finished in maple laminate with brushed
aluminium recessed plinth

Curved acrylic upstand finished in
white etch effect supporting
maple laminate counter cap

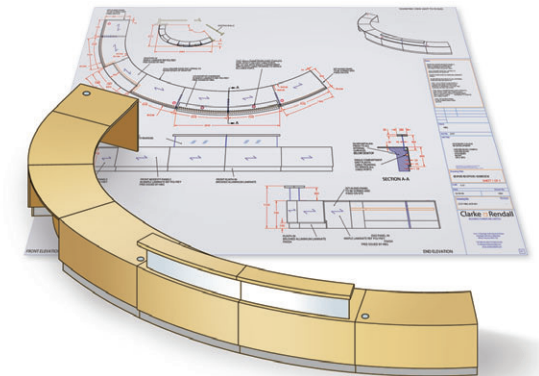

Desk set into large, heavily glazed
open plan reception area

Project: **Aylesbury College, Aylesbury, Bucks.**

Architect: **Bond Bryan**

Main Contractor: **HBG**

Business Area: **Education**

In this project, **Clarke Rendall** were specified by Architects **Bond Bryan** to design and manufacture a bespoke reception counter to feature at the heart of their large open space reception area in the new **Aylesbury College**.

Bond Bryan selected one of **Clarke Rendall's** standard products as the source of the styling, and based on an architect supplied footprint the **Clarke Rendall** design team set about generating working drawings.

Although this reception counter spans over 8m at its widest point, the actual design is clearly based on the evolution® classic **B1** standard product.

To ensure a smooth process from start to finish, Clarke Rendall worked closely with main contractor **HBG** at all stages of the project, co-ordinating site visits and the eventual delivery and installation.

To discover more about how **Clarke Rendall** can guarantee a painless, hassle-free process on your next project, call the support team on **01908 391600**.
