CRICKET

**GROUNDS
MANAGEMENT
ASSOCIATION**

Corporate Plus

A large, portable cricket practice net is set up on a grassy field. The net is made of a dark mesh and is supported by a metal frame with four legs, each ending in a black wheel with a red hub. The net is positioned on a green lawn, and a portion of a cricket pitch is visible inside the net. In the background, there are trees and a clear blue sky with a few white clouds. A white fence is visible on the right side of the field.

Mobile Covers

Replacement Cover Tops

Are you looking to replace your cover tops for next season? Even if they were not purchased from Stuart Canvas, we can replace all cover tops. Using an existing top as a template or ask our technical team to arrange a site visit to measure them up.

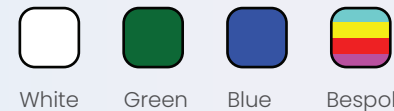

Custom Printing

Stuart Canvas have a digital in-house printer to enable us to print directly onto white cover tops, and to produce decals for our coloured tops.

This is ideal for school logos and name. Alternatively we can print the required design onto a flat section of PVC and secure it on the dome of each unit whilst on site.

Cover Top Colours

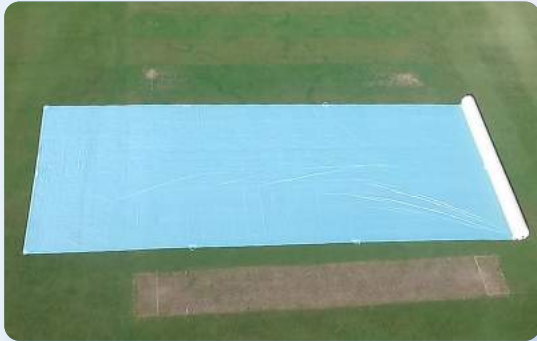

Our standard cover top colours are white, green and blue, however additional pantone colours are available on special request – minimums apply.

Cricket

Flat Sheets

Test

Manufactured from a 350gsm textile reinforced PVC and designed to let in light without 'burning' the grass, whilst being treated to withstand damage by fungicides and bactericides.

Pro Tech

Manufactured from lightweight 190gsm UV stabilised material. Which is easy to handle with a minimum of ground staff required.

The breathable cover allows sunlight through while maintaining a constant temperature underneath the cover, this reduces the amount of condensation formed and promotes grass growth. Due to this the Pro Tech flat sheet can be left on the ground for a period of days.

County

Standard Sizes

- 24m x 4m
- 25m x 4m
- 25m x 6m
- 25m x 8m
- 25m x 9m
- 25m x 12m
- 27m x 9m
- 27m x 12m

Our county flat sheets are manufactured from a 250gsm lightweight, semi-translucent material. Each sheet features grab handles every 15' and eyelets every 5'. They are ideal for stand-alone flat sheets or as side sheets and bowlers' run-up sheets when attached to mobile covers.

Inflatable Tube

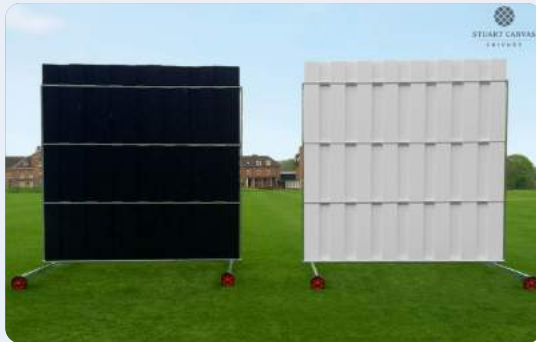

Inflatable tubes may be used to roll the cover out quickly. Manufactured from PVC material, in a variety of colours, the 3ft diameter inflatable tube is easy to roll on and off by one or two people. The inflation of the tube should take around 2-3 minutes with an adapted leaf blower. It is attached to the cover using Velcro.

Cricket

Sightscreens

Polypropylene

The Polypropylene Sightscreen may easily be moved by one person, therefore making it easier for ground staff. 4.25m x 4.5m or 4.25m x 5m. The removable PVC black and white slats are easy to remove for winter storage.

