Amberol has been offering quality moulded products including bins and self-watering planters since our beginnings as a family business in 1969.

At the heart of our business is a desire to make a visual difference. This includes stunning floral arrangements in calm peaceful villages and fast-paced city environments alike, and keeping Britain tidy through our wide range of bin products.

We believe that to offer the best solutions for our customers, conversation and collaboration are key. Working closely with our customers we offer tailored advice and free demonstrations to ensure they make the right decisions. We offer a flexible service and pride ourselves on customer satisfaction and providing quality, long-lasting products. We are thankful we have made so many friends over the 50+ years of business, many of whom have been with us since the early days.

At Amberol we strive for product excellence and all of our products are manufactured in the UK, at our factory in the heart of Derbyshire and assembled by hand, to your specification, by our team of skilled manufacturers. Designed with simplicity in mind, our products incorporate features that make set up and maintenance as easy as possible for our customer

All Amberol products are made from a long-lasting material that is 100% recyclable at the end of its use. Our black products are produced using recycled plastics.

High quality waste bins for indoor & outdoor use manufactured in the UK

Developed to combine capacity with a space-efficient footprint, Amberol bins make waste and recycling so much easier. As well as in busy offices, reception areas and bustling precincts, Amberol bins are ideal for use along pavements, in parks and gardens, in stadiums and other communal places.

Suppliers of WRAP approved recycling bins. Everyone can recycle!

Our planet is fragile and is under environmental stress. Recycling is one way to make a significant difference to the world in which we live.

As such, waste separations at source and on-the-go recycling are part of the way we operate day to day. Amberol's clear, WRAP approved signage and colour coding encourage people to recycle and dispose of waste responsibly.

The Amberol range includes the Eco-Bin and the Slim Bin Recycle, which are best used in banks of four or five. The Olympic Dual Bin and Eco-Bin Recycling bins have generous capacities of 140 to 240 litres, with surprisingly small footprints.

Olympic Dual Bin

The ever popular Olympic Bin from Amberol is a dual stream street bin with a great pedigree. With dual cigarette stubbers and collection tubes as well as the flexibility to change the waste streams to meet the waste streams and signage required, the 90Lt capacity at each end of the bin, delivers great capacity and easy servicing.

Specify your Olympic Bin to meet your waste stream needs, whilst ensuring the name of your organisation is prominently and positively displayed.

OLY-1P

Product Code	Height (mm)	Width (mm)	Length (mm)	Capacity (litres)
OLY-1P	1120	600	1170	90x2

50+ Years of Making a Difference

We pride ourselves on our flexibility and commitment to providing neat solutions to our customers needs. Here are some examples of how Amberol make a difference.

St Helena Government

The Brief

To enable the government on this remote island to drive forward their recycling initiatives whilst coping with the unusual problem of high levels of flies and insects as well as 'thieving' Mynah birds!

Our solution

The very specific needs of the St Helena Government was passed on to our team who modified our dual stream Olympic bin with a self closing flap on the general waste area to discourage birds and pests.

RAF Cosford

The Brief

To provide a dual-recycling bin with a central fluids collection point and a flap for general waste to prevent rubbish blowing across the live airfield.

Our solution

We took our very popular Olympic bin and created a solution meeting the exacting requirements for waste stream separation, fluids collection and minimised waste being able to cause aircraft a problem on the airfield with the self closing flap on the general waste opening.

"Amberol developed the Olympic Dual bin to support our recycling 'On the Go' initiative and as a result we have been able to substantially increase the amount of rubbish we are able to recycle. Each of the 900 Olympic Dual bins in the four square miles of Westminster is emptied 25 times a day with the bin making a noticeable improvement to street cleanliness."

Phil Robson, Supplier Relationship Manager (Waste and Recycling), City of Westminster

Slim Bin Recycle

SLM-OP & CON-OP

Ideal for Space-Restricted Areas
 Best used back-to-back or in banks, these tall, flat-backed units are perfect for space-restricted environments such as entrance areas, offices, or corridors where floor space is limited.
 The lockable front door provides easy access to the internal 100-litre wheeled liner, allowing for efficient emptying and maintenance. Units can be manufactured to suit a variety of waste streams, including options for confidential waste collection.

