Stainless steel claw uprights with integral LED up and down lighting supporting sandblasted, toughened glass counter cap

**Media Wall & Coffee Table**  
Finished in crown cut walnut veneer with brushed aluminium feature inlay banding and plinth

**Reception Desk**  
Crown cut walnut veneer concave evolution® elite special with brushed aluminium feature inlay banding and plinth

Project: **Altius House**

Dealer: **RSR Interiors**

Business Area: **Commercial/Office**

Handled by global property advisors **CB Richard Ellis**, and with tenants such as **KPMG** and **HSBC**, **Altius House** is one of the most sought after commercial addresses in the region. When the time came for a refurbishment of the main reception area the landlord turned to **Russell Dixon**, Director at Interiors Specialists **RSR Interiors** to ensure that the type of crisp, contemporary environment befitting such a prestigious location would be created.

As the project was so close to Clarke Rendall's head quarters, a member of the design team was able to meet Russell on site to get a first hand understanding of what was required for the various elements specified. Russell was keen to retain the curves that divided the floor areas, and so a concave adaptation of an evolution® elite reception desk was designed by **Clarke Rendall** to follow the existing arc. To ensure design synergy across the whole space, the walnut veneer finish and brushed aluminium shadow gaps of the desk were also carried across to the **bespoke** media wall, service doors and coffee table.

evolution® elite EC3DDA:  
The inspiration for the styling of the final design

The installation was described by Russell as "*perfect*" and when asked about the client's reactions to the finished project he commented "*All parties concerned, including the landlord, the letting agent, the management company and the tenants are extremely happy with the quality and finish.*"

*"Clarke Rendall came back with some excellent 3d visuals of their design, I presented them to the client, who were also impressed and an instruction was given"*
