Introduction

Stuart Canvas manufactures a wide variety of products and has supplied and serviced Test Venues, County Grounds, Clubs and Schools for over 45 years.

"Cricket as a true global sport is continually striving to improve, from ground equipment, facilities to technology. As the National Cricket Manager for Stuart Canvas, I am proud to offer our wide range of products and services to Cricket Clubs, Schools, County Grounds and Major Test Venues all over the world. We will continue to manufacture new and innovative products, to help all ground staff and players globally."

Clint Hillhouse, National Cricket Manager at Stuart Canvas

Stuart Canvas provides:

- A wide range of high quality ground equipment including, mobile covers, flat sheets, batting cages, sightscreens and electronic scoreboards
- A full delivery and installation service in the UK, to ensure your equipment is set up correctly
- An installation service for non-turf match pitches, net facilities and our SCP Deluxe System
- An International service including India, Bangladesh, West Indies, Australia, the Middle East, South Africa, Europe and New Zealand

"We have used Stuart Canvas for all our pitch protection for many years and have found their service excellent. Their products do exactly what they are supposed to do - keep the pitch dry!"

*Stuart Kerrison
Essex County Cricket Club,
The ESG.*

Hover Cover

This flagship cover from Stuart Canvas has revolutionised the way major cricket grounds protect their pitches and squares.

The Hover Cover:

- Requires fewer ground staff to manoeuvre
- Reduces playing time lost to rain
- Protects the pitch and square within minutes
- Carries side sheets and run-up covers
- Speeds up the drying process via its air circulation units
- Allows sponsorship opportunities

The Hover Cover is currently being used at the following venues:

Lord's Cricket Ground, Edgbaston Cricket Ground, Old Trafford Cricket Ground, Trent Bridge Cricket Ground, SWALEC Stadium as well as Pune Cricket Ground (India) and Sher-e-Banga National Cricket Stadium (Bangladesh).

At Edgbaston Cricket Ground

Hover Cover at Trent Bridge Cricket Ground

At Sher-e-Banga National Cricket Stadium

"The hover cover is far superior to any type of wheeled cricket pitch covering, currently on the market.

It is quick, efficient, easy to handle and no more back ache.

A brilliant bit of kit"

*Mick Hunt, Head Groundsman,
Marylebone Cricket Club,
Lord's Cricket Ground.*

Mobile Covers

Our Mobile Covers feature:

- Fully galvanised steel to prevent rusting
- 5mm galvanised tubing create strong arches, ridge poles & support bars
- 2.8mm folded steel construction
- One piece gutter to prevent leakage
- 650gsm cover tops that reach the bottom of the cross member
- 12 x puncture proof wheels

Mobile Units

Stuart Canvas manufactures two models of domed mobile covers, as well as bespoke apex models.

Club or School Logo Printing,
Cheltenham College

Additional Extras

Bespoke Printing

Stuart Canvas have purchased an in-house printer to enable us to print directly onto white cover tops, and to produce decals for our coloured tops. This provides an excellent opportunity for advertising, by printing a sponsor's name or logo on the cover(s).

Alternatively we can print the required design onto a flat section of PVC and secure it on the dome of each unit whilst on site.

Cover Top Colours

Our standard cover top colours are white, green and blue, however additional pantone colours are available on special request – minimums apply.

Replacement Cover Tops

Are you looking to replace your cover tops for next season? Even if they were not purchased from Stuart Canvas, we can replace all cover tops. Using an existing top as a template or ask our technical team to arrange a site visit to measure them up.

Side Sheets

Side and bowlers' run-up sheets can easily be attached to our mobile covers.

Bespoke

Stuart Canvas can also manufacture bespoke mobile covers to suit all customers requirements. For example, the apex design at Somerset CCC.

Assembly

We will deliver and install your mobile covers.

