Amberol is a family business offering quality moulded products including self-watering planters since 1969

At the heart of our business is a desire to make a visual difference. This includes stunning floral arrangements in calm peaceful villages and fast-paced city environments alike, and keeping Britain tidy through our wide range of bin products.

We believe that to offer the best solutions for our customers, conversation and collaboration are key. Working closely with our customers we offer tailored advice and free demonstrations to ensure they make the right decisions. We offer a flexible service and pride ourselves on customer satisfaction and providing quality, long-lasting products. As we celebrate 50 years of business, we are thankful we have made so many friends along the way, many of whom have been with us since the early days.

Our products are all manufactured in the UK to your specification by our skilled team. At Amberol we strive for product excellence. Our self-watering planters are built to last, they don't leak and they help keep evaporation down to a minimum.

All of our products are formed on-site in our factory in the heart of Derbyshire and assembled by hand by our team of skilled manufacturers. Designed with simplicity in mind, our products incorporate features that make set up and maintenance as easy as possible for our customers.

All Amberol products are made from a long-lasting material that is 100% recyclable at the end of its use. Our black products are produced using recycled plastics.

The Aquafeed Self-Watering System

Amberol pioneered and developed a unique Self-watering system called Aquafeed™

A series of high capacity capillary action wicks “suck” water up from a sub-soil water reservoir onto a dispersal mat. The dispersal matting distributes the water evenly to the compost overlaying it, keeping it moist at all times.

As a result, evaporation is kept to a minimum and plant roots absorb only the water they need, thereby keeping plants healthy and strong for longer.

Self-watering Planters need only be topped up once or twice a week. They cannot be over watered as they have overflow holes just above the dispersal matting base which allow excess water to escape.

Aquafeed™ helps to save precious water resources and considerable amounts of time and money because unlike traditional baskets, Self-watering Planters do not need watering daily.

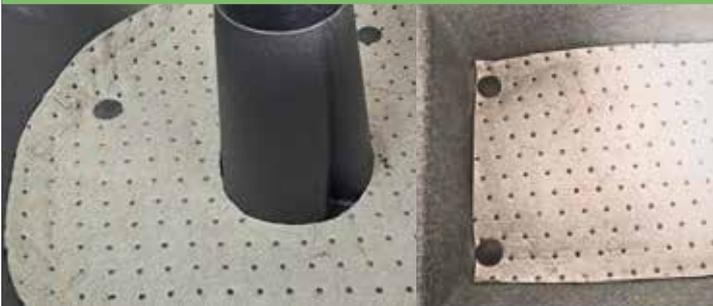

High capacity capillary action wicks

Water is pored into the reservoir holes

Dispersal matting

Overflow holes

Hangings Baskets

The quintessential floral display, with stunning cascades of colour to lift the spirit, whatever the season.

Unlike traditional hanging baskets, Amberol self-watering baskets do not leak; they minimize evaporation and only need to be watered once or twice a week. In short, they save time, water and money!

Cup and Saucer Hanging Basket

CAS-0P & CAS-1P

The Cup and Saucer Hanging Basket is a firm favourite with Amberol customers, from the largest of organisations to the private individual. Available in two sizes it is pleasing in shape and style as well as producing wonderful floral displays.

Chains can be secured to bracket with a padlock or 'D' shackle (not supplied).

Karabiner clips enable quick release of chains.

Chains can be laid to one side for easy planting up.

Budget

Ornate

Amberol offer two designs of wall or post mounted brackets. Go to page 24 for more info.

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
CAS-0P	410	240	11	7	15
CAS-1P	530	265	24	13	27

Conventional Hanging Basket

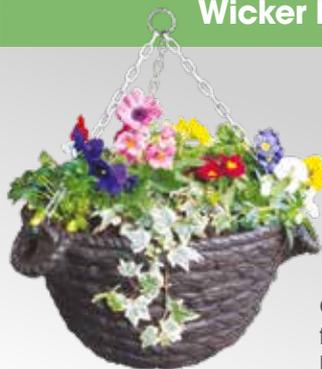

CHB-1P

Popular choice for the nurseryman for many years. Tough and effective it delivers consistent performance for your displays.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*(kg)
CHB-1P	470	270	15	6	16

Wicker Hanging Basket

WKR-0P

Created by popular demand for a more traditional looking hanging basket, our Wicker Hanging Basket includes our innovative self-watering system.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*(kg)
WKR-0P	440	280	15	6	17

Imperial Hanging Basket

IMP-0P

IMP-0P (Chain)

These hanging baskets follows a classic design providing you with a fantastic platform to produce stunning floral displays.

