Platform Step Lift

Commercial Platform Lift  
Solutions for making life easier

## **EVO300** Platform Step Lift

The EVO300 Platform Step Lift provides a cost-effective and simple solution to transport wheelchair users and can accommodate a vertical rise of up to 1000mm for internal or external applications with little or no alteration to the existing building.

A comprehensive range of options are available. For commercial applications Bi-parting platform barriers will be supplied for additional security and safety. The EVO300 Platform Step Lift can be provided in three platform sizes.

The EVO300 Platform Step Lift is the perfect solution to overcome changes in level for wheelchair users in public buildings, leisure facilities, retail & residential buildings.
