

TAWI Mobile Order Picker

Efficient and safe order picking

TAWI

TAWI Mobile Order Picker

Ergonomic & mobile vacuum lifter

Enables one person to do what has often been a two-person job, picking goods up to 80kg/176lbs without any effort.

Choose what you want to lift

TAWI Mobile order picker (MOP) offers a unique solution for order-picking from pallets, racks, or conveyors. Simply pick up the lifting unit with any kind of pallet jack or truck and drag or drive wherever you need to go. Pick and lift boxes, sacks, drums and more.

With a wide selection of suction feet, you can find the tool needed to lift your goods. Need to lift more than one type of load? Add a quick coupling and easily switch between tools for various types of loads.

Boost productivity and employee health & safety

Good ergonomics is an effective way of making your business more productive and profitable.

Achieve time-efficient order picking without compromising quality or worker health and safety. The order picker enables you to move quickly between picking stops, putting goods onto pallet with minimal physical effort.

While other operations in a warehouse can be automated, order picking largely remains manual. You will probably find that at least 50% of labour costs in your warehouse are related to order picking - a great potential for cost savings.

Our mobile vacuum lifter enables one person to do what has often been a two-man job. Anyone can now lift heavy goods and place them on pallets in a safe and ergonomic way.

“The Mobile Order Picker provides a safer and more efficient method of picking and placing products, reducing the risk of injuries and improving productivity”

Rob Hamborg, UK Site Manager at Yusen Logistics

The lifter saves the operator from lifting in uncomfortable positions.

You can easily handle a wide variety of loads including parcels, sacks, boards and drums.

Key features

- Mobile vacuum lifter easily attached to any forklift
- Safe & ergonomic lifting up to 80kg/176lbs
- Stand-alone unit - no installation time
- User-friendly and quick start-up
- Integrated pump and battery with quick change of battery pack
- Multiple tools for lifting anything from boxes and sacks to laminate boards
- Available in three versions depending on your needs

User-friendly and quick start-up

- 1 Attach TAWI Mobile order picker to any pallet jack or truck.
- 2 Drive where you need to go.
- 3 Park the unit and activate the pump with the push of a button. Support legs are automatically lowered.
- 4 Start loading/unloading your goods.

The MOP is available with 3 different lifter types

These versions ensures that we have a solution for your specific needs.

Multifunctional Vacuum Lifter

Ideal for: handling heavy and bulky goods such as large boxes, sacks & drums.

Lifting capacity:
40kg/88lbs-80kg/176lbs.

High Frequency Lifter

Ideal for: low-headroom applications and for high-speed handling of light to medium heavy loads.

Lifting capacity:
40kg/88lbs-50kg/110lbs.

EasyReach Lifter

Ideal for: lifting goods deep inside pallet racks. Allows the operator to stand comfortably in the aisle while lifting a box from the back end of a pallet in the rack.

Lifting capacity:
40kg/88lbs-50kg/110lbs.