The IMP-0P comes with a wall or post mounted bracket included. The IMP-0P (chain) comes with chains included. The bracket featured is a BR-CAS-BRW Ornate hanging arm and is available for post or wall mounting.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*
IMP-0P	500	320	20	7	21kg
IMP-0P (Chain)	500	320	20	8	22kg

Top Tips

For safe installation and planting of your Hanging Baskets

- 1 Place your new Hanging Basket on a suitable, stable surface.
- 2 Release and detach one section of quick release chain; lay the chain system to one side for easy access.
- 3 Fill the basket with moist compost, and slow release fertiliser if desired, and plant up as required. Plant up densely for best results. **DO NOT** fill the water reservoir at this point.
- 4 Re-secure the hanging chain system checking that all the karabiner clips are closed properly.
- 5 When ready, carefully hang the basket from an appropriately mounted bracket. Lock the chain to the bracket if necessary.
- 6 The integral water reservoir can now be filled with water and nutrient. Leave the unique Aquafeed™ capillary action matting to do the rest!
- 7 Make one final check to ensure that the bracket and basket are properly secure.
- 8 Top up with water and nutrient no more than once a week (twice in extreme heat).

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Up-the-Pole Baskets

Fabulous, easy-to-mount units that can be safely secured to almost any pole, post or bollard using sturdy brackets.

Like all Amberol self-watering baskets, they do not leak; they minimize evaporation and only need to be watered once or twice a week. In short, they save water, time and money!

Removable inner liners can be filled and planted off-site for quick and easy on-site replacement.

Cup and Saucer Up-the-Pole Basket

CNS-1P

BR-CNS-BR Back-Strap

Inner Liners

The Half Unit Up the Pole Cup and Saucer Basket is a great shaped basket which can be placed on the pole as a single or paired unit to fully surround the pole.

BR-UTP-1BR

Please note that banding or jubilee clips are not included for fixing brackets to posts.

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
CNS-1P	650	300	12	9	18

Our scroll bracket is ideal for pole or post mounting Up-the-Pole Baskets. Back Straps must be used for single mounting.

Half Unit Up-the-Pole Basket

UTP-1P & 2P

Inner Liners

The UTP 1P & 2P Half Unit Up The Pole Baskets are a more traditional shaped design, that can be used either as a single unit or a paired unit.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*(kg)
UTP-1P	590	270	12	5	14
UTP-2P	800	270	25	14	31

Top-the-Pole Basket

**CUH-1P,
2P & 3P**

The CUH 1P, 2P & 3P are traditionally shaped baskets for customers requiring a basket to sit on the top of a fixed pole.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*(kg)
CUH-1P	470	270	12	5	14
CUH-2P	590	270	27	11	29
CUH-3P	800	270	52	26	60

New shape Top-the-Pole Basket

**TUH-1P,
2P & 3P**

Our TUH 1P, 2P & 3P baskets offer a softer silhouette to our traditional baskets and are ideal for customers requiring a basket to sit on the top of a fixed pole.

Product Code	Dia (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*(kg)
TUH-1P	500	300	14	9	20
TUH-2P	650	300	35	13	37
TUH-3P	820	310	50	27	63

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Large Floor Standing Planters

Big, eye-catching displays, for the public realm. Ideal for shopping precincts, pedestrian walkways, outdoor cafés and other open spaces. Used on their own or with tiered combinations, you can create abundant displays of colour. Using Amberol's unique self-watering Aquafeed™ technology, these planters create impact while saving you time, water and money!

