KNatureCare

ARGAN OIL WITH AROMATHERAPY
SYNERGIES FOR BEAUTY AND
WELLBEING

Awards Winning

Best Argan Oil Beauty
Brand 2023

About Us

KNatureCare is an award winning UK-based company offering a range of 100% natural, sustainably sourced argan oil designed to work from the inside out, enhancing both skin and mind.

Free from cruelty, chemicals, and gluten, our luxurious blends are crafted with the highest quality Ecocert-certified Argan oil, ethically sourced through cooperatives that empower women and use traditional extraction methods to preserve the ecosystem.

We primarily cater to women who are passionate about natural living and seek relief from autoimmune-related dry or itchy skin, as well as those who embrace a chemical-free, gluten-free, or vegan lifestyle.

However, our products benefit people of all genders and ages.

What's inside Argan Oil

Linoleic, Oleic fatty acids and Omega-6
These help produce the skin's natural oil barrier, helping to keep skin hydrated, plumper, and younger looking

Vitamin E an essential nutrient and powerful antioxidant with anti-inflammatory properties, it helps support the immune system, cell function, and skin health

Phenols help to protect cells from the damage caused by free radicals in the environment

Carotenes help to protect against cellular damage and repair sun damaged skin.

Our Products