Apex covers at Edgbaston, Warwickshire CCC

8m Domed frames - Eton College

Bespoke Units at Sussex CCC

Flat Sheets

Stuart Canvas manufactures three different types of cricket flat sheets:

All our flat sheets have grab handles, reinforced hems and eyelets every 5'. We can manufacture any bespoke size, however we do keep standard sizes of our county flat sheets in stock.

Test

Manufactured from a 350gsm textile reinforced PVC and designed to let in light without 'burning' the grass, whilst being treated to withstand damage by fungicides and bactericides.

Pro Tech

Manufactured from lightweight 165gsm UV stabilised material. Which is easy to handle with a minimum of ground staff required. The breathable cover allows sunlight through while maintaining a constant temperature underneath the cover, this reduces the amount of condensation formed and promotes grass growth. Due to this the Pro Tech flat sheet can be left on the ground for a period of days.

Test Flat Sheet, Hampshire CCC

Pro Tech Flat Sheet

Test Flat Sheet with inflatable tube

Mobile Covers with Flat Sheets

Pro Tech at Radley College

Flat Sheets

County

Our county flat sheets are manufactured from a 250gsm lightweight, semi-translucent material. They are ideal for stand-alone flat sheets or as side sheets and bowlers' run-up sheets when attached to mobile covers.

Previously purchased by Essex CCC, Leicestershire CCC and Worcestershire CCC.

Our standard sizes are:

- 24m x 4m
- 25m x 4m
- 25m x 6m
- 25m x 8m
- 25m x 9m
- 25m x 12m
- 27m x 9m
- 27m x 12m

Additional Extras

Bowdry Ground Drying Machine

Offers a light, strong, cost-effective water removal solution that ensures matches continue when otherwise standing water would prevent play.

Inflatable Tube

Inflatable tubes may be used to roll the cover out quickly. Manufactured from PVC material, in a variety of colours, the 3ft diameter inflatable tube is easy to roll on and off by one or two people. The inflation of the tube should take around 2-3 minutes with an adapted leaf blower. It is attached to the cover using Velcro.

Sightscreens

Stuart Canvas manufactures various models of sightscreens:

Roller Mesh

4m x 4m PVC mesh, ideal for windy conditions and comes with a winding handle to enable the mesh to be retracted when not in use.

Portascreen

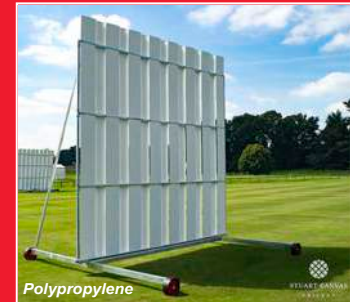

7.5m x 3m and with 4 poles, guy ropes and a carry bag for quick and easy storage.

Polypropylene

4.25m x 4.5m or 4.25m x 5m. The removable PVC black and white slats are easy to remove for winter storage.

Swivel

We can also provide rotating screens to change quickly and efficiently to white or black boards, which are on either side.

Polypropylene

Swivel - Black Side

Roller Mesh

Polypropylene - White Boards

Portascreen - White

Additional Extras

Roller Blind Sightscreens

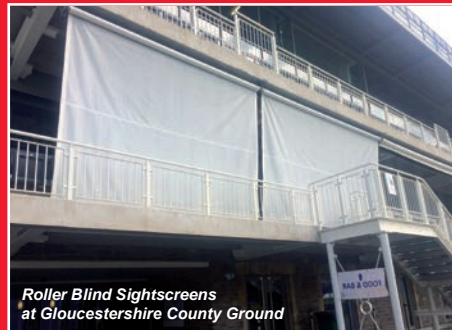

We can supply fixed roller blind mechanisms which acts like a sightscreen but without the steel framework. The screen is attached to a roller mechanism and can be secured to the pavillion, this product acts as a blind, allowing spectators to see through, but prevents the players from seeing those behind the screen, thus avoiding distractions.

