With their 100 year anniversary approaching, Garforth Golf Club complete a refurbishment of their facilities with the Cubicle Centre Ltd as their chosen washroom manufacturer.

Established in 1912 by a group of local enthusiasts, the club and course has benefitted from significant investment in the past few years securing it's place as one of the top golf clubs in the North of England.

Manufactured from waterproof and vandal resistant Compact Grade Laminate, Cotswold cubicles were chosen for the shower and toilet areas. Due to its style and durability it is a perfect solution for high volume usage.

Light Grey Speck was used for the dividing partitions, complemented by wood grain Wenge door panels both chosen from the ABET Laminati range. This ensured the washrooms were presented in a modern and elegant style, which reflects the professional standards of the club.

Cubicle Centre Ltd manufactured and supplied made to measure panels and partitions for the toilet and shower cubicles, made to measure vanity units for the basins, and custom made light pelmets.
