CONTENTS

Great White

Great White offers an exclusive range of quality vitrified porcelain tableware at the most competitive prices. In fact, Great White is up to 70% cheaper than other leading brands. Manufactured to BS4034 vitrified hotelware standards, the Great White range includes plates, cups, mugs, saucers, bowls, teapots, jugs and salt and pepper pots.

Every item is dishwasher, oven and freezer safe as well as thermal shock resistant. Plates, saucers, bowls, oval dishes, cups and mugs are also covered by a Lifetime Edge Chip Warranty.

ARTISAN - TABLEWARE

CONTENTS

ARTISAN NEUVELL

Glossy, matt and satin colour glazes on a high quality, fully vitrified stoneware body

ARTISAN CLASSIC

Texture and colour on a vitrified high alumina porcelain body

ARTISAN - PERFECTLY CRAFTED

A beautiful collection of tableware that combines shape, texture and colour in a way that is designed to elevate and enhance the entire dining experience.

Inspired by studio pottery and combining genuine vitrified stoneware with high alumina porcelain, Artisan offers something unique. It combines the look of a hand crafted product with the strength, consistency and durability of tableware produced by truly world class manufacturing processes. This ensures that Artisan is every bit as practical as it is beautiful whilst offering exceptional value for money.

PRODUCT CARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Artisan Classic (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Artisan items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

IMPRESSIONS COLLECTION

Cerne

Inspired by the desire to re-imagine the simplest of tableware designs (the round plate) 'Cerne' is the French word for circle. When viewed from above the 'Cerne' shape appears to be entirely conventional but when viewed in profile the radical nature of its design is revealed.

BH892 Cerne Plate 31cm Case Qty 6

Carré

Convention dictates that plates should be round. But like all great artists Crème is happy to defy convention and 'Carré' (which means square in French) demonstrates that there are other ways to perfectly balance form and function when presenting food.

BH890 Carré Plate 27cm Case Qty 6

Écharde

Some art reassures, but truly great art is challenging. 'Écharde' took as its inspiration a desire to look at the design of a plate from (quite literally) a number of different angles. Named after the French word for splinter 'Écharde' plays with conventional perspective and ultimately will place a completely different perspective on the food you present.

BH891 Écharde Plate 30cm x 18cm Case Qty 6

Futuriste

Some art looks unashamedly to the future and tries to imagine a different reality. The 'Futuriste' plate is a bold re-imagining of a conventional theme and offers the perfect solution where chefs want to present their own new vision of a classic dish free from the constraints of history.

BH889 Futuriste Plate 34cm x 18cm Case Qty 6

CRÈME AMP – THE TABLEWARE THAT KEEPS YOU PROTECTED

Crème

ANTI-MICROBIAL TABLEWARE

CRÈME ANTI-MICROBIAL PROTECTION BACKSTAMP

Crème is proud to launch the first commercial porcelain tableware that uses “Anti-Microbial Technology” whilst maintaining the high quality demands for hospitality service.

The Anti-Microbial Technology prevents tableware from developing microbes, viruses and bacteria.

WHAT ARE SILVER IONS?

Silver Ions integrated with porcelain help to kill existing microbes as well as limiting any microbe growth by 99.99%.

HOW DO SILVER IONS WORK?

Silver Ions penetrate the cell wall of the microbe to make it more susceptible to environmental conditions, high temperatures and other treatments. This limits the microbe’s ability to grow and reproduce.

WHERE IS IT USED?

The use of silver is an established method of creating anti-microbial surfaces within the hospitality and healthcare industry. Crème is the first ceramic tableware to employ silver to produce an anti-microbial tableware collection.

THE QUALITY OF CRÈME

MATERIALS AND MANUFACTURING

- Fully Vitrified, High Alumina Fine Porcelain - Crème is a high alumina content, fully vitrified fine porcelain. Using only the highest grade European materials to formulate the world class ceramic body enables the design and production of fine, elegant shapes whilst maintaining durability and strength.
- Colour - The colour of a plate makes a world of difference to the presentation of the dish. Crème is designed with the most immaculate pale ivory colour as the perfect background to every dish.
- World Class Glaze - Using the most advance glazing processes, the glaze is a class leader for appearance and durability which gives Crème a high resistance to metal marking, scratching and dishwasher attack.
- Face Profiles & Stackability - Designed to stack and manufactured using the latest forming technology, Crème boasts an incredible shape uniformity with perfectly flat centres and sharp definition of shapes meaning no humped centres or whirly bases, and no inconsistent stacking gaps.
- Diamond Polished Foot - Different ceramics have different feet. Crème takes every piece and carefully diamond polishes every foot for a consistently smooth finish.

QUALITY MANAGEMENT

- Exclusively manufactured in a world-class facility that has been awarded ISO9001 for quality management.
- The factory utilises the latest forming, finishing and firing technology to guarantee consistency, efficiency and effective environmental control throughout every process.
- Holding certification for Corporate Social Responsibility to SA8000, the care and well being of the employees & their families is of the utmost importance.
- The factory also holds certification for Environmental Management ISO14000.
- In comparing to the world's best alternative brands, Crème exceeds the very highest standards in the market place. Independent testing results are available upon request.

