

TAWI Container Unloader

100% flexible workforce

Modular and mobile system

Increased productivity

Reduced labour costs

The Container Unloader can help solve manual lifting challenges with its many features allowing anyone to lift

- **Completely mobile** - it can be driven around a facility to different doors or sites
- **Integrated vacuum lift** - can lift up to 50 kg (110 lbs)
- **User friendly operating platform** - can be raised or lowered to enable optimal reach for the user
- **Flexible & modular system** - items can be unloaded to the conveyor or a pallet
- **Mobile conveyor belt** - can adjust upwards, downwards, inwards and outwards for improved reach and ergonomics
- **Stabilized system** with built-in balancing to help when traveling over inclines
- **Ergonomic lifting** - it's a one-handed operation, operator can grip item from any angle, and use 360° rotation

TAWI

www.tawi.com | la.uk.info@piab.com
