

...AFTER

"I knew Clarke Rendall produced some very clean, modern looking reception desks, which were ideal for the designer feel we wanted to create"

Accent Office Interiors

Project: **Food Distributor, Northants**

Dealer: **Accent Office Interiors**

Business Area: **Commercial/Office**

Looking at this beautifully, clean, light contemporary reception area, it is hard to believe that just a few weeks previously it was awash with dark stained softwood, plum velour seating and exposed brick walls. The strength of all good designers is to be able to see not what is before them, but the potential that that space holds, and when **Accent Office Interior's** team began work on this project, they already had a very clear vision for this interior in mind.

Naturally a key feature of any reception area, the reception desk must offer functionality and also sympathetic aesthetics that ideally blend with the designer's interior scheme. A role this **evolution® classic BZ-DDAR** performs perfectly. *"We knew Clarke Rendall produced some very clean, modern looking reception desks, which were ideal for the designer feel we wanted to create"* commented the Accent design team. *"The blue acrylic upstand sits perfectly in this kind of contemporary environment"*.

Using high quality product photography and a cad block of the final desk available from the **Clarke Rendall** website, **Accent** produced some polished visualisations of the final installation. As Accent puts it *"Access to good quality photography of the finished product is invaluable when it comes to showing the client how the final project will look, and Clarke Rendall provided all that was needed."*

To learn more about the expansive level of support that comes as standard when you specify an **evolution®** reception desk, call our support team now on 019089 391600, or visit our comprehensive website.
