The standard product with customisation built in

With over 200 products in the **evolution®** portfolio, there's almost always a simple solution that can be specified straight off the page with a single product code.

However, when the requirements are more specific or when a much larger reception desk is required, Clarke Rendall will call on their **twenty years experience in bespoke business furniture design and manufacture** to address all your needs point by point, and deliver a **tailor made solution** that will be **hand built to order**.

Call our design support team now on **01908 391600** to take the first step towards your ideal reception desk solution.

evolution® classic

Simple, minimal, contemporary with a choice of upstand options

evolution[®] eclipse

Practical, functional - traditional styling with a modern flair

evolution[®] elite

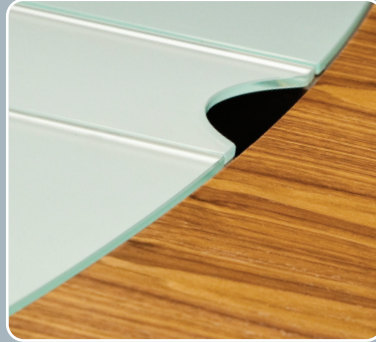

Ultra crisp lines - bold, but with a subtle edge

evolution[®] from