Tracked Sightscreens

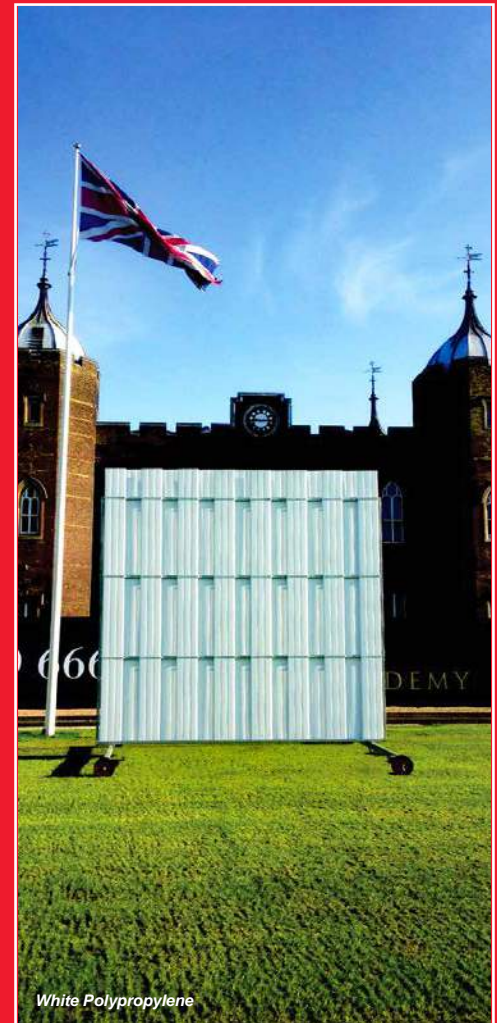

Our tracked sidescreens are ideal for cricket grounds that do not have enough space to have a traditional screen. The tracked sightscreen may be moved easily by just one person and the slats may be easily removed at the end of the game. The ease of the tracked sightscreen with the reduced amount of space it requires, make it a unique sightscreen in the cricket ground sector.

Electronic Scoreboards

Compact Scoreboard – 9 Digit

This 9 digit scoreboard is tailored to smaller budgets and may either be operated by a 12v battery or connected to the mains. It is ideal for Clubs and Schools with multiple grounds as a teacher or umpire may update scores via the mini grip hand-held remote control.

County

Club Scoreboard – 15 Digit

A 15 digit scoreboard that is designed to be a versatile scoreboard that can be easily fitted to the outside of a clubhouse. The scoreboard uses 250mm amber LED digits which create a bright and clear number. The Club Scoreboards displays, Both Batsman Scores, Overs, Wickets, 1st Innings and the total score.

Club

County Scoreboard – 22 Digit

The County Scoreboard is the largest and most comprehensive scoreboard that we offer. The Scoreboard displays; both Batsman Scores, Wickets, Overs, first innings, last man score and the total score. This 22 digit scoreboard is designed so that can be easily fitted to the outside of a clubhouse.

All our scoreboards can be controlled by a 'plug & play' easy to use a remote control, from anywhere in the ground.

Compact

		Dimensions		
Model		Wide	High	Deep
County	SCP22	2200mm	1500mm	110mm
Club	SCP15	2500mm	1100mm	110mm
Compact		1200mm	1200mm	110mm

Bespoke Scoreboards

Stuart Canvas can also supply bespoke scoreboards to suit customer requirements. Before embarking on a new build project, Clubs should contact Stuart Canvas for a site visit, to help design and produce documents to supply to their local authority planning department.

Refurbishment

If you have an existing scoreboard with a sound structure, it can normally be fitted with a new fascia. We can design and fit the fascia ourselves or we can provide the Club with the product and detailed drawings to help install the fascia.