Parade Planter

PDE-OP

The Amberol Parade Planter is perfectly proportioned to fit both large and small situations and with its aesthetically pleasing style will look in keeping, whether in the city or the village marketplace.

As a Nexus interlocking planter it also creates endless options for use, from providing space separation, such as between parking and pathways, to where seating areas can be designed to create havens of peace.

The new Nexus range has been designed to be interlocking with a simple to install moulded key, therefore enabling you to create walls in lines or at right angles to form any shape you wish, all topped with the beautiful floral displays you have come to expect from our self watering planters.

Product Code	Length (mm)	Width (mm)	Height (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
PDE-OP	1200	500	700	140	120	235

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Barrel Planters

BRL-OP

BRL-1P

BRL-HP

The Amberol Self-watering Barrel is natural looking with an authentic finish and looks perfect outside grand civic buildings, in busy public spaces, and on the village green.

The barrel is splinter free and safe, it doesn't rot and fall apart, nor does it lose its colour, rust or leave a mess. Available in two sizes and the half barrel version.

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
BRL-OP	630	450	100	21	81
BRL-1P	860	510	175	48	160
BRL-HP	850	510	60	22	62

Quarto Planters

QRT-OP

Large curved floor standing units that can be used singly in a quiet corner, in a semi circle against a wall, or as a weaving chicane. Or put four together to form a larger circular display! Ideal for a variety of locations and suitable for indoor or outdoor use.

Product Code	Length (mm)	Width (mm)	Depth (mm)
QRT-OP	950	370	400

Compost (litres)	Water (litres)	Total Weight* (kg)
75	26	80

Metre Square Planter

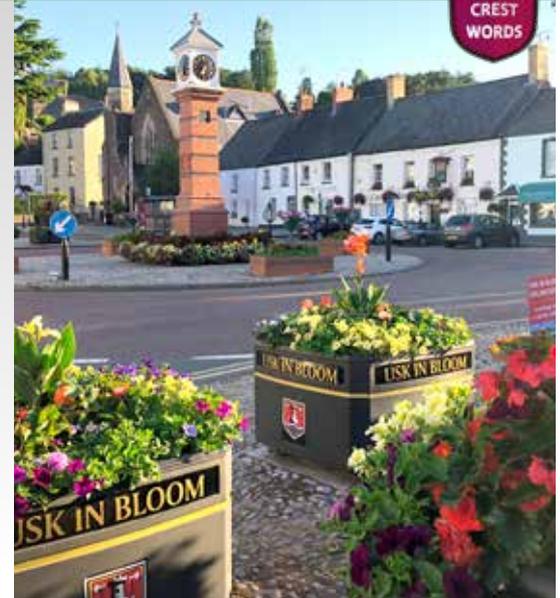

MSP-OP

Excellent for centrepiece displays in wide, open spaces or indoors, this large square self-watering planter is ideal for sponsorship opportunities with crests or wording plaques.

The Meter Square Planter can be “hidden” with contemporary panels to form a Parklet, improve aesthetics or to offer personalised graphics, logos, or sponsorship revenue. See page 28 for more info.

Product Code	Length (mm)	Width (mm)	Depth (litres)	Compost (litres)	Water (litres)	Total Weight* (kg)
MSP-OP	1040	1040	750	245	202	382

Promenade Planter

PRM-OP

Traditional and rectangular in appearance this ever popular large floor standing planter is ideal for space separation and the enhancement of paved areas.

The Promenade Planter can be “hidden” with contemporary panels to form a Parklet, improve aesthetics or to offer personalised graphics, logos, or sponsorship revenue. See page 28 for more info.

Product Code	Length (mm)	Width (mm)	Depth (litres)	Compost (litres)	Water (litres)	Total Weight* (kg)
PRM-OP	1500	500	750	204	180	345

Octagonal Planter

OCT-0P

A deep, classically shaped floor-standing planter ideal for shrubs and larger displays in wide open spaces.

Offering four insert panels, ideal for corporate branding or sponsorship crests.

