Scanna Scanmax 25 colour mail and parcel scanner cabinet

Description

The Scanmax 25 is designed for easy use by non-technical staff. It combines a large inspection chamber with a slimline cabinet allowing a user to examine volume mail, large parcels and briefcases in areas where space is at a premium. Items are placed into the inspection chamber and a single button action produces a clear image of the contents in seconds.

Scanmax 25 offers a 1.3 megapixel resolution and incorporates Colorscan automatic image enhancement, negative or inverse image option, 8 × zoom and various colour options for highlighting medium- and high-density objects.

The X-ray scanners are very low-level X-rays and conform to all published international electrical safety and radiation standards and are issued with a certified radiation safety test report.

Specifications

Power:	110 V, 230 V, 50/60 Hz
New weight:	170 kg (330 lb)
Physical dimensions (H × W × D):	1625 × 428 × 610 mm (65 × 17 × 24 in)
Chamber dimensions (H × W × D):	535 × 420 × 560 mm (21 × 17 × 22 in)
Image area (D × W):	390 × 335 mm (15.6 × 13.4 in)

Status

In production and in service.