Roller Mesh

The Roller Mesh Sightscreen is ideal for use in windy conditions as the PVC mesh allows for air movement. Standard size 4m x 4m, Fully Galvanised, 40mm x 40mm Box Section, Heavy Duty Channel Base, available in White or Black Mesh.

Bespoke Sightscreen

We can design and manufacture sightscreen suitable for all requirements, if you have an unusual layout or limited space to accommodate a traditional design then we can create a solution to fit your needs. We have experience in producing bespoke sightscreen for both schools and large cricket clubs.

Wooden Sightscreen

Sturdy traditional design wooden sightscreens, as used all over the UK at all levels of the game. Our standard range has softwood boarding built onto a strong main bearer, with substantial timber axles and fully galvanised steel wheels.

Cricket

Sightscreens

Tracked Sightscreens

The tracked sight screen may be moved easily by just one person and the slats may easily be removed at the end of a game. The ease of the tracked sight screen with the reduced amount of space it requires. The tracked screens are easy and quick to install and are simple to use. We can manufacture these screens to whatever length and height that you require.

Flipper Sight screen

The Flipper Sight screen, is an innovative and unique cricket sight screen that can easily and quickly be converted from traditional white panels to black panels. This creates a sight screen that can be used for both limited over games and conventional formats without panels having to be replaced or for the entire sight screen moved from its position.

Roller Blind Sight screens

We can supply fixed roller blind mechanisms which acts like a sight screen but without the steel framework. The screen is attached to a roller mechanism and can be secured to the pavillion, this product acts as a blind, allowing spectators to see through, but prevents the players from seeing those behind the screen, thus avoiding distractions.

Sight screen Covers

These covers are made to fit any size of Sight screen. They secure to the bottom of the screen and are a simple, cost-effective solution for playing with a white ball. Please contact us with the size of your sight screen for a price.

Cricket

Electronic Scoreboards

Compact Scoreboard – 9 Digit

This 9 digit scoreboard is tailored to smaller budgets and may either be operated by a 12v battery or connected to the mains. It is ideal for Schools with multiple grounds as it can be easily moved using a trolley, a teacher can also update scores via the mini grip hand-held remote control.

Club Scoreboard – 15 Digit

This 15 digit scoreboard is designed to be a versatile scoreboard that can be easily fitted to the outside of a pavilion, while being light enough to be removed. The scoreboard uses 250mm amber LED digits which create a bright and clear number. The Club Scoreboards displays, Both Batting Scores, Overs, Wickets, 1s Innings and the Total Score.

County Scoreboard – 22 Digit

The County Scoreboard is the largest and most comprehensive scoreboard that we offer. The Scoreboard displays; both Batsman Scores, Wickets, Overs, First Innings, Last Man Score and the Total Score. This 22 digit scoreboard is designed to be a versatile scoreboard that can be easily fitted to the outside of a pavilion.

Cricket

Bespoke Scoreboards

Refurbishment

If you have an existing scoreboard with a sound structure, it can normally be fitted with a new fascia. We can design and fit the fascia ourselves or we can provide the School with the product and detailed drawings to help install the fascia.

Stuart Canvas can also supply bespoke scoreboards to suit customer requirements. Before embarking on a new build project, Schools should contact Stuart Canvas for a site visit, to help design and produce documents to supply to their local authority planning department.

Traditional

We can also offer a variety of traditional scoreboards:

- Standard
- Folding Portascore
- Portable Cricket Scorer – 3 line / 4 line Senior Extended Box

Cricket

Batting Cages

County

The County cage is 7.6 m long x 3.6m wide x 3m high, this makes it ideal for grounds where the cage will need to be regularly moved to different positions. The County cage comes complete with 8 x puncture proof swivel wheels.

Test

The Stuart Canvas Test Mobile Batting cage is the largest cage we produce it is 11.3m long x 3.6m wide x 3m high, complete with 8 x puncture proof swivel wheels. Ideal for full length practice for both the batter and bowler.

Bespoke

Stuart Canvas can also manufacture bespoke batting cages to suit all customer requirements, this includes bespoke sizes and printing option on vermin skirts.

