DOFF STEAM CLEANING

Doff Steam Cleaning for Ethical & Sensitive & Heritage Cleaning

The superheated water vapor will remove paint, moss, algae, fungi and other biological matter and will also kill off spores. This means there's then no need to use a chemical biocide during the removal process or as a protection against further biological activity.

With Absolutely 0% Surface Damage

We recommend the DOFF for use on surfaces such as brick, stone, concrete, tiled (glazed and encaustic), wood, faience and terracotta.

The DOFF is also a useful sterilisation tool for kitchens, toilets, swimming pools, hospitals and factories.

Conservation and Restoration Stone Cleaning

CCWC Services understand the sympathetic cleaning methods and products in a variety of industries including the conservation and restoration of buildings.
