterinary, dental and pharmaceutical sectors.

**Material:** Advanced co-extruded materials for strength and leak protection.

## Healthcare Clinical Waste Bags

CLEAR AND BLACK  
WASTE SACKS – FOR  
DOMESTIC WASTE

### Clear and Black Domestic Waste Sacks

**SKU:** UVCWB

Clear and black sacks for domestic waste, printed 'Household Waste only'

- Available in clear and black options
- Pre-printed 'Household Waste Only'

**Applications:** Disposal of domestic types of waste, including packaging, etc.

**Material:** Polythene

Industry  

# Eco-Friendly Bags & Mailers

Our range of environmentally sustainable security, ecommerce and mail order bags offer greener, lower carbon packaging alternatives to traditional virgin plastic bags used in security and commercial applications, without sacrificing quality and weather-resistance. The range includes bags manufactured from compostable materials (including materials such as PLA); renewable sugar plastics (such as 'I'm green' polyethylene derived from sugar cane); recycled-content bags (containing at least 80% post-consumer recycled plastic); as well as reusable PVC security bags, which can be used hundreds of times over a long lifespan.

## Custom Courier Paper Mailers

**SKU:** UV007CUST

Custom Courier Paper Mailers for eCommerce. 100% Plastic Free. Bespoke sizes and print.

- Paper-based mailers, bespoke to order.
- 100% plastic-free ecommerce mailer.

# Tote Boxes & Plug Seals

Our security tote boxes, otherwise known as ALC's (attached lid containers), and plug seals are the perfect solution for the secure storage and transport of many kinds of bulk items, inventory and documents for archive. Our ALC tote boxes are available in a range of colour and size options, including popular 28ltr, 43ltr, 55ltr and 80ltr sizes. Our plug seals (also known as 'tote box seals', 'arrow lock seals' and 'crate seals') are available from UK stocks in multiple colours with/without security barcode numbering, or alternatively can be customised with your own information. Security tote seals are often used in the pharmaceutical sector to protect hazardous or dangerous substances, and in the retail sector for the protection and storage of merchandise.

## Sustainability

100% Recyclable

Industry  

## SK1 Plug Seals for Tote Boxes