All our cages are supplied with one piece netting, banners may also be placed around the bottom of the cages - this being an excellent opportunity for School or sponsor logo's.

Cricket

Indoor Netting

Our retractable indoor sports hall multipurpose divider netting is designed to reduce the space needed for indoor cricket practice, as they can be safely retracted and stored to keep out of the way when not in use. This makes them ideal and convenient for use in School sports halls.

At Stuart Canvas we produce an install custom made indoor netting to the customers' requirements. We can add integrated fabric sight screens to the mesh netting to provide a complete netting system for both bowlers and batters. Our nets are designed to absorb the high impact of cricket balls to create a safe area for indoor practice for players and spectators.

We can offer:

- Wall Fixed PVC Storage Pouches
- Full Tracking Systems with Netting
- Full Installation Service
- Full Sports Set Up Including Batting Carpets and Accessories
- Replacement Cricket Netting
- Bowlers End Protection Netting
- Integrated Sight Screens

Cricket

2G Flicx Pitch

The 2G Flicx Skills Pitch

The 2G Flicx Skills Pitch is a perfect coaching aid for young players in schools. The marked out bowling targets will help players achieve a consistent line and length, whilst developing a batters decision making and shot selection skills. The 2G Flicx Skills Pitch can be used with both hard and soft cricket balls and can be rolled out on various playing and training surfaces.

The 2G Flicx Match Pitch

The 2G Flicx Match Pitch has a traditional design, green in colour with the crease marked out in white. The 2G Flicx Match Pitch can be used with tradition stumps using the provided cut-out or it can be used with spring back stumps. The 2G Flicx Pitch is one of the most versatile cricket pitches on the market.

Fencing

Stuart Canvas can offer the Freemantle Fencing range, a durable cricket ground fencing solution. Made from white heavy duty UPVC the fencing creates an eye-catching crisp white look, which is robust and unlike wooden fencing, it is maintenance free.

Freemantle fencing can transform the appearance of any cricket ground while adding security and protection. The fencing can also create commercial benefits as sponsorship hoardings can be easily attached.

Cricket

Non-Turf Match Pitches & Practice Nets

High quality non-turf match pitches, practice facilities, netting and our own in-house designed SCP Deluxe System.

We provide a bespoke service, constructing and installing match pitches and practice nets with our installation team. We supply and lay the carpet and if required, manufacture and erect steelwork and netting. A typical installation of a system takes just 2 days by our knowledgeable and experienced installation team. We strive to reach the highest standards with our SCP Deluxe System and use the latest tools and dual grade laser to ensure complete accuracy when installing.

Cricket

Ancillaries

Boundary Rope Trolley

A heavy duty galvanised steel trolley with a central "bobbin" which holds two 220-metre boundary ropes. A handle winds the rope onto the bobbin. Size: 1070mm wide x 1270mm long x 1350mm high.

Boundary Rope

Our cricket boundary rope is available in 220m coils in the following diameters:

- 24mm Diameter
- 28mm Diameter
- 32mm Diameter

Boundary Rope Foam Collars

Using triangular foam covered with PVC, we are able to provide covers that accommodates advertising on the Boundary Rope. This is a perfect opportunity to print a sponsors logo or even a school name.

Wooden Catching Cradles

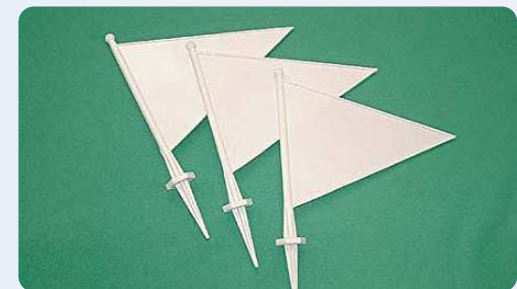

1.82m x 1.21m. Welded galvanised base frame. Weather resistant. English ash. Supplied assembled ready for use. Supplied with 2 spare laths.

Bola Bowling Machine

Microprocessor based digital speed control with membrane switch panel. Adjustable speed in increments between 15 and 95 mph. Spin, swing and pace bowling with 19 spin and swing settings.

