

FIRE RISK ASSESSMENTS

Professional FRA Services — Full Legislative Compliance

Under the Regulatory Reform (Fire Safety) Order 2005, most non-domestic premises must have a suitable and sufficient fire risk assessment. OCD FM provides professional Fire Risk Assessments to ensure your building is fully compliant with current legislation and safety standards.

What We Do

Our qualified assessors carry out a thorough evaluation of your premises, identifying fire hazards, evaluating existing safety measures and making practical recommendations for improvement.

We assess all areas including means of escape, fire detection, warning systems, fire-fighting equipment, emergency lighting and staff training procedures.

You receive a clear written report with all findings, risk ratings and a prioritised action plan to achieve full compliance.

Regular scheduled review visits are available to ensure your FRA remains current as your premises and occupancy change.

Key Benefits

- Full compliance with the Regulatory Reform (Fire Safety) Order 2005
- Clear, actionable report with prioritised recommendations
- Reduced insurance risk and liability
- Improved safety for employees, residents and visitors
- Regular review visits available to maintain ongoing compliance
- Covering all sectors: commercial, residential, healthcare and education

Why Choose OCD FM?

Highly experienced, fully qualified fire safety professionals delivering the highest standards of service.

Fully compliant with all current legislative and regulatory standards, giving you complete peace of mind.

Latest technology for efficient service delivery, cost reduction and real-time management information.

Covering all sectors across England: commercial, residential, healthcare, education, hospitality and industrial.