Product Code	Length (mm)	Width (mm)	Depth (litres)	Compost (litres)	Water (litres)	Total Weight* (kg)
OCT-0P	1200	1200	750	250	196	390

Amphora Precinct Planter

AVP-0P

The aesthetically pleasing shape of the Amphora Precinct Planter is designed to be a small footprint planter with a big impact.

Whether standing alone or as a tiered planter (see page 15) it is guaranteed to bring a smile to peoples faces.

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
AVP-0P	800	600	150	56	148

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Big Flower Pot Planter

A circular floor standing planter ideal for areas with less space. Simple and uncomplicated, this timeless unit can be used almost anywhere.

BFP-0P

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*
BFP-0P	800	520	200	35	155

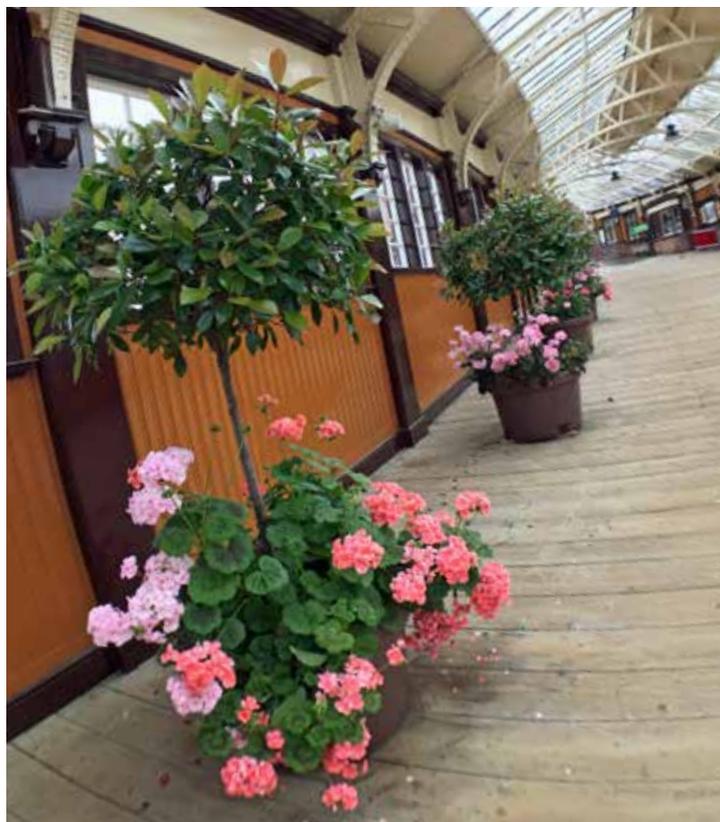

Cup & Saucer Planter

This large, circular, floor-standing planter with its gentle curves and contemporary styling is ideal for creating stunning floral displays where people gather.

CFS-0P

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*
CFS-0P	1000	600	250	65	225

Oval Planter

OVL-0P

Adds curves to your kerb appeal. Ideal lined up nose to tail, these floor standing units can be used to edge pavements or direct pedestrian flows. Inner liners are available separately for off-site planting up.

Product Code	Length (mm)	Width (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*
OVL-0P	1200	820	600	265	100	330

Stone Trough Planter

TRO-1P

Moulded from a genuine stone trough, this product is perfect for heritage locations, blending in with its surroundings to create the desired authentic look.

Product Code	Length (mm)	Width (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight*
TRO-1P	1050	600	440	75	60	122

Giant Precinct Planter

A giant circular floor standing planter for huge floral displays, for something really special! Inner liners are available separately to reduce the inner capacity or offer a ballast area.

GPP-0P

Product Code	Diameter (mm)	Depth (mm)	Compost (litres)	Water (litres)	Total Weight* (kg)
GPP-0P	1500	1000	710	250	700

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Softer Shaped Tiered Planters

With 'made simple' design features and easy watering, these planter tiers offer greater water capacities and incorporate design features to simplify putting your planter together.