Product Code	Height (mm)	Width (mm)	Length (mm)	Capacity (litres)
SLM-OP	1130	550	400	100
CON-OP	1130	550	400	100

**ECO-1P
& ECO-2P**

Eco-Bin

Available in two practical sizes and used effectively in banks, the Eco-Bin is a large free standing unit for large through-put areas or events. The full opening door enables easy access to the internal wheelie bin (not supplied as standard) for emptying.

Product Code	Height (mm)	Width (mm)	Depth (mm)	Capacity (litres)
ECO-1P	1430	680	680	140
ECO-2P	1520	830	930	240

WLB-1P

WLB-TP

Westminster Bin

A circular 90L floor standing bin with the option of a hooded top, open top or recycling apertures, and inner liner. Designed to operate as banks and with different lid options to facilitate correct waste stream collection and avoid contamination. Particularly effective in refectories and foyers.

Recycling apertures options

Product Code	Height (mm)	Diameter (mm)	Capacity (litres)
WLB-1P	820	500	90
WLB-TP	1070	500	90

**Eco-Bin for
the biggest
recycling
appetite**

Double aperture, providing convenient easy 'walk by' access

Floor Standing Enviro-Bin

**DLB-0P,
DLB-1P
& ENV-1P**

Available in two practical sizes, this attractive and tough bin is ideal for use in busy public areas. The standard bin has a top which opens fully to allow easy access to the bin liner and also comes with a top mounted stubber plate.

Product Code	Height (mm)	Width (mm)	Length (mm)	Capacity (litres)
DLB-0P	1060	560	520	90
DLB-1P	1200	650	580	150
ENV-1P	1200	650	580	150

Ample Bin

AMP-1P

A huge 150 Lt bin with a hinged top opening for easy access. The large flip top opening makes this bin ideal for fast food outlets and busy thoroughfares, whilst deterring scavenging etc in areas such as coastal environments.

Product Code	Height (mm)	Width (mm)	Length (mm)	Capacity (litres)
AMP-1P	1260	650	580	150

New Square Deal

These traditionally designed square deal bins come in two styles, the larger TAR-1P having a tapered classically shaped top and the slightly smaller volume SQD-1P coming with a square top with larger openings. Both bins have optional stubber plates and full access lockable doors with large capacity liners for popular areas such as parks.

TAR-1P

SQD-1P

Product Code	Height (mm)	Width (mm)	Depth (mm)	Capacity (litres)
TAR-1P	1030	650	650	130
SQD-1P	960	620	620	110

Stipple Bin

Designed with a rough outer surface to specifically discourage fly posting this 90Lt bin is ideal for placement in areas prone to fly posting and vandalism. This bin comes either open topped or with a lockable hooded top with easy access and optional stubber plate.

ST-1P

ST-TP

Product Code	Height (mm)	Diameter (mm)	Capacity (litres)
ST-1P	820	500	90
ST-TP	1070	500	90

Standard Bin Features

- Hinged opening bins are provided with secure lock and key for added security
- Made in Britain with recyclable polyethylene, bins are virtually maintenance free and are carbon friendly
- Optional BinKeeper secures bin to the ground (see page 26)
- Available in 38 standard colours (see colour chart on page 27)
- Optional custom branding for personalisation and sponsorship

Heritage Square Litter Bin

The Heritage Square Litter Bin has a 110 litre capacity, a traditional style and an enhanced double wall structure for ultimate rigidity and durability.

81705

81706

Product Code	Height (mm)	Width (mm)	Depth (mm)	Capacity (litres)
81705/06	1118	580	580	110

Heritage Square XL Litter Bin

The Heritage Square XL Litter Bin has a 240 litre capacity and is extremely durable. Making it ideal for high footfall & coastal areas. The Heritage Square XL has been designed to offer a large capacity whilst being simple and speedy to empty.

