Housing Developers – 1 of 2

Specialists in designing bespoke public open play spaces

The largest and most trusted provider of outdoor play, sport and fitness equipment in the UK

Utilise expertise of the housing sector to develop products

Industry leading manufacture, install and aftercare

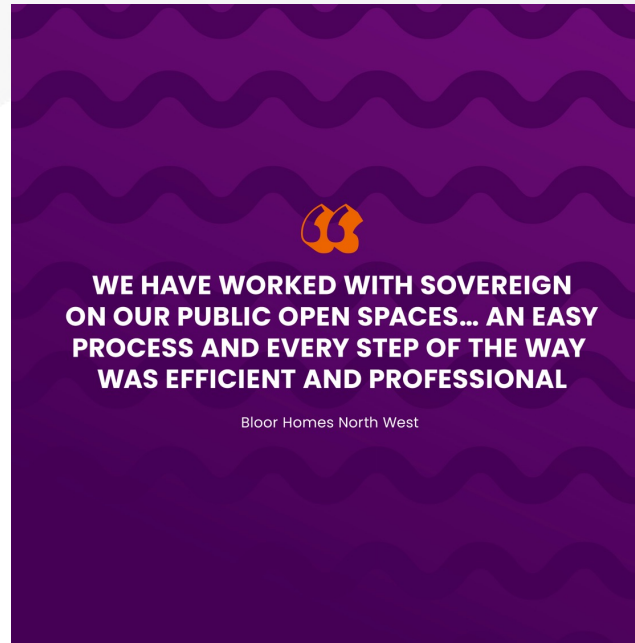

Developer Testimonial

Sovereign has a team of Area Managers throughout the UK who are on call to provide up to date advice on all the current developments and requirements for modern day play areas.

Our service includes a free site consultation to discuss your requirements, timescale and budget. This allows us to understand the local environment to ensure that we meet the needs of the community and the children who will use the area.

Each play area is individually designed and tailored to cater for the intended users. From toddler to teenager – we have something for everyone.

At Sovereign, we have the experience and the capability to ensure that multi-academy trusts and their network of academies can achieve outdoor environments that children will endlessly enjoy.

We are the largest provider of schoolground developments within the UK education sector, and over the years we have worked diligently with multi-academy trusts, schools and PTAs to transform dull tarmac areas and open spaces into inspiring surroundings for children of all ages.

Splashpools

Introducing our new mobile and multi-use Splashpools 💧

There are two different size Splashpools to suit your area, or they can be purchased together in conjunction with the Splashpool Link to make endless configurations.

The heavy-duty caster wheels allow them to be easily moved around and stored away when not in use. Each pool is removable from its frame, as well as having a drainage point at its base so any water can be cleared.

Optional lids can also be purchased which can be used to cover the whole pool when not in use, or a single lid can be used as a play station above water.