Top Tips

For safe assembly, installation and planting of Floor Standing and Tiered Planters

- 1 Be careful! Floor Standing and Tiered Planters are heavy. They are designed to be moved with a pallet trolley, fork-lift truck or other mechanical lifting device. They can be manoeuvred by hand when empty, but do so with two people or more.
- 2 When used with Tiers, they must be assembled where the unit is to be located. The unit must be placed on solid, stable ground.
- 3 Tiered Planters are quick and easy to assemble, following our manufacturer's instructions. Once assembly is complete, fill each tier with moist compost, and slow release fertiliser if desired, and plant up densely for best results.
- 4 The integral water reservoir(s) can now be filled with water and nutrient. Leave the unique **Aquafeed™ Self-watering** capillary action wicks and dispersal matting to do the rest!
- 5 Make one final check to ensure that the unit is stable.
- 6 Top up with water and nutrient no more than once a week (twice in extreme heat).

Celebration Tiered Planter

CTP-3P

In response to the great demand for the Softer Shapes, Amberol released the Celebration Tiered Planter to add to the extensive available range. The new softer profile ensures your planter looks great even when your planting is in the early stages of growth.

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers
CTP-3P	1250	1430	3

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

New Precinct Fountain Planter

Based on a proven winning combination with an all new softer shape - this tiered planter, with greater planting area and larger water reservoirs, delivers top class displays.

MSP-3TUH

Product Code	Base Dia	Planter Height	Number of central tiers
MSP-3TUH	1040mm	2120mm	3

New Octagonal Fountain Planter

This beautifully shaped planter is further enhanced by the new complimentary shaped tiered planters to create an extremely pleasing design, fit to grace any situation.

OCT-3TUH

Product Code	Base Dia	Planter Height	Number of central tiers
OCT-3TUH	1200mm	2120mm	3

New Floral Fountain Planter

With the Big Flower Pot planter providing a solid base and the new softer shaped tiers offering a cascading aspect, this centrally situated two tier unit provides a big effect for a small footprint.

FF-2TUH

New Amphora Precinct Planter

The New Amphora Precinct Planter has been designed as a softer shaped tiered planter, with maximised planting surfaces, larger water reservoirs and simplified build features.

AVP-2P

Product Code	Base Dia	Planter Height	Number of central tiers
FF-2TUH	800mm	1700mm	2

Product Code	Base Dia	Planter Height	Number of central tiers
AVP-2P	800mm	1530mm	2

New Circular Precinct Planter

CFS-2TUH

CFS-3TUH

New softer shaped planter tiers combine beautifully with the Cup and Saucer base planter to provide an aesthetically pleasing shape designed to maximise your display opportunities.

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers
CFS-2TUH	1000	1570	2
CFS-3TUH	1000	2350	3

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Traditional Tiered Planters

Create town centre floral fountains with our large self-watering tiered planters. Choose your base, choose your tier and create your own statement with your own fountain of colour! Don't forget, bigger is better!

Beehive Planters

BEE-5P

BHV-3P

BHV-4P

BHV-5P

BHV-6P

Cascading with colour, full, bold and upright, this floral glory holds its own. Available as either a 3, 4, 5 or 6 tiered circular display on its own sturdy stand, this unit grabs attention.

Product Code	Base Diameter (mm)	Planter Height (mm)	Number of central tiers
BEE-5P	1250	1670	5
BHV-3P	1400	1080	3
BHV-4P	1400	1430	4
BHV-5P	1400	1690	5

* Total Weight quoted should be treated as indicative in normal conditions, which may vary with different weather and planting conditions. Capacities quoted are approximate and for guidance only.

Octagonal Fountain Planter

OCT-3P

With its Octagonal planter base, this tall tiered unit is a stunning accompaniment to large spaces and buildings.

Precinct Fountain Planter

MSP-3P

The tiered, square Precinct Fountain Planter has been a dependable unit for producing public floral displays for many years and continues to be a firm favourite.

Circular Precinct Planter

CFS-3P

A tall three tier planter that sits centrally in the contemporary floor standing Cup and Saucer planter.

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers
OCT-3P	1200	2350	3

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers
MSP-3P	1040	2350	3

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers
CFS-3P	1000	2350	3

Giant Precinct Fountain Planter

GPP-5P

Big is best! An enormous four or five tiered planter centrally located in the floor standing Giant Precinct Planter base.