Boundary Flags

- White moulded polypropylene
- Size 220mm x 280mm
- Available in packs of 25

Cricket

Ancillaries

Rebound Catching Frame

The Rebound Catching frame net is ideal for enhancing training and developing co-ordination skills. It is popular with Clubs and Schools, providing a dynamic yet fun environment.

Germination Sheets

Our 3.65m x 4.85m strong and durable germination sheets are long-lasting sheets for cricket wickets to protect your pitches and encourage growth. All our germination sheets come with reinforced hems and eyelets.

Replacement Cage Netting

Our 1.8mm & 3mm replacement netting for a batting cage is the best way to have your cage looking brand new again. The netting may need replacement after years of wear and tear or from damage from rodents.

Bowdry Ground Drying Machine

Designed to efficiently and effectively remove standing water from any surface. Ensuring sporting fixtures continue when under normal conditions, standing water would prevent play.

Wicket Protection Matting

Coconut Matting is the traditional way of protecting a cricket pitch or square. Ideal for use mid-week to protect a Saturday XI wicket.

Ball Stop Netting

Stuart Canvas can provide ball stop netting ideal for cricket, football and other ball sports. From low level netting to prevent the loss of balls to high level housing protection netting we can create a bespoke solution.

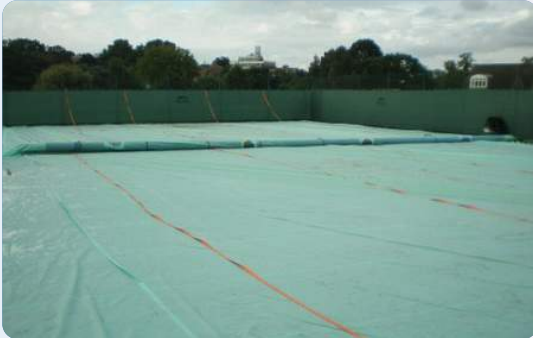

Tennis Court Equipment

Pages 17-19

Tennis

Court Covers & Windbreaks

Rain Covers

Our tennis rain covers are made of lightweight material and can be rolled out by a minimal number of staff, making them ideal for school use on all tennis court surfaces. Each sheet is made to measure to suit individual requirements, and provides protection from wet weather.

Windbreaks

We can manufacture Tennis Windbreaks from anything from a rot-proof canvas to a polypropylene material. These also act as shading for the court and players. The Tennis windbreaks simply slip onto your existing perimeter fencing.

Debris Covers

Our debris tennis court covers are ideal for use in the autumn and winter to prevent leaves, twigs and other natural debris being deposited on your hard court surface. By protecting the playing surface you are also prolonging the life of the court by preventing moss and weeds from developing.

Inflatable Court Covers

We produce the Inflatable Tennis Court Covers used at the Wimbledon Tennis Championships. They are made of a lightweight material which, once rolled out across the court, are inflated by fans to form a dome allowing water to drain into channels around the court.

Tennis

Court Accessories

Portable Scoreboard

The Scorli portable scoreboard is ideal for tennis and many other racket sports. It's unique design allows it to be easily transported and set up quickly, the scores can be remotely updated via smartphone using the dedicated app. The scoreboard can be hung on a wall or set up on a tripod.

Umpire Chairs

Stuart Canvas can manufacture umpire chairs to your requirements. We have several standard chairs and these are; The Championship Wooden Umpire Chair as used at the Wimbledon Tennis Championships, Standard Wooden Umpire Chair & Standard Steel Umpire Chair

Nets & Posts

Stuart Canvas can supply net posts, nets, centre bands, single sticks & measuring sticks in whatever volume you require. We offer both single and double nets and there are a variety to choose from.

Indoor Court Backdrops

We can provide tennis indoor backdrops for indoor school sports centres, we can remove old backdrops, measure, manufacture and install new backdrops. There are a variety of options to secure your tennis indoor backdrops, for example using tensions wire or bolted into the wall. We will advise on the best application after a site visit.

A photograph of a large, historic stone building with a prominent Gothic tower, likely a university or school, with a rugby field in the foreground. The building features multiple spires and arched windows. In the foreground, a rugby field is visible with a goalpost and two posts. The scene is set against a clear blue sky with some trees on the right side.

