Locker Colours ❖

All colours can be applied to doors and carcass

As well as providing strong and secure lockers in a wide range of size and door combinations, Skirmett Lockers offer a colour range that includes 11 standard and 8 premier colours. Colour co-ordinated lock enclosures that match the carcass colour come as standard

Anti-bacterial Powder Coating

Additionally, our steel lockers are finished with an Anti-bacterial Powder Coating (A.B.P.), tested to the highest standards. This treatment is ideal for areas that are susceptible to bacterial infection such as hospitals and food services and is available in most of our colours*.
