

CONVENIENT LIVING

CIBES LIFT PRODUCT GUIDE
Lift solutions for your home

Cibes

UNIQUE LIFT CONCEPT

Cibes Lift has created one of the smartest lift solutions in the world. Our lifts adapt to your home, not the other way around.

All lifts from Cibes are delivered in ready-made modules with everything you need for installation. To personalise your lift, Cibes provides you with a great choice of different door models, colours and finishes.

FLEXIBLE & MODERN

Cibes modular lift solutions are very flexible in terms of sizes and design choices. Our lifts are incredibly compact and the timeless Scandinavian design adapts to all kinds of interiors and architectural styles.

PLATFORM LIFTS BY CIBES

The space saving footprint and 360 degree panoramic glazing of the lift shaft enable the lift to integrate seamlessly with any building. Robust, energy-efficient and durable, a platform lift by Cibes is a smart and cost-efficient alternative to a conventional lift.

- Fast and easy to install
- Energy Label A with Cibes EcoSilent
- Robust and reliable drive
- Many exclusive design options

CERTIFIED QUALITY

All lifts from Cibes Lift are CE marked and comply with EU safety and accessibility standards. Your Cibes lift is a safe product, as long as you follow the instructions in our user manual.

CABIN LIFTS BY CIBES

Cibes cabin lifts combines the advantages of platform lift technology with the comfort of conventional passenger lifts. If you are looking for a comfortable lift which is elegant and easy to install, a cabin lift by Cibes, is a great choice.

- Automatic sliding doors
- One touch operation controls
- Timeless Scandinavian design
- Installed within days
- Low construction costs
- Reliable, 100 % electric drive system

2

DESIGN FREEDOM

MIX & MATCH

With Cibes home lifts you have the possibility to mix and match different colours and materials to create exciting contrasts.

- Choose between our different door and shaft options to achieve the look that you want.
- Create a colour scheme for your lift based on our Colour Me Happy collection or choose between all the colours of the RAL chart.
- Select a lift floor from our collection of high-quality vinyl floors or fit your own carpet, laminate floor or tiles.

You have the freedom to combine the colours and materials you like – the sky is the limit!

ETHEREAL SHAFT DESIGN

All platform lifts from Cibes include a ready-made lift shaft of steel panels. As an option, the shaft can be delivered in clear or tinted safety glass. A unique feature is that all 4 sides of the shaft can be delivered in glass for an impressive 360° panoramic view.

LIFT SAFETY

Installation and service are key to lift safety. This is why all certified Cibes dealers are trained to install and maintain our lifts. The number of service visits per year depends on the frequency of use, but a lift from Cibes always requires less maintenance than a conventional lift.

ECOSILENT TECHNOLOGY

Silence and green energy are highly valued in contemporary architecture. This is why Cibes Lift has developed the EcoSilent system. The EcoSilent system not only makes lift operation virtually soundless, but also up to 45 % more energy-efficient.

WE HELP YOU ON EVERY STEP OF THE WAY

THE 1-2-3 SYSTEM:

Step 1: Your certified Cibes dealer provides personal advice for your specific situation. Step 2: Fast delivery and installation by your Cibes dealer. Step 3: Service provided by your Cibes dealer.

QUALITY INSTALLATION

Your Cibes dealer can visit the installation site in order to find the best lift solution for you. The lift is custom-made, so you can rest assured that it will fit.

SERVICE

Our screw-driven technology is simple and robust to reduce the need for maintenance. Nevertheless, it is important to keep your lift in good order. Therefore, we always recommend that you sign a service contract with your Cibes dealer.

Day 1 – Installation

First day – The bottom frame, guides and platform are installed. Your platform lift can be installed with or without a lift pit.

Day 2 – Installation

Second day – The doors, shaft and platform cladding are installed, all electrics are plug & play and easy to connect.

Day 3 – Installation

Third day – The finishing touches are applied and all functions of the lift are tested. Your lift is now ready to use.

CIBES LIFT GROUP

BRINGING PEOPLE TOGETHER

Founded in 1947, Cibes Lift Group is a world-leading manufacturer of space-saving, modular lifts. High-quality Swedish engineering and great Scandinavian design are the secrets behind our success. All lifts are manufactured in our factory in Sweden and distributed to more than 50 countries via a network of 200 certified dealers.

All Cibes lift models carry the CE mark and go through extensive testing and quality checks before leaving our factory. Our lifts are Certified products that comply with European quality standards, Machinery Directive 2006/42/EC and EN 81-41. This product information is general and we reserve the right to modify product design and specifications. Minor deviations in color reproduction can occur.
