

In-line Sliding Patio Door

Enhanced **energy** efficiency

Enhance your home with the new In-line Sliding Patio Door from VEKA

The new In-line Sliding Patio Door from VEKA combines the undeniable strength and durability you would expect from any quality VEKA product, with the style and good looks that your home deserves. The VEKA In-line Sliding Patio Door offers an attractive alternative to French or Tilt & Slide doors.

The VEKA In-line Sliding Patio Door:

A choice of bevelled or fully sculptured sashes to perfectly match your windows and colour two, three and four pane options are available with any opening combination - including multiple opening sashes. A one-piece stainless steel track ensures an easy gliding motion and low friction operation whilst triple chamber sashes ensure good thermal insulation. Double brush seals on all four sides ensure excellent weather performance, and the unique quadruple seal interlock provides maximum weather resistance.

Security has been a major factor in the creation of this new door:

- 28mm toughened or laminated glazing.
- Multi-point hook locks for safety and security.
- Fully steel reinforced for strength and durability.
- Complete with anti-lift blocks, and the option of anti-drill / anti-pick cylinders for extra security.

Available in a range of coloured finishes and woodgrains
