

N8N AUTOMATION IN PLAIN ENGLISH

STOP DOING THE SAME ADMIN EVERY DAY. AUTOMATE IT.

We connect your tools and automate the repetitive work, handing back the hours you lose to admin every week. Built on n8n, so there's no lock-in and no per-task bills. You own everything.

WHAT WE AUTOMATE

- | | | |
|----|-----------------------------------|---|
| 01 | Lead follow-up | Form submitted, CRM updated, welcome email sent, follow-up scheduled. Instantly, the moment they hit send. |
| 02 | Invoicing and chasing | Mark a job complete and the invoice generates, sends, chases and reconciles itself. You hear about problems only. |
| 03 | Appointment reminders | Reminders go out at the intervals you choose. No-show rebook links handle themselves. |
| 04 | Data syncing between tools | Change it once, it updates everywhere. One source of truth, zero copy-pasting between systems. |

OWN IT, DON'T RENT IT

HOW IT WORKS

01

Audit first

We look at how your business actually runs. If a process is broken, we fix it before automating. We won't automate chaos.

02

Build to fit

Workflows built around your tools and your edge cases. Google Workspace, Xero, Stripe, HubSpot, Slack, WhatsApp, Shopify, or any API.

03

You own everything

Your workflows, your data, your infrastructure. Stop working with us and it all keeps running.

FROM **£250** PER AUTOMATION

Free automation audit. Simple workflows in 1-2 days, complex multi-step builds in 1-2 weeks. No pitch — if automation isn't right for you, we'll say so.
