

24/7 LEAD CAPTURE ON YOUR WEBSITE

YOUR WEBSITE IS OPEN 24/7. YOUR TEAM **ISN'T.**

Not a generic FAQ widget. An AI chatbot trained on your services, prices and availability that answers questions, captures leads and books appointments around the clock — while you sleep.

WHAT IT DOES

- | | | |
|----|------------------------------------|---|
| 01 | Answers questions instantly | Pricing, availability, service areas, hours. Trained on your actual business, not generic waffle. |
| 02 | Captures lead details | Name, email, phone, what they need. Collected naturally in conversation, not a form they abandon. |
| 03 | Books appointments | Connected to your calendar. Visitors pick a slot that works, confirmation sent automatically. |
| 04 | Qualifies leads | Asks about budget, timeline and location. You get warm leads, not tyre-kickers. |
| 05 | Notifies you in seconds | Every lead pinged to your inbox, phone or CRM. You know someone's interested, even at 3am. |

CHATBOT VS THE ALTERNATIVES

CHEAPER THAN LIVE CHAT. SMARTER THAN A FORM.

WHERE WE'RE STRAIGHT WITH YOU

- **Handles ~80%, flags the rest**
Common questions, lead capture, booking: nailed. Edge cases get taken and flagged. It won't make things up.
- **A first responder, not a replacement**
Some people want a human. It hands over in office hours or captures details for a callback.
- **Only as good as its training**
We train it properly on your business and update it as you change. It can't know what you don't tell it.
