TheAquamarina
Specialist bathing for the elderly and less able

TheAquamarina

Beautifully curved and designed for complete comfort, the Aquamarina is the ultimate walk-in Shower Bath.

The Aquamarina is everything you could want for your bathing experience. The soft contours look and feel wonderful. The low threshold, the easy open door, the optional powered seat and the spacious glass surroundings are all designed for safety and ease of use.

Stand or stretch out in luxury and with complete peace of mind.

The smooth, silent powered seat gently lifts you a full seventeen inches and softly down again. It is simple to operate with a touch control handset. And, with over 12 inches of water, you can enjoy a full deep bath again.

Fitting in to the same space as your old bath, the elegant Aquamarina comes in a range of colours to match your existing bathroom suite. With the seat removed, the bath can be used by all the family and the hydrotherapy option makes bathing truly enjoyable for all.

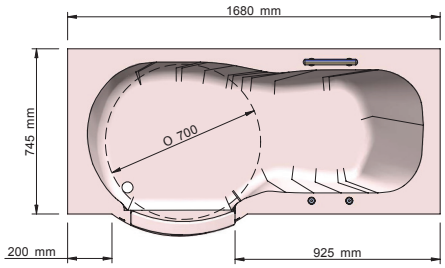
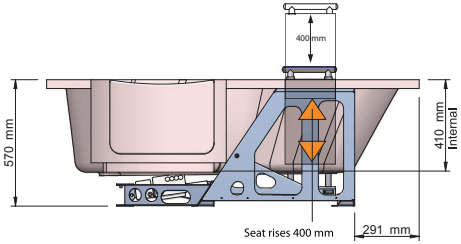
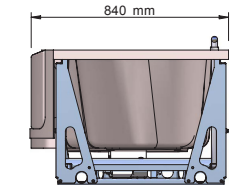
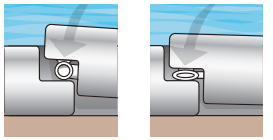
THE AQUAMARINA IS PATENTED GB2348128

Technicaldata









The unique encapsulated white silicon seal softly compresses to ensure easy closing of the door giving a watertight seal for years of trouble free use.

The CE approved Swiss made waterproof handset (IP66 rated) and trickle charge 24 volt power unit incorporate a battery backup for use during power cuts. We recommend that the bath is installed by a qualified plumber/electrician to comply with current 17th edition IEE Regulations. Also for comfort and safety ensure no part of the body is directly under the seat frame when it is being lowered, and to prevent scalding always install with thermostatically controlled bath fillers.

OUR COMPANY POLICY IS ONE OF CONTINUING PRODUCT IMPROVEMENT. WE THEREFORE RESERVE THE RIGHT TO ALTER THE SPECIFICATION AND TO CHANGE AND IMPROVE DESIGN AT ANY TIME.
