## WELCOME TO KING OF COTTON

We are delighted to introduce you to the home of cotton products. Not everyone has heard of King of Cotton, but here's why you really should know more about us. King of Cotton has a history going back more than a century so we know a thing or two about cotton. Since 1995 we have been a trusted supplier to some of the best hotels in the world, but more recently we have come to realise that every household should be able to benefit from our wonderful range of high quality products. Particularly because, as a wholesaler, we can offer everyone these wonderful products at great prices. This brochure shows some of the vast ranges we stock, so visit the website soon to join the exclusive club that have already discovered King of Cotton.

Hotel Quality Beds

Egyptian cotton is renowned for its extra-long staples, or fibres. Thanks to this, these fibres can be used to create threads that are finer than other cottons. Because they are finer, more threads can be woven into each square inch of material; producing a more luxurious fabric, which is: stronger, lighter in weight and naturally allows your skin to breathe, resulting in improved quality of sleep.

Monaco 550 Thread Sateen

As suppliers of pure cotton – you may well wonder why King of Cotton also sell polycotton? Well, let us indulge you in a little known secret. Some of the best private hotels use our polycotton because it is easy to launder and is very hard-wearing. So it's ideal for the busy family in the same way it suits a busy B&B! What's more, this 300 thread count option really does look and feel just like pure cotton. Why not try it and find out for yourself.

300 Thread Easy Care Satin Stripe

**What thread count?**

The thread count is the number of threads in each square inch of cotton bedding and generally speaking, the higher the thread count, the more luxurious, dense and soft the product will feel. The quality of the yarn is also very important in the feel of the product, so thread count alone does not always tell the whole story.

180	This range is most suitable for seasonal rentals and domestic use - the type often found in hospitals, and certainly good for a spare room and where the usage calls for material of a more basic nature.
200	A very cool and light percale cotton, mostly used in summer. Found in many hotels, this product is ideal for contract or domestic usage where the requirement is for cool crisp bed linen within a certain budget.
300 Polycotton	This provides the feel of top quality cotton – but with the convenience of easy-care polycotton. The thread count is high for polycotton so the product will feel good and last for a long time.
400 and 500	Definitely our best selling cotton products. A soft yet more substantial Egyptian cotton than the 200 count, favoured for its cool feel and durability, with a universal appeal. These products are what you would expect to find on the beds of major hotel chains worldwide.
600	Here is where the exclusive end of quality begins, made possible by the use of compressed air technology in the weaving process. It is a beautiful lustrous, uniform and very smooth fabric. The best selling luxury cotton in our upper range.
800-1,000	Ultimate luxury, pure indulgence, a step above the 600 thread count with an even greater lustre and a fuller fabric. This is an amazingly robust yet silky weave and will always be considered to be very beautiful bed linen even after many, many years.

The right bedspread, or throw can transform a room, which is why we offer such a wide range of traditional and contemporary styles. You could create an authentic classical look with our traditional Paris Jacquard Woven Spread, add colour with our range of modern Diamond Weave Runners and Throws; or exude modern beauty with our Excelsior Bedspread. Visit our website to indulge yourself in bedspread heaven and see what style would best enhance your home.

Blankets have been born again. These days they offer a real alternative option because they are warmer, classier and more colourful than ever before. For some people they have become a summer replacement for duvets, whilst for others they perform as flexible throws that can add colour, or character to any room. The modern blanket is today's utility bedding option, with a hundred and one uses – which is why we offer such an incredibly wide selection in pure cotton, wool and bamboo.