Traditional

We can also offer a variety of traditional scoreboards:

- Standard
- Folding Portascore
- Portable Cricket Scorer – 3 line / 4 line
- Senior Extended Box

For County and Club Models

Non-Turf Pitches & Nets

High quality non-turf match pitches, practice facilities, netting and our own in-house designed SCP Deluxe System.

We provide a bespoke service, constructing and installing match pitches and nets with our installation team. We supply and lay the carpet and if required, manufacture and erect steelwork and netting.

A typical installation of a system takes just 1-2 days by our knowledgeable and experienced installation team. We strive to reach the highest standards with our SCP Deluxe System and use the latest tools and dual grade laser to ensure complete accuracy when installing.

"The nets are absolutely fantastic; we are all so pleased with them. They certainly are a cut above any other net system I have come across over the years." - James Scott, Chairman, North Enfield Cricket Club

Match Pitch at Charterhouse School

Netting Refurbishment at Kings College

Match Pitch

Non-Turf Carpets and Shockpads

A wide range of carpets are available for match pitches and non-turf systems including:

SCP Deluxe

Life Expectancy: 7-12 years

Manufacturer's Warranty: 7 years

Available Widths: 2.74m, 3.66m and 4m

SCP 12 Batting Shockpad

Life Expectancy: 8-12 years

Manufacturer's Warranty: 5 years

Available Widths: 2m and 4m

SCP Bowler Shockpad

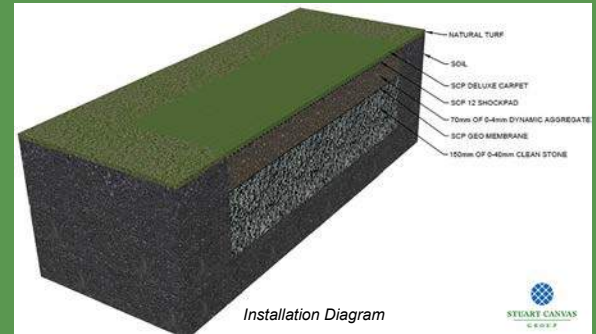

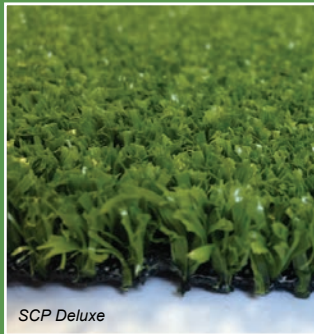

Life Expectancy: 8-12 years

Manufacturer's Warranty: 5 years

Available Widths: 2m and 4m

Match Pitches

Our standard SCP Deluxe Match Pitch is 30m x 2.74m and after a site visit, we can advise on the best possible solution, to accommodate your unique requirements.

Indoor Netting Installation

Our retractable indoor cricket nets are designed to reduce the space needed for indoor cricket practice, as they can be safely retracted and stored to keep out of the way when not in use. This makes them ideal and convenient for use in school sports halls and leisure centres.

At Stuart Canvas we produce an install custom made indoor netting to the customers' requirements. We can add integrated fabric sight screens to the mesh netting to provide a complete netting system for both bowlers and batters. Our nets are designed to absorb the high impact of cricket balls to create a safe area for indoor practice for players and spectators.

- Wall Fixed PVC Storage Pouches
- Full Tracking Systems with Netting
- Replacement Cricket Netting
- Bowlers End Protection Netting
- Integrated Sight Screens

Batting Cages

Stuart Canvas manufactures two different models of mobile batting cages:

County

This cage is 7.6m long x 3.6m wide x 3m high, complete with 6 x puncture proof swivel wheels.

Both are supplied with one piece netting, which includes a velcro opening at the back for the wicket keeper to use.

Banners may also be placed around the bottom of the cages - this being an excellent opportunity for club or sponsors logo's.

Bespoke

Stuart Canvas can also manufacture bespoke batting cages to suit all customer requirements.

Test

This cage is 11.3m long x 3.6m wide x 3m high, complete with 8 x puncture proof swivel wheels.