Floral Fountain Planters

FF-2P

With the Big Flower Pot planter providing a solid base, this centrally situated two tier unit provides a big effect for a small footprint.

Two-Tier Barrel Planter

BRL-2P

The new Two Tiered Barrel Planter is an authentic, natural looking Barrel planter but with all the benefits of self-Watering, whilst avoiding the issues normally associated with traditional wooden barrels.

Product Code	Base Dia (mm)	Planter Height (mm)	Number of central tiers

Top Tips

For safe installation and planting of your Hanging Baskets

- Following our manufacturer's instructions, safely secure your new Barrier Basket or Window Box using the toughened steel supporting bracket(s) in the desired location. There is no need to fill the water reservoir at this point.
- Place the liner of your Barrier Basket or Window Box on a suitable, stable surface.
- Fill the liner with moist compost, and slow release fertiliser if desired, and plant up as required. Plant up densely for best results. Leave the plants to establish themselves according to your planned seasonal rotations, watering periodically.
- When ready, carefully place the planted up liner in the basket. You can plant into the basket directly, but using a liner gives you greater flexibility.
- The integral water reservoir can now be filled with water and nutrient. Leave the unique Aquafeed™ Self-watering capillary action wicking and dispersal matting to do the rest!
- Make one final check to ensure that the unit is properly secure.
- Top up with water and nutrient no more than once a week (twice in extreme heat).

Planter Liners

Liners are available for all Planters where specified. You may wish to acquire additional liners for safer off-site planting up and for seasonal rotations.

Custom Branding Service and Sponsorship

Don't forget our custom branding service whereby you can include your own personal and or sponsorship, logo, crest or message on most of our Amberol products – look out for the STICKER/CREST/WORD symbol that denotes this.

KENDAL TOWN COUNCIL

Artwork for Sponsorship, Logos and Crests

To personalise your products, you will need to supply us with high resolution, print-ready artwork in JPEG file format. If you have any questions or queries about this, please call us on 01773 830930.

And we make bins

Amberol's continued pursuit of product excellence is reflected in their range of environmentally-friendly recycling and waste bins. Contact us now for a free, no obligation, in-situ demonstration. **01773 830930** or e-mail: sales@amberol.co.uk amberol.co.uk

Working in partnership with Britain in Bloom in Bloom

Britain in Bloom is intended as an enjoyable, positive experience which aims to bring the community together in a celebration of the places we live.

Amberol has been working in partnership with Britain In Bloom groups, large and small, for more years than most of us care to remember.

The mutual aims of enhancing the environment we live in for the enjoyment and wellbeing of others has been at the centre of what has been one of the most amazing success stories, created by thousands but appreciated by millions.

The millions see the stunning end results of what in reality has been a long process of planning, fund raising, planting and maintaining by many groups of largely unsung heroes.

Many organisations have submitted to the all-encompassing power of

the internet and no longer demonstrate their products or have a friendly face to meet and discuss the needs of the 'In Bloomers'. The Amberol team in the office and 'on the road' are dedicated to working with all Britain In Bloom groups and it is that level of commitment that Amberol and the 'In Bloomers' give, that results in making such a 'visible difference' from which we all benefit.

So when we celebrate over 50 years in partnership we also salute and celebrate our close relationship with all the 'unsung heroes' of Britain In Bloom.

Planter Enhancement Range

Amberol's new stylish Planter Enhancement Range includes parklets that have been designed to create dedicated wellbeing and respite areas in public spaces and planter surrounds to improve aesthetics. They can also be used as part of traffic management schemes.

The parklets and planter surrounds do not require ground works or ground fixings and come with self-levelling feet as standard. This allows them to be used as permanent or temporary installations, offering a quick and cost-effective option to improve your area.

Whether this is a pop-up park on the high street, a well-being zone tucked into a quiet part of the city, rural parks, additional curb side seating for your restaurant or a dedicated lunch-time spot for your employees or students. The options with Amberol's Planter Enhancement Range are endless!

