

Welcome to 2026 with Forwessun.

**The Complete Solution for
Test Fixtures, Test Systems & Test
Software**

Explore our services 

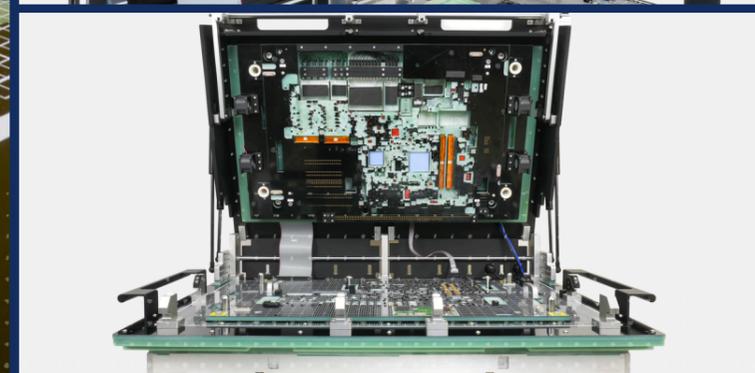

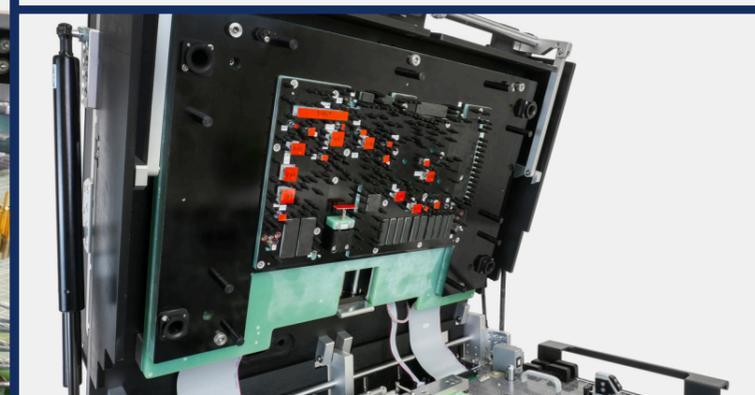

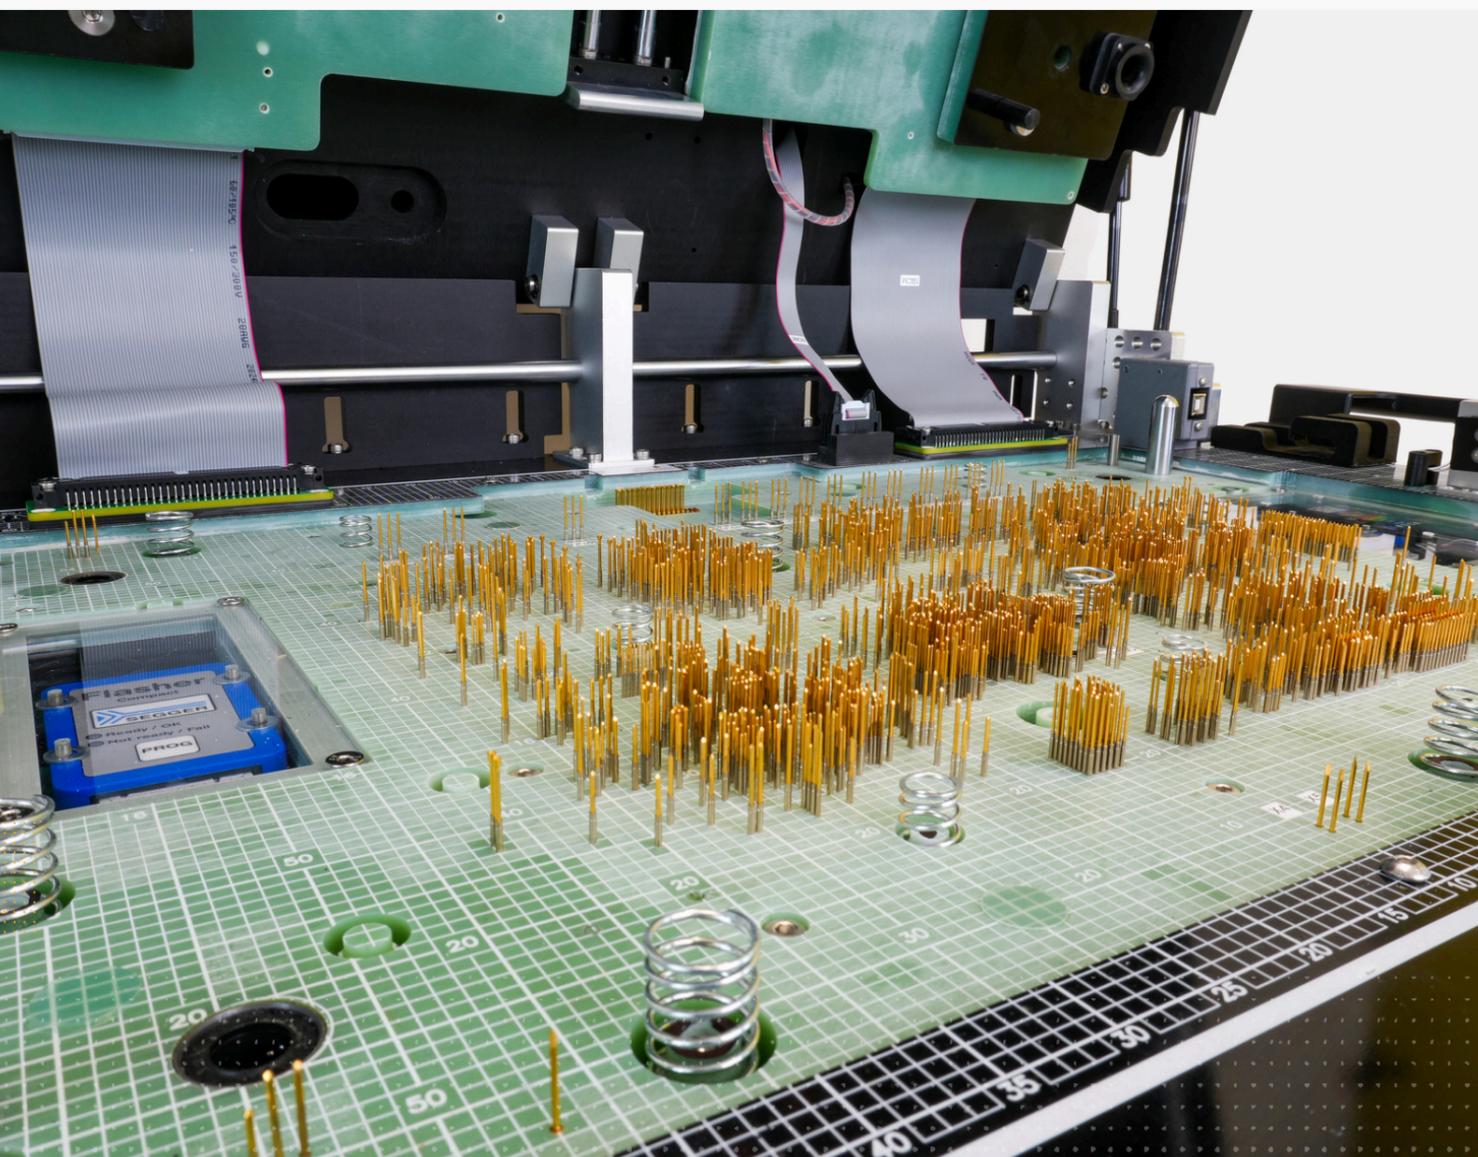

In-Circuit Test Fixtures

Kickstart 2026 with Smarter ICT Testing. This year, Forwessun continues to deliver high-quality, full turnkey solutions tailored to your platforms:

- **HP3070 / Agilent / Keysight**
- **GenRad**
- **Teradyne**
- **Spectrum**

From standard setups to complex in-line configurations, we match your testing requirements precisely. No matter the PCB complexity or location – Americas, Europe, or Asia, our team can deliver and support your legacy and modern test platforms.

Functional Test Fixtures

If inconsistent results, unreliable checks, or slow fixtures are holding up production, we can help. Our Functional Test Fixtures deliver stable, repeatable real-world performance built to integrate smoothly into your workflow

What We Deliver

- Custom FCT fixtures built to your exact needs
- Reliable, repeatable real-world testing
- Full hardware + software integration
- 50+ years of global test engineering expertise

Refurbished Test Systems

If you're dealing with an unreliable test system, struggling with downtime, or need to expand your testing capacity fast, we have you covered. We provide flexible, dependable ICT system solutions designed to keep your production moving.

How We Support You

- Like-new refurbished ICT systems at a fraction of the cost
- Short- and long-term rental options to boost capacity
- Fast, reliable repairs from experienced engineers
- Service contracts for ongoing maintenance and uptime
- Accurate, compliant calibrations
- A full range of spare parts to keep you running

Your Test Partner for 2026

From fixtures to refurbished test systems, Forwessun is here to keep your production running smoothly.

Need Support? Our Team Is Here to Help

Whether you're planning a new project, troubleshooting a test challenge, or looking for more information about our capabilities, our dedicated team is ready to assist. Reach out to us directly or explore our website for detailed service information, fixture galleries, and real-world case studies.
