

FIND OUT WHERE YOU STAND

WHEN SOMEONE ASKS CHATGPT FOR A BUSINESS LIKE YOURS, **DO YOU SHOW UP?**

85% of UK small businesses are invisible in AI search. Their competitors get named instead. Find out where you stand in 15 minutes. No cost. No call required.

FREE • 9 AI PLATFORMS • REPORT IN 15 MINUTES • NO CARD, NO OBLIGATION

WHAT THE CHECK COVERS

- | | | |
|----|--|--|
| 01 | Your visibility across 9 AI platforms | ChatGPT, Claude, Perplexity, Gemini, Grok, Google AI Overviews and more. Real prompts your customers actually use. |
| 02 | Which competitors AI names instead of you | If the engines are recommending someone else for your core service, you'll see exactly who, and on which prompts. |
| 03 | Whether AI crawlers can even read your site | Most sites quietly block or confuse them. If the machines can't read you, they can't recommend you. |
| 04 | llms.txt status | The file that tells AI engines what your business is and does. We check whether you have one. If you don't, we generate it free. |
| 05 | A scored report with your top fixes | Prioritised, plain English, and yours to keep. Action it with us, with your current agency, or on your own. |

HOW IT WORKS

FILL IT IN. WE RUN IT. YOU READ IT.

01

Fill in the form

Your name, business, website and town. Takes 60 seconds. That's everything we need to run the checks.

02

We run the checks

Your business goes through the same AI platforms your customers use, on the prompts they'd actually type.

03

Report lands in your inbox

Usually within 15 minutes. A scored report with your top fixes, in plain English.

IT'S GENUINELY FREE.

No card. No call. No obligation. One report, then it's your move. You can action the fixes yourself, hand them to your current agency, or ask us to do the work. **If you want more, the GEO Audit is £247** — a fuller scored report with competitor benchmarks and a prioritised plan. But the check is the check, and it costs nothing. That's the whole offer.
