

"As always, Clarke Rendall were very patient...it was a difficult balance to strike, and Clarke Rendall did an excellent job of ticking all the right boxes"

CBS of Ascot

Reception Desk
evolution® eclipse tapered top special in walnut veneer

This project for the Thames Valley law firm **Blandy & Blandy** demanded a reception counter that would meet a host of typically diverse criteria. It was required to offer functionality, create a welcoming environment, house a good deal of existing technology and yet blend seamlessly into a grand Georgian reception area. *"It was a difficult balance to strike, and Clarke Rendall did an excellent job of ticking all the right boxes"* confirmed Designer **Hannah Litten** of Ascot based office Interiors specialists **CBS**.

Hindered somewhat by the space available, this reception desk went through several stages which saw it develop from a white laminate fronted standard product to its eventual form as a tapered top, walnut veneer evolution® eclipse special. As Hannah explains, *"Clarke Rendall came up with the tapered top idea, which I think works brilliantly"*

Clarke Rendall has a successful working relationship with CBS that goes back many years, and continues to thrive through trust and professional respect. This approach to business extends to all aspects of Clarke Rendall projects. As Hannah puts it, *"I was on site when the fitters were installing the desk and they were absolutely top notch."*
