D&E Geminny High Security Range

The Geminny Range is designed with the ultimate security in mind from a mechanical security product. With an almost infinite amount of security key differs, the Geminny Range is a must for security environments where the removal of a power source can result in unwanted entry.

The Europa Version

The Europa Version is designed to suit All of the D&E DIN Standard lockcases.

Designed to suit locks with the following centres: 55, 57, 70, 72, 74, 78, 85, 88, 90 and 92mm

Supplied as standard to suit a Euro-Profile cylinder, but if the PZ insert is removed it is suitable for oval profile cylinders.

DEGEM/EU1/SCP
DEGEM/EU1/GD

Geminny Europa
Geminny Europa

sat. chrome plated
pol. brass plated

Applications: main entrances to apartment blocks
house entrance doors
timber doors

Supplied complete with: 3 pan-shaped keys
Fixings to suit a timber door
Geminny security registration card

Dimensions: Closed: 270x54mm
Opening: 48mm

Recommended cylinder projection: 6-18mm

Depending on the cylinder key, the projection of the cylinder may be less. However it must not be exceeded. If the cylinder is too short, the key cannot be fully inserted or turned. If it is too long, the security slide cannot be locked in place. In many cases the manufacture of a combined key can avoid the cylinder extension.

GEMINNY

D&E GeminY High Security Range

The GeminY Range is designed with the ultimate security in mind from a mechanical security product. With an almost infinite amount of security key differs, the GeminY Range is a must for security environments where the removal of a power source can result in unwanted entry.
