Case Study

We're delighted to share this case study and feedback from a village playground update in Potten End 🏡

? Why did you choose Sovereign for the project?

"We had the customary 3 quotes but felt Sovereign understood our requirements perfectly."

? What made Sovereign's design better than any others you received?

"The Sovereign 3D image showed us exactly how the play area could look - it was clear and concise."

? How did you find the installation process?

"We are very fortunate to have good access to our playground. Sovereign created a fenced "pen" for their equipment and materials/machinery and all went well with the install."

Potten End Playground | Village Playground Update

Meet Our Specialists – 1 of 2

👋 Meet Chris Gaskell, who has been looking after Surrey, Berkshire and South London since 2015, who we asked:

💭 What's the best thing about your job?
"I love this job as I'm able to visit a school with a drab and dreary outside space and turn it into something that the children are excited to play in. Going back to visit a space when works are finished is fantastic as you can see how much it changes the positive dynamics of the play and how much enjoyment it gives to the children."

💭 What's your favourite piece of Sovereign Play Equipment?
"My favourite pieces of equipment are the Clamber Stacks, especially the Titan – so many different play opportunities both physical and imaginative."

You can see the Titan here >>

Meet Our Specialists – 2 of 2

👋 Meet Julie Pearce, who has been looking after South Wales and Gloucestershire since 2010.

💭 What's the best thing about your job?
"Getting to understand the benefit equipment like ours actually brings to a child's development. With a toddler of my own in tow, it's added a new dynamic to how I see play environments and given me a renewed vigour and approach to developing spaces that are perfect for children to explore and learn."

💭 What's your favourite piece of Sovereign Play Equipment?
"My favourite piece of play equipment has to be our range of mud kitchen elements. I love a bit of cooking and can only imagine as a child this would have been perfect for me to role play and spend hours baking mud-pie cakes and getting messy."

See our Mud Pie Kitchen >>

🚗 Recent Project 🚗

We know children love to race around at break time, so we were happy to build and install this mini tunnel mound with rungs and sides as well as road markings.

View our Mini Tunnel Mound here (sides and rungs can be added) >>

Recent Projects - 2 of 2

Recent Project

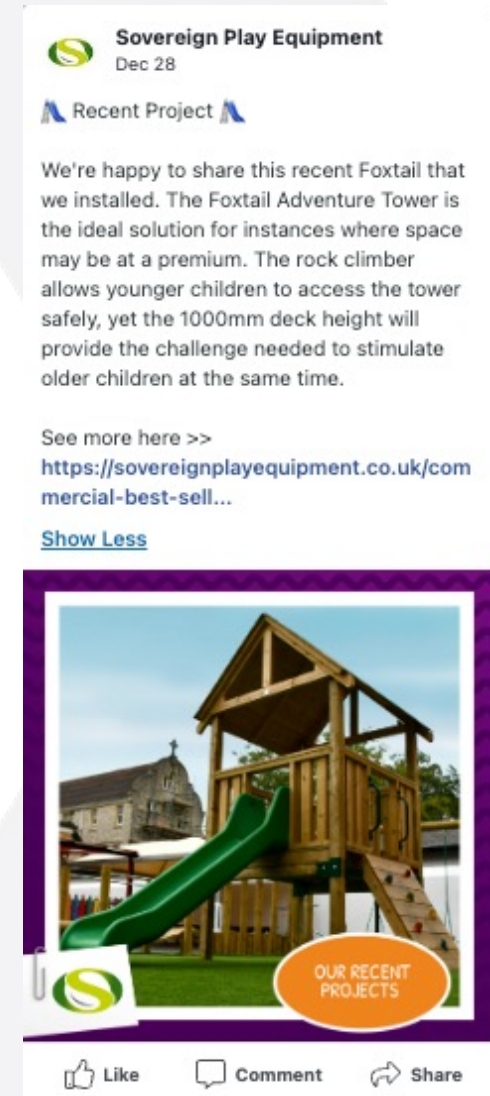

We're happy to share this recent Foxtail that we installed. The Foxtail Adventure Tower is the ideal solution for instances where space may be at a premium. The rock climber allows younger children to access the tower safely, yet the 1000mm deck height will provide the challenge needed to stimulate older children at the same time.

See more here >>