PRODUCT CARE – HOW TO GET THE BEST FROM YOUR CRÈME TABLEWARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Crème products (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Crème items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

THE QUALITY OF ALTO

CREATING A TRUE WHITE PORCELAIN

There is a reason why hard paste porcelain is called 'True Porcelain'. True Porcelain is only made by real craftsmen, those who have the ability to combine the science with the art.

Often imitated; true porcelain is the ultimate ceramic material; more dense, harder, stronger, and more durable. From its Chinese origins, through the master potters of France and Germany it has been the tableware of choice for those who can afford real luxury.

A tour across the finest restaurants of the world will, time after time, show wonderful gastronomy displayed to its very best advantage on true porcelain.

The finest, purest materials, the highest firing temperatures, minute control of atmospheric conditions are what make true porcelain a rare commodity. The end result is incredible finesse, the purest white and the ability to produce stunning shapes.

MATERIALS

- Alto uses only the purest China Clays and China Stone
- Free from artificial fluxes and fillers
- High firing temperatures to fuse the clays into a dense, highly durable, pure white porcelain
- Highest grade alumina to bring a unique level of durability
- Finest European material along with a level of quality testing and control rare in the tableware industry
- High quality, lead free glaze finish

MANUFACTURING

- Manufactured using all the latest equipment and kilns
- Firing: First Firing (Biscuit/Bisque) at 1000°C to get a dry, porous blank ready for glazing. Second Firing (Glost/ Grand Feu) at over 1400°C. Exact control of the oxygen content in the glost kiln is crucial to developing the colour and vitrifying the porcelain perfectly.
- Forming: Alto utilises the latest techniques – isostatic pressing, high pressure casting, new generation cup/mug forming machines
- Glazing: The latest German automated glaze dipping cell
- Finishing: Alto is foot polished using a diamond polishing machine for a glassy finish

QUALITY MANAGEMENT

- Exclusively manufactured in a world-class facility that has been awarded ISO9001 for quality management,
- The factory utilises the latest forming, finishing and firing technology to guarantee consistency, efficiency and effective environmental control throughout every process.
- Continuous and rigorous testing at every stage throughout the process
- 100% inspections by staff dedicated to the elimination of faults
- Holding certification for Corporate Social Responsibility to SA8000, the care and well being of the employees & their families is of the utmost importance.
- The factory also holds certification for Environmental Management ISO14000.

PRODUCT CARE - HOW TO GET THE BEST FROM ALTO TABLEWARE

STACKING

- Stack items vertically
- Avoid one item sliding or rubbing against another

CHIPPING

The vast majority of Alto (all plates, bowls, oval dishes, saucers, cups and mugs) are covered by a lifetime edge chip warranty but it's important to follow these basic guidelines:

- Always handle with care – careless or rough handling causes breakages
- Never scrape the product against a bin or receptacle

IN THE DISHWASHER

- Rinse thoroughly after use, before loading into a dishwasher
- Wash separately from other items like glassware, cutlery and cooking equipment
- Follow the dishwasher manufacturer guidelines for type and amount of detergent to use
- Keep the dishwasher fully serviced and clean as per manufacturer guidelines
- If metal marks do appear on Alto items, clean with a porcelain cleanser. Check cutlery to ensure there no rough edges
- Wash metal surfaces with water & vinegar to remove any particles which could be transferred.

CONTENTS

MIRAGE

SEEING IS BELIEVING

Mirage is an exclusive collection of melamine products designed to provide a stylish and practical solution for food presentation and display. Offering an innovative combination of shapes, textures and vibrant colours, Mirage is the perfect choice for any buffet or counter display.

Manufactured from shatterproof 100% melamine, Mirage is highly durable with excellent levels of impact resistance and its scratch resistant surface is dishwasher safe; making it ideal for any catering or hospitality environment. This durability also makes Mirage an effective long-term investment, providing a cost effective solution without the need to compromise on style or quality.

FUSION BOWLS & PLATES

FUSION BOWLS & PLATES

These beautiful new melamine bowls, with an embossed matt exterior and smooth gloss interior, can be combined with the glossy plates to add theatre to every setting. Both available in two sizes and four stunning colours of white, black speckle, purple and blue speckle, these multi-functional pieces can be used in many ways to create a different look every time.

HOW TO USE YOUR BUILD SYSTEM

Step 1

LAY THE FOUNDATIONS

Base unit includes a 1/1 GN Riser which is required for full integration with the rest of the Build range.

Step 2

ADD HEIGHT

The Build range offers a variety of risers in convenient GN sizes. These can be added to create different levels of display options.

Step 3

GET CREATIVE

Various display units can be positioned on top of the risers to complete your displays. These include Fusion boards, Crème Galerie Gastronom, Mirage platters and Rafters display blocks & crates.

Step 4

ENDLESS POSSIBILITIES

See below for more inspiration on how the Build system can mix and match with various components to create customised buffet displays.

1/1 GN Riser

1/2 GN Riser

1/3 GN Riser

2/3 GN Riser

2/4 GN Riser

FULLY COMPATIBLE

Use Crème Galerie Gastronom dishes and platters, Mirage Gastronom platters, Fusion Copper Corner Boards and any other GN pieces to add style and variation to your display.
