

# STAINLESS STEEL CLEANER

# A Cleaner and Brightener Technical Information Sheet

#### **Description & Application:**

Stainless Steel Cleaner is the name for a special blend of cleaning materials that are designed to clean and brighten stainless steel items.

Primary features attributable to Stainless Steel Cleaner are:

- Long lasting performance;
- Gives clean, shiny and streak-free surface;
- Protects, will not scratch or dull lustre;
- Easy and safe to use;
- Product, including aerosol cans, does not contain any components or propellants that damage the ozone layer.

#### **Applications**

Stainless Steel Cleaner is suited for use on food processing and catering equipment.

It has also found application in stainless steel fabrications, moulds and patterns, elevators and escalators, airport handling equipment and for cleaning and protection of decorative and architectural stainless steel items of all grades.

# **Compatibility**

Stainless Steel Cleaner may be safely applied to all grades of stainless steel.

Stainless Steel Cleaner will not harm most plastics and elastomers at room temperature; however specific materials should be tested prior to exposure.

# **Health and Safety**

Safer Solutions For Industry Stainless Steel Cleaner is based on low toxicity compounds.

Do not expose fluid containers to temperatures in excess of 50 °C or place in direct sunlight. Use only in well ventilated areas. Do not store or use near naked flames, sources of heat or ignition.

Do not eat, drink or smoke when using the product.

See Safety Data Sheet for details.

### **Typical Properties**

Appearance	Clear colourless liquid in
	aerosol container
Relative density	0.75
Vapour Density	Heavier than air
Flash Point, (Closed Cup, °C)	< -74 (propellants)
Solubility in water	Immiscible

Storage life when stored upright away from direct sunlight and heat, at between 0 °C and 35 °C (32° to 95 °F), is not less than 24 months.

#### <u>Process Application</u> General Application:

Stainless Steel Cleaner is used as supplied.

#### Aerosol application:

Shake the can well then spray a small amount directly onto a clean damp cloth. Gently wipe the surface to be cleaned in the direction of the grain.

Polish dry using a fresh clean dry cloth.