81947

Optional wheelie Bin (240 litres) quick and easy to empty and replace

Product Code	Height (mm)	Width (mm)	Depth (mm)	Capacity (litres)
81947	1415	800	850	240

Classic Litter Bin

The Classic Litter Bin has the style of a traditional bin combined with the latest functional features. Optional: 90 litre Steel Liner, 105 Litre Plastic Liner, Ashtray, Fire Extinguisher.

81921

Fun & educational talking bins

are great for encouraging
children to recycle responsibly

Talking bins speak every time rubbish is thrown into them, affirming positive pupil behaviour. The optional voice box can record your own message or song and has a volume control.

Amberol's Educational Bins are highly successful in places where young people meet, learn and play.

Bird Litter Bins

Four delightful fun options, from the ever popular Penguin bin to the bright yellow chick. These 90Lt bins, with optional voice box, are fun and engaging way to encourage children to keep our environment rubbish free.

PEN-1P

CHK-1P

Product Code	Height (mm)	Diameter (mm)	Capacity (litres)
86050	1100	700	70

Bin Liners, Kits & Bits

Whilst all Amberol products are manufactured to a very high standard and are robust and long lasting, sometimes keys get lost and liners get damaged. Or perhaps you require a fixing kit to secure your bin to the ground. If you can't see what you need, please do contact us.

Moulded Bin Liners

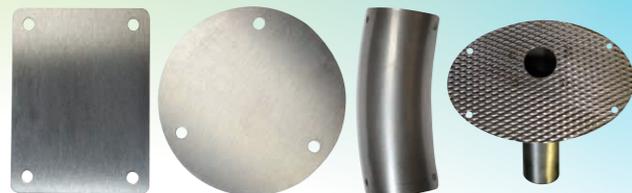

Extra liners are available for all Bins where specified. The following are the most popular.

Bin Type	Product Code
Enviro Post Liner	ACT-1PL
Westminster Liner	WLB-1PL
Stipple Liner	ST-1PL
Screwball Liner	SCW-0PL
90L Metal Liner	MAC-0PL
150L Polyethylene Liner	MAC-1PL
Westminster Liner (with inserts)	WLB-ENL
Westminster Liner (shorter version)	WLB-TPL
150L Polyethylene Liner	DLB-1PL
Liner for Square Deal bin	TAR-1PL

Cigarette Stubbers

A small selection of our range is shown here. Please contact us to identify the correct stubber for your bin.

Spare Keys

Available for most products. Just specify the product type and the year of purchase.

Voice Box

You can record your own messages, songs or advertising promotions. With optional 2GB memory card.

Weighted Bin Base

To help stabilise larger bins so that they are not so easy to move by the opportunistic passer by, or blown over by the wind.

Bin Fixing Kit

We have a variety of bin fixing kits dependant on the bin model and whether you are sighting them on soft or hard ground. Please contact us to identify the correct kit required.

Don't forget our custom branding service whereby you can include your own personal logo, crest or message on most of your Amberol products.

Artwork for Sponsorship, Logos and Crests

To personalise your products, you will need to supply us with high resolution, print-ready artwork in JPEG file format. If you have any questions or queries about this, please call us on 01773 830930.

Choose Your Colour

Amberol offer you 38 colours to choose from, allowing you to match, compliment, colour-zone and co-ordinate according to your local identity or corporate and sponsorship requirements. If you can't see the colour you prefer, for an extra fee, you can specify a colour of your choice* via brand match, RAL or BS numbers. *Subject to minimum order quantities.

Standard Colours and textures

Premium Colours and textures

Planter Enhancement Range

Amberol's new stylish Planter Enhancement Range includes parklets that have been designed to create dedicated wellbeing and respite areas in public spaces and planter surrounds to improve aesthetics. They can also be used as part of traffic management schemes.

The parklets and planter surrounds do not require ground works or ground self-leveling feet as standard. This allows them to be used as permanent or temporary installations, offering a quick and cost-effective option to improve your area.

Whether this is a pop-up park on the high street, a well-being zone tucked into a quiet part of the city, rural parks, additional curb side seating for your restaurant or a dedicated lunch-time spot for your employees or students. The options with Amberol's Planter Enhancement Range are endless!

