

## DISINFECTANTS

# VIRUSAN® GEL

## THEATRE GRADE ANTI-MICROBIAL HAND CARE

Virusan Gel is a theatre grade alcohol based hand sanitizer that is specially formulated as a gel for use in medical, healthcare and veterinary applications.

The formulation, containing Chlorhexadine Gluconate (CHG), a broad-spectrum antimicrobial that is highly effective as a disinfectant and terminal sanitizer. The product is designed to eliminate the risk of cross-infection from hand transfer of viruses, fungi and bacteria.

### Primary features attributable to Virusan Gel are:

- Suitable for disinfection and sanitizing of hands and skin.
- Highly effective over a wide range of viruses, bacteria, fungi, yeasts and moulds.
- Non-selective.
- Versatile, simple to use and cost effective.

### Packaging

- 500ml
- 1 L
- 5L

## DISINFECTANTS

### Application

#### **Pre-operative Cleaning and Disinfection:**

Dispense about 5 ml of Virusan Gel and spread thoroughly over both hands and forearms, rubbing briskly for about 15 seconds.

When dry, apply a further 5 ml and repeat the procedure.

#### **Ward Cleaning and Disinfection:**

Antiseptic hand disinfection is achieved by dispensing 5 ml of Virusan Gel and spreading thoroughly over the hands and wrists, rubbing vigorously for between 30 & 60 seconds or until dry.

**Note:** There are no special application requirements for either elderly patients or children. Normal adult application procedures, as stated above, should be sufficient.

### Virusan Gel Properties

Active Against	Standards