Football & Rugby Equipment

Pages 20-21

Football & Rugby

Players Tunnels

The retractable players' tunnel offers great protection from objects for when players are walking onto the football pitch. We design and manufacture to suit the client's exact needs. We have produce tunnels for, Etihad Stadium (Manchester City), Old Trafford (Manchester United), Elland Road (Leeds United) & many other top tier clubs.

Pitch Frost Covers

We provide football pitch covers that are ideal for frost prevention. Our covers allow both practice and matches to go ahead even with a night frost. The frost covers can be manufactured as a single skin, double skin or even a triple skin depending on the level of protection required. They are manufactured from a 130gsm material and have reinforced hems and eyelets to give the cover longevity.

Post Padding

Making posts, columns and sports goals safe is often a necessary requirement. Our heavy duty PVC is designed for permanent outdoor use. We can offer a printing service which is ideal for school names and logos.

Football Goals & Rugby Posts

We can supply a range of Football & Rugby posts. Including both training and full size goals and posts, for both grass and artificial surfaces.

Windbreaks

Bespoke windbreaks for playing field and training grounds. We offer the full design, manufacture and installation service if required. Ideal for both player and spectator protection.

A young athlete in a blue and yellow uniform is captured mid-air, performing a long jump on a track. The athlete is wearing a blue long-sleeved shirt with yellow accents and blue shorts. A white bib with the number '1004' is pinned to the chest. The athlete is in a dynamic pose, with one leg bent and arms outstretched. The background shows a green field and a red running track. The foreground is a large sand pit. A semi-transparent grey box is overlaid on the image, containing the title and page information.

Other Sports Equipment

Pages 22-23

Other Sports

Swimming Pool Covers

We manufacture both debris & winter protection covers for outdoor swimming pools as well as electric PVC covers. We use chlorine resistant material which will not degrade with exposure to chlorine. Each covers is bespoke to your swimming pool. Please note that we can manufacture replacement PVC swimming pool covers if the tracking is already in place.

Sand Pit Covers

Stuart Canvas can manufacture bespoke sand pit covers for both long jump pits and nursery play sand pits. We use durable PVC to create a hard-wearing and waterproof cover. Made to measure each cover is made to fit securely using a range of fixing methods.

Boxing Ring Covers

Stuart Canvas have been manufacturing Boxing Ring Covers and Skirts for over 6 years. With our highly skilled production staff, we can manufacture all rings to your own specification. All rings are butted stitched so there are no trips hazards on the Boxing Ring Canvas.

Equestrian School Covers

Stuart Canvas can supply covers to protect Ménages and riding arenas from frost, debris and rain. These made to measure covers allows you to train your horse all year round, and are an excellent addition to any riding arena.

Ground Maintenance

Pages 24-26

Ground Maintenance

Aggregate Bay Retractable Covers

Our retractable aggregate bay covers provide an innovative waterproof covering solution to protect all types of bulk products being stored outside. Stuart Canvas are able to produce retractable bay covers which can operate independently (single & multiple bays) and use a wall mounted tracking system to allow the cover to retract for loading and unloading of products.

Trailer Covers

We can produce trailer covers to suit any size from a standard boxed to bespoke to pick up. All of our covers are made to measure and produced to the highest specification. Our waterproof trailer covers are competitively priced and made from a minimum weight of 580gsm to a maximum of 900gsm PVC.

Tarpaulins

We can provide tarpaulins ranging from 80gsm to 220gsm polyethylene material which come complete with reinforced hems and eyelets as standard. We can also provide a heavy duty cover manufactured from 580gsm PVC. These flat sheets would be manufactured to suit your requirements.

Bespoke Equipment & Machine Covers

We specialise in manufacturing bespoke covers for all types of equipment and machinery. Our covers are made to measure to fit a customers' requirements. All of our equipment and machine covers are designed to provide ideal protection against inclement weather and industrial dust.

Ground Maintenance

Ratchet Straps

We can offer a wide range of ratchet straps from 800kg to 5 Tonne loading straps. We have both ready-made straps and can produce bespoke straps and fixings to suit your requirements.

Sandbags
