

DETERGENT GP™

General Purpose Bactericidal Detergent Compound

Technical Information

Detergent GP is a highly concentrated aqueous blend based on alkaline salts, surface-active agents and sequestrants.

It is specially formulated to give long lasting detergent action and to provide outstanding cleanliness of articles with economy of use in both hard and soft water environments.

Primary features are:

- Effective hand cleaner;
- Suitable for dishes, hard surfaces and upholstery.
- Easy and Cost effective utilisation.

Applications

Detergent GP is a general-purpose detergent suitable for hand cleaning applications in food processing and catering industries as well as general cleaning applications.

It is suitable for use on:

- Dishes, crockery, cutlery;
- General cleaning of walls, floors;
- Vehicles;
- Light duty hand cleaning applications;
- Upholstery and fabrics.

Certificate No. GB06/69741

Safer
Solutions
For Industry

Compatibility

Detergent GP is compatible with all ceramic materials, metals and most plastics and elastomers when in the as use diluted condition.

The concentrate can however cause damage to light alloys if allowed to remain in contact for prolonged periods.

Health and Safety

Detergent GP has a low toxicity.

Users should avoid prolonged contact with skin and contact with eyes.

See Safety Data Sheet for details.

Typical Properties

Appearance	Viscous green coloured liquid
Odour	None
Density, g/cm ³ @ 20 °C	1.03
Solubility in water	Completely miscible
pH (1% solution)	6 to 8 units

Detergent GP has a shelf life of not less than 24 months when stored in original containers between 5°C and 35°C.

Directions for Use

Application:

Detergent GP is normally used diluted with water.

Recommended dilution rates according to task required are:

- Dishwashing: 1 part Detergent GP to 75 parts of warm water.

Note: Detergent GP is not suitable for use in automated dishwashers (excessive foaming).

- General Cleaning applications: 1 part Detergent to 300 parts warm water.
- Upholstery/fabric cleaning: 1 part Detergent to 50 parts warm water.
