About Us - Our Product

Reformed Plastics (UK) Ltd are an **experienced Family business** who are a leading UK manufacturer & supplier of 100% Recycled Plastic sustainable products. We've been providing a unique & personal service, delivering directly from our Bournemouth based factory to the **Domestic and Commercial** sector Nationwide since the turn of the century. Due to the ever increasing importance to recycle, our aims are to help rebuild the environment by utilising a commodity which people would otherwise just throw away, turning what most would consider rubbish into a valuable product for everybody.

What can the plastic be used for?

We produce & install high quality, **strong and durable** products such as Outdoor Furniture, Anti-slip Decking, Fencing, Gates, Planters, Playground Equipment, Signage, Bollards and much more, all made from 100% HDPE recycled plastic!

Our products are completely weather-resistant, **maintenance free** and never need to be replaced. Therefore they are a great investment as they quickly pay for themselves in the long run and they will stay looking great for good, Guaranteed! ***In short, they're worry free!***

All our furniture is **delivered Fully Assembled** as standard - and with a **25 year guarantee**, our products are perfect for: Holiday Parks, Pubs, Restaurants, Hotels, Family Attractions, Schools, Businesses and the Home, just to name a few.

Why are recycled plastic products different?

Our manufactured high quality plastic has many practical and very useful properties. Due to our products high strength and durability, it's the perfect alternative to anything that has ever needed maintaining. **It's safe for big & little hands** as it does NOT rot, split or splinter and it can also be cut with a regular saw, drilled, nailed or screwed into, routed and generally worked just as easy as wood!

Plus it is **hygienic** too as it doesn't absorb moisture or bacteria. However the collection of airborne dirt is inevitable, therefore if you wish to, you can occasionally simply clean our products with anything from only a damp cloth to a pressure washer without causing any harm, to ensure that your purchase is kept looking great.

- Will Not Rot
- Will Not Split or Splinter
- Will Not need Painting or Staining
- Maintenance Free
- Strong & Durable
- Lasts over 50 years!
- Resistant to All Weather
- Resistant to Wear & Tear
- Resistant to Vandalism & Graffiti
- Resistant to Chemicals
- Resistant to Salt water
- Resistant to Insects & Bacteria

Is there a colour choice?

Yes. Our main colours are Black and Brown. However, we can produce various products from our range including, Grey, Beige, Yellow, Red, Blue, Green, Orange, Pink & Purple, or any combination of the above to **suit your style!** This removes the need for painting and staining.

So whatever colour you need to help freshen up your outdoor space... **just ask!**

Will it burn?

Nothing is completely non-flammable, but our products have an initial high flame resistance level. However, if encouraged our plastic can show similar burning characteristics as wood, and melt if exposed to intense heat.. e.g. Fire pits & BBQ's.

Is it more expensive than wood?

No. The initial cost can be more than wood, but our products are an investment as they never need to be replaced. When the costs for replacing decking or garden furniture are taken into consideration, both wooden and metal, due to corrosion or natural deterioration plus maintenance materials, solid plastic lumber and furniture **quickly pays for itself** and in the long run *saves you time, hassle and money.*

We hope that this page has answered most of your questions. However, please do not hesitate to **contact us** if there is any further information that you would like.

What Recycled Plastic Products are Available?

With developments in our modern technology, the range of products available made using recycled plastic is expanding rapidly. While this list is not exhaustive, it shows the wide variety of products particularly suited to landscaping and construction applications.

- Planters
- Litter Bins
- Signage
- Children's Play Equipment & Structures
- Outdoor Classrooms
- Fishing Platforms
- Jetties & Pontoons
- Driveway Stabilisation Grids

Reformed Plastics Policy

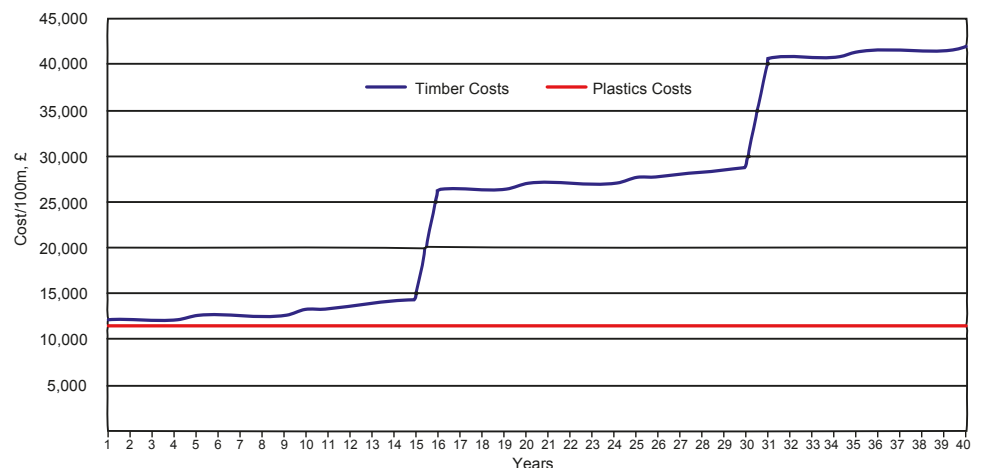

The ethos and motivations of our company are: *"Remoulding the past, Reshaping the Future, Rebuilding the Environment!"* Basically, the facts being, if we can help towards the prevention of unnecessary tree logging, save energy and minimise the amount of plastic waste going into landfill or our oceans, we then begin to find ourselves a **Green 'Win Win' solution!**

"Not only was delivery prompt and easy, the Reformed Plastics driver incredibly Helpful. The product is Great, and 9 years on still looks brand new. Better yet it's Recycled" **Doug Kirby - Swindon**

Financial benefits

Achieving value for money is a key driver for any purchasing decision. Although some recycled products have greater up-front costs, their longevity and durability make them a more **economic and sustainable option** over the long term.

Recycled plastic products can offer savings of up to 50% per annum in whole life costs over a period of 40 years.

Recycling has never looked so Good!

Recycling is an excellent way of saving energy and conserving the environments natural resources. The unreleased energy contained in the average dustbin each year could power a television for 5,000 hours.

We offer closed loop recycling, by diverting post-consumer plastic waste from landfill and manufacturing it into a huge variety of usable products.

For example: 62,000 plastic milk bottles = 1 tonne = 14 Picnic Tables (71Kg each)

You can feel good about yourself knowing you're doing your bit to help & protect the environment, as our products are made from plastic otherwise unfortunately destined for landfill or our oceans!

Bespoke Products

At Reformed Plastics we offer a wide range of standard products from benches to bollards, and decking to dining sets and more, all manufactured from 100% HDPE recycled plastic! However because we hand make everything to order, we're able to customise products to your bespoke requirements in a variety of colours, sizes and styles, including picnic table options that are suitable for use with **wheelchairs, mobility aids and pushchairs**. And if you can't find what you are looking for from our standard range, we have the flexibility and understanding to collaborate with you to bring an idea to life!

From concept to completion, our experienced and dedicated team based at our Parley workshop will make it their mission, for you to get the most out of your outdoor space for the **best price possible**.

So, are you looking to improve your outdoor eating area, learning & recreational space? *Do you want to remove the hassle of ongoing maintenance and save money and help the environment in doing so?* **Well, we're the answer!**
