FOREWORD

This Compliance pack has been assembled to enable the customers of OSS Group Ltd to conduct a 'desktop' compliance study, thereby executing reasonable Duty of Care obligations with regard to the responsible and proper disposal arrangements for their hazardous waste streams.

This pack is not intended or inferred to be a substitution for a formal Duty of Care audit, which requires a visit to the waste management facility, but nonetheless should give comfort to the hazardous waste producer / consignor that their wastes are being dealt with in a professional and compliant manner.

This pack includes relevant environmental and quality assurance certification, together with other useful data and you should contact the undersigned by email if you require further specific and appropriate information, such as OSS waste facility permits or licences.

Martin Millward

United Kingdom Accreditation Service

ACCREDITATION CERTIFICATE

TESTING LABORATORY
No. 4525

OSS Group Ltd

is accredited in accordance with the recognised International Standard ISO/IEC 17025:2005
General Requirements for the competence of testing and calibration laboratories.

This accreditation demonstrates technical competence for a defined scope as detailed in and at the locations specified in the schedule to this certificate, and the operation of a laboratory quality management system (refer joint ISO-ILAC-IAF Communiqué dated 18 June 2005).

The schedule to this certificate is an essential accreditation document and from time to time may be revised and reissued by the United Kingdom Accreditation Service. The most recent issue of the schedule of accreditation, which bears the same accreditation number as this certificate, is available from the UKAS website www.ukas.org.

This accreditation is subject to continuing conformity with United Kingdom Accreditation Service requirements. The absence of a schedule on the UKAS website indicates that the accreditation is no longer in force.

Accreditation Manager, United Kingdom Accreditation Service

Initial Accreditation date
10 November 2010

This certificate issued on
10 November 2010

The Department for Innovation, Universities and Skills (DIUS) has entered into a memorandum of understanding with the United Kingdom Accreditation Service (UKAS) through which UKAS is recognised as the national body responsible for assessing and accrediting the competence of organisations in the fields of calibration, testing, inspection and certification of systems, products and persons.

Group Health and Safety policy and management arrangements

OSS GROUP
WASTE SOLUTIONS ~ REFINED

Health and Safety Policy statement

OSS Group Ltd (*"the company"*) is committed to ensuring the health, safety and welfare of its employees, visitors and contractors and will endeavour to conduct its business activities in a manner to minimise their exposure to risk.

The company considers that no accident or incident is entirely unavoidable and regards the significance of proper training and the protection of its workforce, contractors and visitors at its premises as highly as any other aspect of its business. As a consequence, it considers the involvement and co-operation of its workforce to be an essential condition of employment. Similarly, the company will strive to ensure that all of its activities are conducted with due regard to the health, safety and welfare of its employees and others who could be affected, including customers, contractors and members of the public.

The company will comply with all the relative principles of the Health & Safety at Work etc. Act 1974, together with any other Health and Safety legislation, Approved Code of Practice and guidance that is applicable to its activities. It is committed to effectively communicating and consulting with its employees and relevant parties on Health and Safety issues and will report its Health and Safety performance to its workforce and business stakeholders on a regular basis.

Company employees have a duty to prevent injuries to themselves or others arising as a consequence of their actions and therefore obliged to comply with any Health and Safety legislation that is relevant to their workplace activities.

The company aspires to the continuous improvement of Health and Safety standards across all aspects of its business; and to realise this aim, has formally declared its *Objectives and Arrangements*, which will be measured by *Key Performance Indicators*.

Objectives and Arrangements - *we aim to achieve:*

- the continuous improvement in health and safety performance throughout the group and the application of current, relative Health and Safety standards across all aspects of its business
- compliance with all current, relevant Health and Safety legal requirements and guidance
- the establishment of safe systems of work, and formally assessing and recording those activities with an attendant substantial level of risk
- the maintenance of all plant, vehicles, equipment and buildings, ensuring they remain safe and fit for purpose
- adequate training to enable our employees to carry out their duties safely and competently
- the provision of sufficient and appropriate resources for our employees, including Personal Protective Equipment (PPE) prior to them engaging with the activity
- effective communications and consultation with our employees on Health and Safety issues of mutual concern, via Safety Representatives and Safety Committee meetings
- encouraging the workforce to report near-hits and make suggestions for safety improvements in the workplace
- the implementation of an OHSAS 18001 Health and Safety Management System, that will be regularly audited by internal and external qualified assessors, whose findings will be published for employees reference
- visible leadership and a level of safety management equal to that applied to any other critical activity within the business
- the development and implementation of safety training programmes at levels relative to each employee's status in the organisation
- the provision of Health and Safety information and practical support to customers where necessary, including Material Safety Data sheets and risk assessments
- the safety of contractors working at our facilities by approving them and ensuring their activities are correctly managed

Key Performance Indicators – *the effectiveness of our arrangements are measured by:*

- monitoring incident / accident / near hit rates; comparing incidence rates and reporting them to the Board of Directors
- investigating accidents, incidents and near hits occurring at work, both on and off site, learning from them and implementing corrective actions to prevent re-occurrences
- auditing operational facilities and assessing our Health and Safety management performance against current legislation and reporting our findings
- minuting the outcomes of Safety Committee meetings and publishing the Minutes for employee information

Responsibilities - *how Health and Safety will be managed*

The ultimate responsibility for Health and Safety resides with the Group Managing Director, who has also authorised this Group Health and Safety Policy statement. The Group Managing Director has appointed the Group SHEQ Manager to advise on matters concerning health and safety and to develop and maintain appropriate and sufficient safety policies and procedures and conduct assessments and other checks to ensure their suitability and effectiveness. Employees are responsible for carrying out their duties in a safe manner with due regard for the safety of others; adhering to this Health and Safety policy; complying with safe systems of work as required; reporting all accidents, incidents and near hits and defective plant equipment to line management and wearing personal protective equipment (PPE) when necessary and taking reasonable care of it.

