

Access Reader 2.0

The TLJ Online Access Reader is a hard wired, mains powered unit, often installed on higher traffic public doors, such as the front main entrance.

The reader communicates with a controller located on the secure side of the door. In turn the controller co-ordinates the door lock, exit button, emergency break glass, fire alarm interface & mains power supply.

Specifications

Input Voltage	230 - 240V 50Hz
Output Voltage	DC 11-14V 3.5Amp
Material	HDPE (High - Density Polyethylene)
Backup Location	Mains powered, with 12V back up in controller
Mains Failure LED	Yes
12V Output Failure LED	Yes
Lockable Controller	Yes
Operating Temperature	-20°C to 70°C
Moisture Resistant	No (IP enclosure required for external installation)

Compatible Platforms

- > Offline (Data-on-card)
- > Online
- > TLJ Connect (writeback)
- > Smartphone App (BLE)

Access Control System 2.0 & Reader Measurements

Other common reader installations:

Car park barrier

Shutter Door

Life Elevator

Pedestrian Gate

Automated Door

Parcel Drop Collection Unit

Associated access control **equipment.**

Illustrated below are some associated devices used in access control. Different door types and different applications require a range of devices. Consult a TLJ engineer for more information.

Electro-magnetical lock

Mounted at the head of the door.
Requires Z&L bracket for inward opening doors.

Electronic Strike/Latch Release

Various options, including surface mountm uPVC, monitored and unmonitored.

Push to Exit Button

Surface or Flush mountable, DDA options.
Single gang back box (25mm min) required for flush mount.

Electronic Strike/Latch Release

Various options, including surface mountm uPVC, monitored and unmonitored.

Range of data carriers.

Mobile Keys

Keycards

Wristbands

Fobs

Frictionless access with mobile keys.

TLJ Mobile Keys™ are a secure digital access credential, removing the need for physical keycards. Keys are delivered directly to a user's smartphone and stored securely in the cloud with end-to-end encryption. Access is protected by the device's built-in security, including Face ID, fingerprint or passcode.

- Seamless, contactless access
- Secure mobile key delivery via:
 - The TLJ app
 - Custom white-label app
 - Integration with your existing app
- Hands-free access
- Keys can be stored in:
 - Apple Watch
 - Home screen widgets
 - Apple Wallet (*coming soon*)