The integrated planters feature Amberol's sustainable metre square

and promenade self-watering planters to minimise maintenance for long-lasting floral displays.

These planters can then be "hidden" with panels available in wood, wood effect recycled plastic, steel or Dibond panels for personalised graphics, logos, or sponsorship revenue.

These contemporary panels are easily interchangeable to create a variety of parklet seating and planter design combinations interconnected with a combination of roto moulded curved corners and T posts.

Request a copy of our Planter Enhancement brochure for more details on the NEW range

Amberwall Range

Amberol's new living wall, the Amberwall, has been designed to transform your environment by creating vibrant ecosystems and increase the availability of green spaces in areas with limited options. Incorporating our Aquafeed™ Self-Watering System into interlocking one meter reservoir units that can be displayed in vertical or horizontal.

The Amberwall comes with an easily accessible top filling water port and linked mouldings meaning that once the top moulding is full, the water will cascade down into the lower units, filling as it goes.

Prior to filling and planting these units offer easy manual handling and wall fixing options whilst the durable double skinned moulding enables storage of up to 6.5 litres of water and 14 litres of compost.

The Amberwall consists of a strong lightweight moulding that can be arranged to form groups of living walls from one meter wide, and up to three meters high, and offers four interlocking features for alignment.

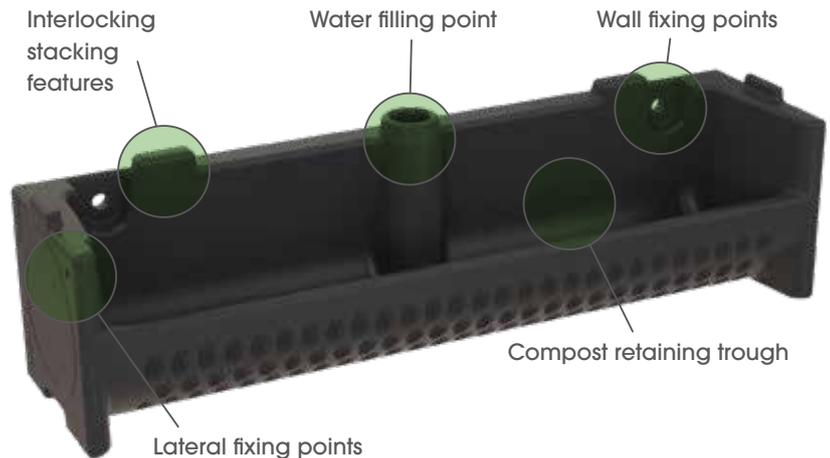

Designed and manufactured in the UK the Amberwall can be manufactured from up to 100% recycled* materials and is available in a wide range of standard colours, we also have the facility to match* colours precisely, to reinforce your brand image.

Why not create a "Selfie Wall" with brightly coloured plants and incorporate your hashtag, logo or slogan to create a focal point for Social Media users and strengthen your trending.

*Subject to availability and MOQs

Benches by Amberol

Quality, long-lasting and environmentally friendly seating products, made from 100% Recycled Plastic

Amberol's Benches are durable, long-lasting and weather resistant. Ideal for your home gardens, parks, schools, leisure areas, playgrounds and lakesides.

We use an award-winning, long life environmental alternative to traditional materials, by recycling and re-manufacturing plastics that would otherwise be landfilled.

Produced with 100% recycled polythene our benches are used widely by many organisations in both the public and private sector. The versatility of the product means it can be used to enhance any area, such as parks, town centres, schools or leisure areas and beaches.

Tough and Durable
Will not crack or dry out and is resistant to attack by insects.

Strong and Vandal-resistant
Is strong and more resistant to graffiti due to its surface.

Very Low Maintenance
Requires no time consuming painting or long term maintenance.

Splinter Free
Is moulded and developed to be splinter free.

Request a copy of our Benches by Amberol brochure for more details on the range

amberol
greener and cleaner

Our aim is to make a visible difference in every city, town and village across the country. This not only includes beautiful floral displays but also recycling bins, litter bins and our recycled plastic 'Benches by Amberol' range.