Iain Lees

Group Managing Director

Group Environmental Policy and Management arrangements

Environmental Policy statement

OSS Group Ltd (*"the company"*) is committed to maintaining its position as the market leader and industry standard in oil recycling and automotive workshop waste management, whilst conducting its activities to the highest standards of environmental protection possible; so as to prevent, as far as practicably possible, any negative impact on our environment.

The company takes its responsibility towards the stewardship of environmental protection very seriously and to this end will continue to develop its processes in accordance with *best available techniques* and define further environmental objectives and targets.

The company aspires to the continuous improvement of its environmental performance across all aspects of its business; and to realise this aim, has formally declared its *Objectives and Arrangements*, which will be measured by *Key Performance Indicators*.

Objectives and Arrangements – *we will endeavour to:*

- identify and quantify any significant environmental impacts arising from the activities performed at any of our processing or transfer facilities, transport fleet and administration offices
- extend our duty of care obligations to all clients who handle our residual and operational waste streams, ensuring that they too, have been duly authorised and operate their business in a fit and proper manner
- maximise recovery and recycling rates of collected hazardous wastes, thereby reducing the volume disposed of to landfill
- minimise residual and operational wastes produced at our own facilities, during treating or storing collected hazardous wastes
- remain aware of the introduction of any new legislation for the protection of the environment, and operate our business in complete compliance with established legislation
- be a good neighbour and restrict the impacts of our facilities operations to a minimum, so as to preserve everyone's enjoyment of the local amenity
- research into and devise even more efficient and environmentally friendly methods by which to transport, store and treat hazardous wastes

Key Performance Indicators – *the effectiveness of our objectives will be measured by:*

- monitoring, recording and reviewing all measurable aspects that are pertinent to the business' operation
- investigating incidents, both on and off site, learning from them and implementing corrective actions to prevent re-occurrences
- auditing our operational facilities and assessing performance against current legislation and codes of practice
- conducting duty of care audits and checks on upstream clients and confirming them as Approved Suppliers, before permitting them to handle any of our waste streams
- paying due regard to the Environment Agency's Inspection and Corrective Action Request reports and Operator performance ratings

Responsibilities - *how environmental protection will be realised:*

The ultimate responsibility for the company's environmental performance resides with the Group Managing Director, who has also authorised this Group Environmental Policy statement.

The Group Managing Director has authorised the Group SHEQ Manager to advise on matters concerning environmental management and to develop and maintain appropriate and sufficient practices, policies, procedures and training, and to conduct assessments and reviews to confirm the suitability and effectiveness of them.

All company employees are responsible for carrying out their duties in a manner that pays due regard for the protection of the environment and are expected to adhere to this Environmental policy; comply with company environmental management procedures; and report all incidents that lead / may lead to environmental damage and defective plant and equipment to line management.

A handwritten signature in black ink, appearing to read 'Iain Lees'.

Iain Lees
Group Managing Director

Group Quality Policy

OSS Group Ltd, hereon termed *the company*, is widely regarded as the UK's market leader in collecting and recycling waste oils, as well as a comprehensive range of automotive workshop waste streams, such as batteries, absorbents, paint waste, mixed fuels and antifreeze.

By removing potential pollutants from the environment and recycling them to replace a finite resource wherever possible, the company makes a credible ecological statement, achieving both environmental protection and resource conservation.

The company recognises the significance of every employee's role in its quest for continuous improvement in the quality of its products and services and to achieve this end is committed to the allocation of appropriate and sufficient resources for the provision of training, competence and motivation of its workforce.

To enhance its customer's confidence in the quality of its products and services, the company has implemented a Quality Management System that complies with the provisions of ISO 9001:2008. This programme, underpinned by a genuine management commitment to measurable quality at every level of its operation, will assist in meeting and ultimately exceeding the requirements and expectations of its customers.

The Quality Policy manual defines the manner in which the company's Quality Management System has been designed and structured to encompass all requirements of the international standard, for the effective control and assurance of quality. Its employee's understanding of, and compliance with, the requirements and operating procedures will ensure that a consistent execution of this programme is possible.

The company is committed to review its quality policy and business objectives during the annual management review meeting.

A copy of this Policy statement has been issued to all employees of the company.

The scope of the company's registration is:

"The provision of waste management services, specialising in the recovery of used hydrocarbons for recycling into fuel oil and the collection, recycling / reuse or disposal of associated automotive waste".

A handwritten signature in black ink, appearing to read "Iain Lees".
