

THE MOST COMPLETE LATEX LV PORTFOLIO

HP Latex 630 Printer series - walkaround

POSSIBILITIES

Level up your offering

EFFORTLESS

Get it done quickly and easily

GO BEYOND

Lead with environmental certifications

+ Print and cut simultaneously

Reliable dual-device solution - accurate job recognition, error-free cutting

Media versatility including heat sensitive media

HP Latex Inks cured at lower temperatures with Printzone drying system

Minimize media waste

Print from the leading edge of the media

Most environmentally certified technology

UL Ecologo, EPEAT®

Comfortable working environment

Water-based HP Latex Inks

Stunning image quality with vivid colors, smooth gradients and sharp text

Gen 4 inks, HP Pixel Control Technology, and new printhead architecture

Remote printer monitoring and learning

HP PrintOS and HP Learn app

Peace of mind in your daily operations

Automatic maintenance processes and user replaceable printheads

Easy reprints from the front panel

Job queue able to store up to 10 GB of jobs

Best white ink printing experience

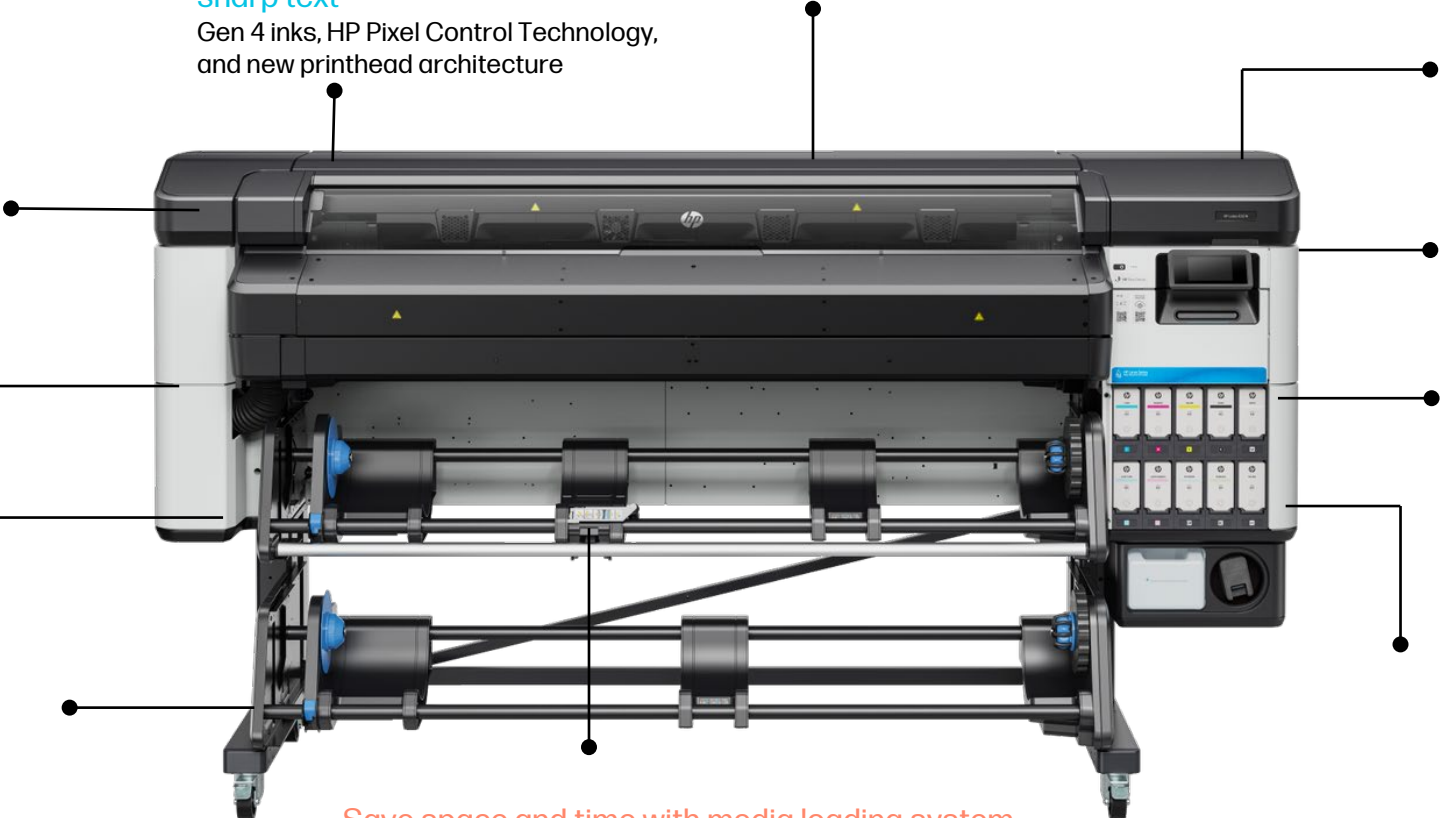

All white ink modes available, no waste when not in use, and automatic ink recirculation system

Reduce your impact with sustainable supplies

Carton-based and label-less cartridges, and easy recycling with HP Planet Partners program

Save space and time with media loading system

Frontloading, spindle-less, and automatic skew correction

HP Latex 300, 600 and 700 series - features

	HP Latex 335	HP Latex 630(630W)	HP Latex 365/375	HP Latex 700(700W)	HP Latex 800(800W)
Max width	1.63 m / 64 in				
Max roll	42 kg			55 kg	
Indoor Q	13 sqm/h (8p)	14 sqm/h (6p) 11 sqm/h (8p)	17 sqm/h (8pass)	21 sqm/h (6pass)	25 sqm/h (6pass)
AMPV	250 sqm/m		350 sqm/m		850-900 sqm/m
Ink Generation Advantage	G3: great durability	G4: white, separate overcoat, extended gamut, heat sensitive media	G3: great durability	G4: white, separate overcoat, extended gamut, heat sensitive media	
Applications	Versatility (including non-porous textiles and magnets)	Versatility, (non-porous textiles and magnets with OPP accessory)	Versatility: porous textiles (with ink collector in the box) and double-sided	Extended versatility, porous textiles w/accessory.	
Other	4,3 inch FP	Spindle less loading, reprint, PfP, 4,3 inch FP	Spectrophotometer, 8 inch FP	Spindle less + raise curing easy loading, reprint, spectrophotometer, 8 inch FP	Spindle less + raise curing easy loading, reprint, spectrophotometer, 8 inch FP, beacon, 3L

Higher gamut, ease of use, white applications

50% higher productivity, color accuracy, ease of use, FP

Lower cxc, higher unattendance
