

Scanna SCANMAX 15

Description

The SCANMAX 15 is a mini cabinet X-ray scanner that has been specifically designed to provide maximum protection against letterbombs and suspect packages in areas where space is limited. The front-loading cabinet is large enough to screen most packages whilst small enough to fit on a standard desktop. An optional wheeled trolley provides easy movement and relocation.

The SCANMAX 15 is fitted with a large 17 in monitor for clearer images, with further enhancements that include zoom and inverse image facilities for highlighting fine details such as wiring and circuitry.

SCANMAX 15 includes the COLORSCAN feature which emphasises materials such as explosives, detonating components glass and razor blades in colour and makes recognition of suspect packages even easier. Its multi-zoom feature enables operators to view suspect areas in more depth.

Specifications

Physical

Height:	89 cm (35 in)
Width:	31 cm (12.2 in)
Depth:	50 cm (19.7 in)
Net Weight:	114 kg (250 lbs)

Inspection Chamber

Height:	34 cm (13.4 in)
Width:	30 cm (11 in)
Depth:	40 cm (15.7 in)
Door opening:	34 × 22 cm (13.4 × 8.7 in)
Power requirements:	110 V, 230 V, 50/60 Hz

Status
