

FIRE DOOR SUPPLY & INSTALLATION

Approved Installer — FD30 & FD60 Fire Doors

OCD FM offers comprehensive fire door supply and installation services for buildings of all types and sizes. As an approved fire door installer certified to the industry body's certification programme, we ensure every door is installed to the highest standards and in full compliance with fire safety regulations.

What We Do

We begin with a thorough site survey to assess existing fire safety measures, establishing the correct locations, door types and ratings required for your building.

We supply and install only high-quality fire doors meeting British Standard BS 476 and European Standard EN 1634-1, offering FD30 and FD60 rated doors in a range of styles and finishes.

All installations include correctly fitted intumescent and smoke seals, certified hinges, compliant ironmongery and accurate door gaps, critical to achieving the specified fire rating.

Full documentation and certification is provided for every door installed, supporting your compliance records.

Key Benefits

- Approved fire door installer
- Supply and installation of FD30 and FD60 rated doors
- Full compliance with BS 476 and EN 1634-1
- Range of styles and finishes to suit any building aesthetic
- Complete documentation and certification on completion
- Serving new builds, HMOs, offices, schools, hospitals and residential blocks
