# The Phoenix Difference

Retired  
Office Equipment

Recycling Facility

Recycled  
Post-Consumer Plastic

The above images are intended to depict the general trail of materials from source to finished planters and are not intended to show all steps involved in the process. Phoenix contains more than 80% Post-Consumer Material by weight.

Molding and  
Finishing

Phoenix gives new life to products  
that have already had a useful life.

# Phoenix

- Phoenix Post-Consumer made from products that have already had a useful life.
- Very resistant to scratching because ABS plastic absorbs paint much better than most plastics.
- Casters, Liners and Sub-irrigation are available for key items.
- All Liners are equipped with a robust centered column.

All colours ship within 5 business days.

- Plant replacements are fast and easy
- Each Plant Portrait contains 4 shelves.
- Simply add wicked plants to each shelf and fill each shelf with water.
- Frame sprayed in any standard colour or custom colour.
- Made with environmentally-friendly and durable Eco-resin.

All colours ship within 5 business days.

## Wicks from Nature's Green

Wicks have long been a successful method for extending watering cycles in commercial environments.

By applying wick technology to a tilted grow pot, watering cycles of 10 days to 3 weeks or more can be achieved. Simply add the specified amount of water to each tray and allow the wicks to draw water into the grow pots. Nature's Green has sturdy Caponic wicks in stock at all times.

### Plant Portrait Models and Dimensions (cm)

Plant Portrait	Width (cm)	Height (cm)	Number of shelves	Total amount of water	Approximate weight. fully planted/ watered (kg)	Approximate coverage when planted (m <sup>2</sup> )	Distance (cm) coming off wall