The integrated planters feature Amberol's sustainable metre square

and promenade self-watering planters to minimise maintenance for long-lasting floral displays.

These planters can then be "hidden" with panels available in wood, wood effect recycled plastic, steel or Dibond panels for personalised graphics, logos, or sponsorship revenue.

These contemporary panels are easily interchangeable to create a variety of parklet seating and planter design combinations interconnected with a combination of roto moulded curved corners and T posts.

Request a copy of our Planter Enhancement brochure for more details on the NEW range

Amberwall Range

Amberol's new living wall, the Amberwall, has been designed to transform your environment by creating vibrant ecosystems and increase the availability of green spaces in areas with limited options. Incorporating our Aquafeed™ Self-Watering System into interlocking one meter reservoir units that can be displayed in vertical or horizontal.

The Amberwall comes with an easily accessible top filling water port and linked mouldings meaning that once the top moulding is full, the water will cascade down into the lower units, filling as it goes.

Prior to filling and planting these units offer easy manual handling and wall fixing options whilst the durable double skinned moulding enables storage of up to 6.5 litres of water and 14 litres of compost.

The Amberwall consists of a strong lightweight moulding that can be arranged to form groups of living walls from one meter wide, and up to three meters high, and offers four interlocking features for alignment.

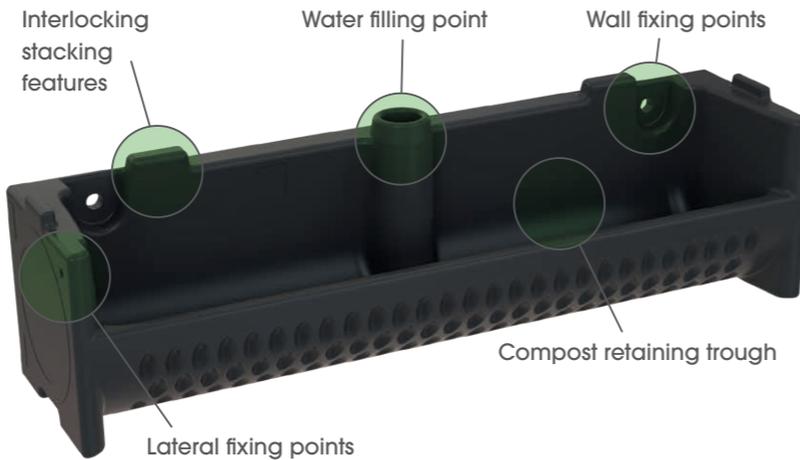

Designed and manufactured in the UK the Amberwall can be manufactured from up to 100% recycled* materials and is available in a wide range of standard colours, we also have the facility to match* colours precisely, to reinforce your brand image.

Why not create a "Selfie Wall" with brightly coloured plants and incorporate your hashtag, logo or slogan to create a focal point for Social Media users and strengthen your trending.

*Subject to availability and MOQs

Benches by Amberol

Quality, long-lasting and environmentally friendly seating products, made from 100% Recycled Plastic

Amberol's Benches are durable, long-lasting and weather resistant. Ideal for your home gardens, parks, schools, leisure areas, playgrounds and lakesides.

We use an award-winning, long life environmental alternative to traditional materials, by recycling and re-manufacturing plastics that would otherwise be landfilled.

Produced with 100% recycled polythene our benches are used widely by many organisations in both the public and private sector. The versatility of the product means it can be used to enhance any area, such as parks, town centres, schools or leisure areas and beaches.

Tough and Durable
Will not crack or dry out and is resistant to attack by insects.

Strong and Vandal-resistant
Is strong and more resistant to graffiti due to its surface.

Very Low Maintenance
Requires no time consuming painting or long term maintenance.

Splinter Free
Is moulded and developed to be splinter free.

Request a copy of our Benches by Amberol brochure for more details on the range

Our aim is to make a visible difference in every city, town and village across the country. This not only includes beautiful floral displays but also recycling bins, litter bins and our recycled plastic 'Benches by Amberol' range.
