

Stannah Midilift PL2

Simple, convenient, and versatile:
platform lifts for accessibility in
a limited space

Stannah

Panoramic design, convenient access

The Midilift PL2 is an affordable and compact, platform lift that delivers reliable vertical access for public, residential and commercial environments.

Engineered for effortless integration into both new builds and retrofit projects, it offers specifiers, clients and construction professionals a space-saving solution that supports compliance with the UK's Equality Act and Part M Building Regulations.

With its sleek form, quiet operation, and minimal installation requirements, the PL2 is ideal for projects where aesthetics, performance, and budget must align.

For spaces that demand openness and light, the lift shaft can be glazed on all sides, including the machinery side. This delivers a modern look that keeps the space open and filled with natural light.

Customisable finishes and robust safety features ensure the Midilift PL2 complements contemporary interiors while meeting the highest standards of accessibility and reliability.

Key benefits

From private residences and hotels to schools, offices, and shops our platform lifts are designed to fit seamlessly.

- Fast, hassle-free installation – Delivered in ready-made modules with minimal builders' work
- Space-saving design – Compact footprint with minimal structural requirements and shallow 50mm pit
- Quiet operation – Low noise levels (40–55 dB) for minimal disruption
- Reliable performance – Screw and nut drive with soft start/stop functionality
- Built-in safety features – Emergency stop, alarm, battery lowering, overload protection and auto-return to designated floor in case of fire
- Flexible configurations – Multiple platform sizes and access layouts
- Customisable finishes – Wide range of colours, materials, and door options
- Indoor and outdoor suitability – Robust construction for versatile applications

Dimensions

Platform size (w x d)	Footprint size (w x d)

Robust safety and trusted compliance

At Stannah, safety is paramount. The Midilift PL2 is built to meet the highest industry standards, ensuring peace of mind. Every lift is designed to comply with:

- EN81-41:2010 – Vertical lifting platforms for persons with impaired mobility
- UKCA Marking – Fully compliant with the Supply of Machinery (Safety) Regulations 2008
- 2006/42/EC Machinery Directive

Whilst also helping to meet with the Equality Act, Part M Building Regulations (England and Wales), and Section 4.2 of the Building Regulations Technical Handbook (Scotland).

Expert support you can count on

Stannah brings trusted advice to your project. From exploring the options and providing a free quotation, to detailed builder's drawings, expert installation and ongoing maintenance. We're here every step of the way.

With more than 150 years of lift experience, and millions of customers served, we understand the value of personalised service. Every customer, and every building, is unique – a truth we consider in every lift we build.

Whether you're a homeowner or a professional, you'll enjoy a tailored service, including technical advice, a dedicated project engineer and maintenance support post installation.

With Stannah, you get:

- ✓ A company you can rely on
- ✓ Costs that make sense
- ✓ Superior service and ongoing care
- ✓ Quality guaranteed

Always true to our word

Six steps to your ideal lift

You make contact

You can contact us via email or phone to get started on your Stannah journey, sending any photos, project details, building drawings or required specification you may have.

We'll provide a free no-obligation quote

Based on your information we can either supply a free no-obligation quote or if needed we'll get in touch to visit your home or commercial location to discuss your options.

Confirm your interest

Once you've decided to proceed, and you're happy with the quote, just give us a quick call and we'll begin finalising contracts and getting to work on your builder's work drawings and requirements to enable you to get the site ready for lift installation.

Getting site ready

Working to our product delivery timescales and any project deadlines, as the project progresses your dedicated project engineer will visit. They'll run through the lift specification with you and complete any dimensional checks we need before installation.

Installation begins

Two of our NVQ-qualified installers will fit your lift quickly and safely, working to the highest standards. Once ready for the final stages of lift install we'll provide a detailed handover to ensure you are confident using your lift.

Ongoing support from a leading service company

Every one of our latest Midilift PL2 products comes with the added reassurance of ongoing servicing through one of our 11 service branches. Our branch network takes care of all makes and models of lifts and our exemplary service levels, breadth of coverage, and 100,000-strong service portfolio set us apart from the competition.
