VPL200

Trouble-free access, with the best standards of safety and versatility

The VPL200 platform lift is the ideal solution for assuring the accessibility of:

Private Buildings (banks, restaurants, shops, offices....)

Public Buildings (Schools, institutes,)

Homes and residential buildings

EASY, SAFE

Easy installation and safety in operation make the VPL200 an ideal solution for freedom of access to buildings of all types assuring wheelchair users, independent personal mobility.

EXCELLENT CONSTRUCTION

As an option, VPL200's outstanding features include a stainless steel structure, design with attention to every detail and state of the art active and passive safety features, as well of course as the well proven Premier Platform Lifts mechanical drive system.

The on board and floor control panels are equipped with keys and simple to use.

The VPL200 is available with two travel distances: upto 800mm and upto 1000mm

ADAPTS PERFECTLY TO ALL FUNCTIONAL AND AESTHETIC NEEDS

VPL200 does not require a pit of any kind; the installation can be customised to the existing structures.

Stainless steel version (on option)

Stainless steel version (on option)

Stainless steel version (an option)

Stainless steel version with gate with crystal glass and 90° landing

Thanks to its electric lock, the gate is automatically opened when the platform reaches the top.
The standard protected push buttons, both on board and for calls at each floor, have key controls.

Standard version in 7040 (light grey) painted steel

PSP: serving the partners

Partner Support Program: a manufacturer exclusive for its partners, aiming to supply each of them, with a series of personalised tools for developing their business and offering the end user better service. This programme includes an introduction to the concepts of "accessibility", specific classroom training courses and training in the field for sales staff and engineers, analysis and assistance for the development of the most appropriate market strategies, and backup for the organisation of seminars (e.g. for architects, civil engineering firms, etc.) and for participation at trade fairs. Close co-operation with its partners guarantees Vimec constant improvement of its knowledge of the various markets and their varying needs in terms of accessibility, which translates into the design of suitable products. All is oriented towards better management of customer relations, and the achievement of full customer satisfaction.
