

# RWM Drum Press

Product Specification

# RWM Drum Press

## Effortlessly Manage Empty Drums

A Riverside drum press is a reliable, space-saving solution for compacting steel drums on-site. With a simple and efficient design, it reduces drum volume by up to 90%, cutting storage space and disposal costs. Ideal for industrial settings, it makes drum recycling safer, quicker, and more cost-effective, helping businesses save money while improving waste management efficiency.

## Basic Specification

- ✓ 12 month warranty
- ✓ 24 tonne press force
- ✓ Compaction ratio up to 10:1
- ✓ Suitable for up to 210L barrels
- ✓ 30 litre residual liquid collection tray with tap connection
- ✓ Clear controls for easy operation
- ✓ Totally enclosed shell ensures high level of safety
- ✓ Can be sited outside

## Features

- ✓ Suitable for up to 210 litre drums
- ✓ Compaction ratio 10:1
- ✓ Fully enclosed for safe operation

# Technical Specifications

- Operating Voltage: 380–400V
- Frequency: 50Hz
- Connector Plug: 32A, three-phase, 5-pin (3P + N + E) IEC 60309 plug
- MCB (Miniature Circuit Breaker): Type D

Press Force	24 tonnes
Compaction Ratio	10:1 depending on drum
Cycle Time	40 seconds
Noise	68 decibels
Machine Weight	690kg
Power Supply	32amp three phase 11KW 380-400V - 50Hz
Overall Dimensions	2587 × 1190 × 1000mm
Optional Transport Height	1800mm

# Optional Extras

Customise your machine with the optional extras listed below – designed to help you get the most from your equipment, and to suit your specific requirements, operational needs, or site layout.

**Galvanised finish**  
Corrosion-resistant coating for outdoor or harsh, wet environments.

**Auto PLC Control Panel**  
Includes automatic compaction cycle, E-stop, and key-lock control.