Ground Equipment

Germination Sheets

We manufacture many types of cricket germination sheets from 17 gsm fleece to 130 gsm in black porous material. All our germination sheets come with reinforced hems and eyelets so they can be pegged down.

Our standard sizes are:

■ 3.65m x 4.85m ■ 3.65m x 22m

Coconut Matting

- 1.8m wide, long lasting brown or green fibre matting
- Each length has strongly bound eyeleted ends
- Complete with ground pegs

The sizes we have available are:

■ 5.5m x 1.8m ■ 8.3m x 1.8m ■ 11m x 1.8m

■ 17.4m x 1.8m ■ 20.2m x 1.8m ■ 25m x 1.8m

Pro Wicket Protection Matting

Available size is 80' x 10', complete with hems and eyelets all the way round. It is the ideal product to protect your prepared wickets whilst matches are played on the adjacent wicket, as used for International matches across the globe.

Ancillaries

Bola Bowling Machine

- Concave profile moulded urethane ball delivery wheels
- Microprocessor based digital speed control with membrane switch panel
- Adjustable speed in increments between 15 and 95 mph
- Spin, swing and pace bowling with 19 spin and swing settings
- Ball joint complimented by vernier screw adjustment for precision line and length
- Powered by a 12 volt battery

Wooden Catching Cradles

- 1.82m x 1.21m
- Welded galvanised base frame
- Weather resistant
- English ash
- Supplied assembled ready for use
- Supplied with 2 spare laths

Pegs

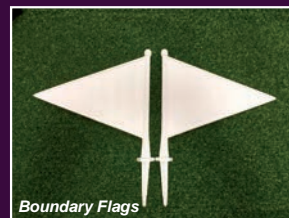

- We have a range of ground pegs
- Ideal for use with flat sheets and batting cages

Boundary Flags

- White moulded polypropylene
- Size 220mm x 280mm
- Available in packs of 25

Inner Circle Discs

- White moulded polypropylene
- Central hole for pinning if needed
- Size 190mm diameter
- Available in packs of 10

Ground Equipment

Boundary Rope

Our cricket boundary rope is available in 220m coils in the following diameters:

■ 24mm Diameter ■ 28mm Diameter ■ 32mm Diameter

Boundary Rope Trolley

A heavy duty galvanised steel trolley with a central “bobbin” which holds two 220-metre boundary ropes. A handle winds the rope onto the bobbin.

Size: 1070mm wide x 1270mm long x 1350mm high.

Boundary Rope Foam Collars

Using triangular foam covered with PVC, we are able to provide covers that accommodates advertising on the Boundary Rope.

This is a perfect opportunity to print a sponsors logo or even a school or cricket club name.

They are also easily removed and manoeuvrable.

2G Flicx Pitch

The 2G Flicx cricket pitch is a versatile, portable solution to your cricket match and practice facility issues. Quickly converts grass football and rugby fields into cricket facilities within minutes, due to upgrades on the new 2G Flicx pitch you can now also use on various surfaces including grassed areas, 3G sports fields, astro and even take your pitch indoors to convert indoor sports halls into indoor academies within minutes.

The 2G Flicx Match Pitch

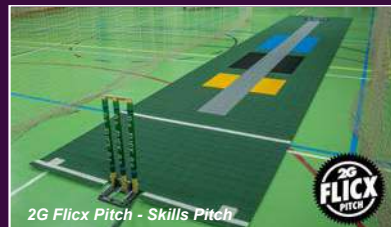

A traditional design, green in colour with the crease marked out in white. The 2G Flicx Match Pitch can be used with tradition stumps using the provided cut-out or it can be used with spring back stumps.

The 2G Flicx Skills Pitch

A perfect coaching aid for cricketers in schools and clubs, the colour coded coaching zones helps bowlers achieve consistent line and length, whilst helping improve batters decision making and shot selection skills.
