Office Relocation Services

Specialises in seamless office moves, ensuring data safety and operational efficiency. Services include network, data centre, cabling, power supply, WAN and LAN support, equipment migration, and AV capabilities.

Network and Wi-Fi Infrastructure

Provides end-to-end project management for setting up or expanding networks. Services cover Wi-Fi surveys, network design planning, installation and testing, enhancing telecom networks, server rooms, and data security designing.

Project support

Offers ad hoc projects including testing, evaluations, and customised services. Partnership with Excel Networking provides access to a 25-year warranty on Cat6 and Fibre cabling.

Custom Full-Service IT Support

Delivers tailored IT solutions for office relocation, infrastructure upgrades, and network installation.

Why use Constructive-IT?

Expertise: Over 20 years of experience with a focus on client satisfaction.
